katkıda bulunur. Hücresel ATP miktarında artış mTOR sinyal iletisini başlatırken, mTOR'un kendisi de ATP sensörü olarak görev yapmaktadır. AMPK ve mTOR yolakları memeli canlılarda çevresel koşullara uyum sağlamayı kolaylaştırmaktadır. mTOR'un ökaryotik canlılardaki hedefleri inisiyasyon faktörü 4E bağlanma proteini (4EBP1) ile S6 kinazı (S6K) fosforilleyerek aktive etmek iken, AMPK aktivitelerin regülasyonundan sorumludur. Böylece, AMPK ile mTOR'un yakın ilişkisi ortaya konmaktadır. Açlık, hipoglisemi, AgRp, grelin ve kanaboidler hipotalamusta AMPK aktivitesini aktive ederken, leptin, insülin, α-lipoik asit, melanokortin agonistleri ve hiperglisemi inhibe etmektedir (Cork vd 2018).

SONUÇ

Yağ dokusu, kas dokusu ve karaciğerden salgılanan adipokinler, miyokinler ve hepatokinlerin reseptörleri beyin dahil pek çok doku ve organda bulunabilmektedir. Her bir molekül kendi otokrin, endokrin ve parakrin etkisini hipotalamus ve/veya beyinin farklı bölgelerine etki ederek, hücre içi transkripsiyon mekanizmaları üzerinden metabolik aktivasyon sağlayarak, beslenme ve enerji metabolizmasını düzenlemektedir. Bahsi geçen doku ve organlardan salgılanan bu medyatörlerin aşırı salınması, medyatörlere karşı duyarsızlık veya medyatörlerin salınmaması gibi koşullar, başta beslenme düzensizlikleri olmak üzere metabolik sendrom, Tip 2 Diabetes Mellitus, kalp hastalıkları, obezite gibi çeşitli hastalıkların ortaya çıkmasına neden olmaktadır.

Hipertansiyon tedavisi farmakolojik tedavi yöntemlerinin yanısıra yaşam biçimi değişikliklerini de kapsayan nonfarmakolojik yöntemleri de içermelidir. İlaç tedavisine başlama kan basıncı düzeylerine göre belirlenir. Aynı zamanda kişinin sigara kullanma durumu, beslenme alışkanlıkları, abdominal obezite varlığı, diyabet varlığı gibi geri dönüşlü risk faktörleri belirlenmeli ve eş zamanlı tedavi edilmelidir (Türkiye Endokrinoloji ve Metabolizma Derneği, 2018: 29).

SONUÇ

Toplumların sağlıklı olması, bireylerin sağlıklı olması ile mümkündür. Sağlıklı birey olmanın şartı yeterli ve dengeli beslenmektir. Yetersiz/dengesiz beslenmeden kaynaklı hastalıklar hem ülkemiz hem de dünyamız için önemli halk sağlığı sorunlarındandır. Mortalite ve morbidite nedenleri içerisinde küçümsenemez bir yere sahiptirler.

Yetersiz ve dengesiz beslenme sonucu oluşan sorunların çözümü, iyi örgütlenme ve beslenme eğitimidir. Beslenme ile ilgili kurumlar arasında entegrasyonu gerçekleştirecek ve sürekli araştırmalar yapacak üst düzey otoritenin kurulması zorunlu hale gelmiştir. Beslenme eğitimi ise kaynakları en iyi şekilde kullanarak toplumda yeterli ve dengeli besin tüketme alışkanlıklarının geliştirilmesi, yanlış ya da olumsuz beslenme uygulamalarının ortadan kaldırılması, besin kaynaklarının daha etkin ve ekonomik kullanımını içermelidir.

lipogenez inhibisyonunda ve bağırsak glukoneogenezinin aktivasyonundaki rolleri nedeniyle obezitenin azalmasını sağlamaktadır (Vallianou ve ark., 2020).

SONUÇ

Fermente gıdaların insan sağlığına olumlu etkileri bilimsel çalışmalarda ortaya çıkarılmış ve hala da yeni özellikleri tespit edilmeye devam etmektedir. Bu olumlu etkilerine fermentasyon yoluyla açığa çıkan biyoaktif peptitler gibi bileşenlerin yanı sıra bu gıdalarda canlı olarak bulunan ve probiyotik denilen mikroorganizmaların bulunması örnek verilebilir. Birçok bilimsel çalışmada biyoaktif peptitlerin ve probiyotiklerin sağlık açısından önemli etkileri bulunduğu gösterilmiştir. Son yıllarda yapılan bilimsel çalışmalarda ise probiyotik kavramının yanında psikobiyotik, postbiyotik, paraprobiyotik gibi kavramlar da literatüre girmiş ve bunlar üzerine yoğun çalışmalar devam etmektedir. Sonuç olarak, uygarlığın başlangıcından günümüze kadar gelen ve insanoğlunun beslenmesinin önemli bir parçası olan fermentasyon ve fermente gıdalar insan sağlığına önemli katkıları olan gıda grubudur. Bununla birlikte, probiyotikler üzerine daha kapsamlı çalışmaların yapılması ile sağlık üzerine etkileri kesin olarak ortaya konulmuş olacaktır.

oranının artması inflamatuar yolaklar ile kardiyometabolik sağlığı olumsuz yönde etkileyebileceği için bu oranın 5/1 veya 10/1 arasında tutulması gerektiği bildirilmektedir. (Hammad vd., 2017; Alphan ve Baysal, 2019).

Görüldüğü gibi kardiyometabolik sağlık açısından beslenmenin rolü büyüktür. Beslenme ile alınan makro besin ögeleri kardiyometabolik sağlığı etkilemektedir. Özellikle basit şekerler, doymuş yağ asitleri, trans yağ asitleri ve hayvansal proteinlerin kardiyometabolik parametreler üzerinde olumsuz etkileri sözkonusu olup, diyetteki oranları sınırlandırılmalı, posa, omega-3, omega-6 yağ asitleri ve bitkisel protein kaynaklarının tüketimi ise artırılmalıdır. Beslenme bir bütündür. Sağlığı korumak, hastalıkları önlemek ve yaşam kalitesini artırmak için bu öneriler doğrultusunda bir beslenme şekli benimsemek, fiziksel aktivite ile de bu durumu desteklemek hastalıklarından korunma açısından en iyi çözümdür.

otoimmünitenin bir risk unsuru olduğu saptanmıştır. Bağışıklık güçlendirici ve antioksidan içerikli besinler hipertansiyon gelişmemesi ya da tedaviye erken yanıt için gerekli görülmektedir. Böbrek tarafından artan sodyum reabsorbsiyonu ve bunun sonucunda renin baskılanması tuza duyarlı hipertansiyon gelişmesine sebep olmaktadır. Bu nedenle genotip analizlerinde sodyum-bikarbonat taşıyan gende polimorfizm görülen bireylerde tuz kısıtlaması yapılması gerekmektedir. Ayrıca, hipertansif bireylerin çoğunun ilaçla tedaviye beklenen yanıtı vermemeleri de antihipertansif ilaçların bireyselleştirilmesi gerektiğini düşündürmektedir. Bunlara bağlı olarak hipertansiyonun etiyolojisindeki tüm mekanizmaların çözülebilmesi için daha geniş örneklem gruplarıyla genotip taramaları yapılmasına ihtiyaç vardır. Böylelikle hipertansiyonun önlenmesinde yeni tedbirlerin alınabilmesi mümkün olabilir. Sonuç olarak gen polimorfizmlerindeki analizler, bireylerin genetik özelliklerine uygun beslenme planlamasına olanak sağlayarak kardiyovasküler hastalıkları oluşmadan önleyebilmekte ve hastalık görülen bireylere etkin tedavi sunmayı mümkün kılabilmektedir.

vitaminlerin seviyelerinin; NASH'li hastalarda fibroz şiddeti, kolesterol/HDL oranı ve TG'ler gibi lipitlerin serum profilleri ile zıt ilişkili olduğu bildirilmiştir. Diğer araştırmalarda ise folik asit takviyelerinin hem *in vitro* hem de *in vivo* olarak daha düşük hepatik kolesterol ve kan glukozu düzeyleri sağladığı gösterilmiştir (Zhao vd., 2021)

B12 vitamini, DNA sentezi ve onarımında önemli bir rol oynamaktadır. Buna ek olarak, mitokondriye uzun zincirli yağ açil-CoA transferinin hızını düzenleyerek lipit metabolik yollarını etkilediği bilinen metil malonil CoA mutaz mitokondriyal enzimi için bir kofaktördür. Bir çalışmada, NAYKH olan bireylerde serum B12 düzeyinde düşüklüğün, serum ALT konsantrasyonunda yükseklik ile ilişkili olduğu da gösterilmiştir. Bununla beraber, NAYKH'de B12 vitamininin koruyucu rolünün tartışmalı olduğu bildirilmiştir. Serum B12 vitamini düzeyi ile NAYKH arasındaki ilişkiyi araştıran bir insan çalışmasında, hasta ve kontrol grupları arasında bir fark gözlenmemiştir. Bunun nedeni, çalışmanın sınırlı sayıda katılımcıdan oluşmasına ve bulguların yalnızca bir merkezden alınmasına bağlanmıştır (Li vd., 2016).

SONUÇ

Bu bölümde, hayvan modellerinden ve klinik çalışmalardan elde edilen veriler incelenerek, karaciğer hastalıklarında koruyucu ve tedavi edici potansiyeli bulunan nutrasötikler özetlenmiştir. Diyet takviyesine dayalı müdahale çalışmalarında; çoklu doymamış yağ asitleri, vitaminler, resveratrol, kurkumin, silimarin, kuersetin, karnitin, likopen, kateşin, naringenin, sinarin, antosiyaninler, peptitler, diyet lifleri, prebiyotikler, probiyotikler ve sinbiyotiklerin karaciğer hastalıkları üzerindeki etkileri derlenmiştir. Bu nutrasötik öğeler oksidatif stres yolaklarının düzenlenmesi, inflamatuvar süreçlerin inhibisyonu, antioksidan aktivitenin artırılması, lipit metabolizmasının düzenlenmesi gibi mekanizmalar ile karaciğer hastalıkları üzerine etki gösterebilmektedir. Karaciğer hastalıklarından korunma ve tedavide nutrasötiklerin rolünün daha net mekanizmalar ile ortaya konması için iyi planlanmış, geniş ölçekli randomize kontrollü klinik çalışmalara ihtiyaç duyulmaktadır.

Balık ve deniz ürünlerinin yüksek miktarlarda tüketiminin tip 2 diyabet insidansını önemli ölçüde azaltabileceği öne sürülmektedir. Balık tüketiminin bu tür faydaları ana bileşenleri olan omega 3 yağ asitlerine (özellikle eikosapentaenoik asit ve dokosaheksaenoik asit) atfedilmektedir (Chen vd., 2015). Bununla birlikte, tip 2 diyabetin önlenmesi için diyabetik hastalara omega-3 verilmesinin yararları hakkında ters bakış açıları ortaya çıkaran araştırmalar da mevcuttur (Muley vd., 2014; Li, 2015).

β-karoten ve α-karoten bakımından zengin diyetler, tip 2 diyabet riskinin azalmasıyla ilişkilendirilmiştir. Karotenoidlerin, diyabetle gözlenen ters ilişkilerin altında yatan antioksidan fonksiyonlara sahip olduğu bilinmektedir. Karotenoidler gibi antioksidanların oksidatif stresi azaltarak diyabeti azaltmada etkili olabileceği öne sürülmüştür. Ancak β-kriptoksantin, likopen, lutein ve zeaksantin bakımından yüksek diyetlerin tip 2 diyabet riski ile ilişkilendirilemediği bildirilmiştir (Sluijs vd., 2015).

SONUÇ

Dislipidemi, hipertansiyon ve diyabet, KVH için değiştirilebilir başlıca risk faktörleridir. Nutrasötikler, yalnızca antioksidan veya anti-inflamatuar özelliklerle doğrudan değil, aynı zamanda çeşitli fizyolojik yollar üzerinde modülasyon yoluyla dolaylı olarak da etki etmektedirler. Sonuç olarak, nutrasötikler KVH'ın yardımcı tedavisi olarak kullanılabilir, ancak klinik yararlılıklarının kesin kanıtını sağlamak için yeterli sayıda randomize kontrollü araştırmalara ihtiyaç vardır.

SONUÇ

Pankreas kanserinin değiştirilemeyen risk faktörleri arasında cinsiyet, yaş, etnik köken, diyabetes mellitus, ailede pankreas kanseri öyküsü, genetik faktörler, kronik enfeksiyonlar, O olmayan kan grubu ve kronik pankreatit sayılmaktadır (Rawla vd., 2019a). Bunun yanında, aşırı sigara ve alkol kullanımı, obezite, mesleki maruziyetler, beslenme ve egzersizin de dahil olduğu yaşam tarzı faktörleri değiştirilebilir risk faktörlerindendir. Sağlıklı bir yaşam tarzı, birçok sağlık yararı dışında, obezite ve diyabet gelişmesini önleyerek ya da geciktirerek pankreas kanserine karşı korunma sağlayabilir.

Antidiyabetik ilaçlardan yüksek doz insülin kullanımı pankreas kanseri riskini artırıcı etki gösterirken çok sayıda çalışma, metformin ve tiazolidindionlar gibi PPAR-γ sınıfı agonistlerin uygulanmasının kanser riskini azalttığını göstermiştir. Bu nedenle, kan insülin düzeylerini düşürmek ve insülin direncini tersine çevirmek için anti-diyabetik ilaçlarla insülin/IGF-1 sinyalini hedeflemek, pankreas kanserinin önlenmesi ve/veya tedavisi için yararlı bir strateji olabileceği düşünülmektedir.

Beslenme ve yaşam tarzındaki olumsuz değişiklikler sonucu obezite, diyabet ve birçok kanserin görülme sıklığının giderek arttığı günümüzde, toplum sağlığını korunmak için bireylerin sağlıklı beslenme konusunda bilinçlendirilmesi, sağlıklı yaşam tarzı bileşenlerini uygulama ve sürdürme alışkanlığının kazandırılması önemli bir adım olabilir. Bu amaçla, sağlık personelinin, bakım vericilerin ve sağlık eğitimcilerinin diyabet ve pankreas kanserinin risk faktörleri, erken belirtileri ve korunmaya yönelik yaklaşımlar konusunda farkındalıklarının artırılmasına yönelik müdahaleler hastalık sıklığının azaltılması yanında erken tanı ve tedavi olanaklarının sağlanması bakımından önemlidir.

beyin bariyeri geçirgenliği artmaktadır. Beyine zararlı gıda bileşenlerinin alınması sonucunda nöroinflamasyon süreci başlamaktadır. Çeşitli fitokimyasallar kan beyin bariyeri bütünlüğünü sağlayarak geçirgenliğin artmasını engellediği için uygulanan diyet modelinde yer alması önemlidir. Ayrıca, diyette probiyotik ve prebiyotiklerin de olması yaralıdır. Prebiyotikler, bağırsak epitel doku bütünlüğünü koruyarak geçirgenliğin artmasını ve nöroinflamasyonu önlemektedir. Sürekli hazır ve yağlı yiyeceklerin tüketilmesi bağırsak geçirgenliğini artırarak nöroinflamasyon oluşumuna neden olmaktadır. Trans ve doymuş yağdan zengin hazır gıdaların tüketimi nöroinflamasyona yol açmaktadır. Fazla tüketildiğinde nöroinflamasyona neden olan doymuş yağ asidi palmitik asit ette fazla bulunduğu için Akdeniz ve DASH diyet modelini uygulayan kişiler kısıtlı düzeyde palmitik asit alarak nöroinflamasyondan korunmaktadır. Bu nedenle, nöroinflamasyon oluşumunu engellemek için Akdeniz ve DASH diyeti önerilmektedir. Akdeniz ve DASH diyeti taze sebze ve meyvelerden zengin olduğu için fitokimyasallar açısından da zengindir. Fitokimyasallar nöro-koruyucu etki sağlayarak fazla miktarda kemokin ve sitokin üretimini engeller ve böylece nöroinflamasyonu baskılanmaktadır. Ayrıca, egzersiz, vücut ağırlığının azaltılması ve sağlıklı beslenme de nöroinflamasyon oluşumuna karşı koruyucu yaklaşımlardır.

SONUÇ

Mikrobiyota beyin işlevini etkilemektedir. Potansiyel bir mekanizmanın ne olabileceği araştırılmaktadır. İnflamatuar bağırsak hastalığı için spesifik bir mikrobiyal işaret yoktur. Bağırsaktaki total bakteri sayısı ve çeşitlilik farklılaşmıştır. Bu değişimle, inflamatuar bağırsak hastalığı arasında net bir bağlantı yoktur. Bundan başka, inflamatuar bağırsak hastalığı için mikrobiyotanın tedavi amaçlı kullanımında bilinmezlikler vardır. Çalışmaların sonuçları farklılıklar göstermektedir. Bu nedenle, gelecekte yapılacak yeni çalışmalara ihtiyaç vardır.

akrandan yaklaşık 10 kat daha fazla ölüm riskine sahiptir. Bir dizi yeme bozukluğu için etkili tedaviler bulunmaktadır ve yine de etkilenenlerin büyük çoğunluğu hiçbir zaman tedaviye erişememektedir. Ayrıca, erken teşhiste dikkate değer eksiklikler bulunmaktadır. Bundan dolayı, yeme bozukluklarının önlenmesi için hastalığın ve eşitsizliklerin yapısal belirleyicilerini hedef alan çabalar genişletilmelidir. Tedavi edilmeyen yeme bozuklukları ciddi tıbbi komplikasyonlara ve psikososyal bozulmaya neden olabileceğinden tanımlanması ve tedavisi çok önemlidir. Bununla birlikte, yeme bozukluğu olan birçok kişiye teşhis konulamamaktadır ve semptomatik bireyler arasında, cinsiyet ve ırk/etnik köken gibi özelliklere göre yeme bozukluğu tanısında önemli farklılıklar belgelenmiştir. Mental sağlık klinisyenlerinin, araştırmacıların ve politika yapıcıların nüfus sağlığını iyileştirmek ve yeme bozukluklarının toplumsal yükünü azaltmak için risk faktörlerinin taranması ve tanı için iş birliği içinde çalışması önemlidir.

Beslenme konusunda farkındalıklı bir yaklaşımı teşvik etmek, ağırlık yönetimi tavsiyelerine dahil edilecek olumlu bir mesaj olarak görülmektedir (Warren et al., 2017). Diğer bir sistematik derleme çalışmasına göre de uzun dönemli izleme dair bilgiler net olmasa da, farkındalık temelli çalışmalar tıkınırcasına yemeyi azaltabilmektedir (Grohmann & Laws, 2021). Bir başka sistematik derlemede, farkındalık meditasyonunun tıkınırcasına yemeyi ve duygusal yemeyi anlamlı bir şekilde azalttığını gösterilmiştir (Katterman et al., 2014). Ayrıca, sezgisel yemenin olumsuz duygulanım ve tıkınırcasına yeme arasındaki ilişkiyi önemli ölçüde düzenlediği ve artan sezgisel yeme düzeylerinin depresif semptomların tıkınırcasına yeme üzerindeki etkilerini engelleyebileceği öne sürülmüştür (Duarte et al., 2016).

SONUÇ

Yeme farkındalığı bireylerin yemekle ilgili duyusal farkındalığına ve yemekle ilgili deneyimlerine odaklanırken, sezgisel yemede birey vücudun ihtiyaçlarını belirlemek ve yeniden fiziksel duyumlara yanıt vermeye odaklanmaktadır. Bu müdahaleler vücut ağırlığı kaybını hedeflemese de ağırlık kaybında dolaylı yoldan etkileri belirsizliğini korumaktadır. Yeme davranışının iyileştirilmesinde ise destekleyici müdahaleler olarak görülmektedir. Yeme farkındalığı ve sezgisel yeme ile ilgili çeşitli popülasyonlardan alınan daha büyük örneklemler üzerinde uzun vadeli etkileri gözlemleyen daha fazla araştırma yapılması, genellenebilir sonuçlar elde etmek ve araştırmaların kanıt değerini artırmak için gerekli görülmektedir. Obezite ile mücadelenin psikososyal yönü göz önüne alındığında, son zamanlarda ilgi çeken yeme davranışına yönelik yeni yaklaşımlar olan yeme farkındalığı ve sezgisel yeme konusunda kapsamlı araştırmalar yapılması sonuçların klinik pratikte uygulamaya geçirilmesi için önemli görülmektedir.

SONUÇ

Yeme davranışını homeostatik sinyaller dışında 'sezgisel yeme davranışı' ve/veya 'farkındalıklı/dikkatli yeme davranışı' müdahaleleri ile yönetmeye çalışan yeme davranışı modellerin kullanılması, literatürde diyabetli bireylerin temel tedavisini oluşturan yaşam tarzı değişikliği müdahalesi ile desteklenmesi dikkati çekmeye başlamıştır. Literatürde taranan çalışmaların sonuçlarına göre bu yeme davranışı modellerinin diyabette glisemiyi iyileştirme yönünde olumlu rol oynayabileceği, diyabet öz-yönetiminde beslenme tedavisine uyumda katkı sağlayabileceği, diyabetli bireylerin besin seçiminde ve porsiyon kontrolünde kendi ihtiyaçlarının farkındalığının artmasında katkıda bulunabileceği ve diyet yapma stresinden uzaklaşarak diyabetli bireylerin ruhsal devinimlerine fayda sağlayabileceği şeklinde özetlenebilir. Ayrıca, diyabetlilerin geleneksel tedavilerine ek yarar sağlayacak paralel stratejiler haline gelebilir. Fakat mevcut çalışmaların sayısının oldukça az olması, heterojen özellikte ve çalışmalara dahil edilen katılımcıların sayısının oldukça az olması, çalışmaların daha çok kesitsel ve gözlemsel sunumu, karşılaştırmalı bazı çalışmaların sonuçlarında önemli farkların bulunmaması, bazılarının çelişkili sonuçlar sunması literatürde bu yeme davranışı modellerinin kavramlarının iç içe geçmesi ve fayda sağlıyorsa da olası potansiyel mekanizmaların açık olmaması bu yeme davranış modellerinin sınırlarını açıklar ve çıkarımların tartışmalı olduğunu gösterir. Ayrıca, literatürde diyabetli bireyler üzerinde beslenme tedavisi ile sezgisel veya farkındalıklı yeme davranışsal uygulamalarının karşılaştırıldığı vaka kontrollü randomize çalışmalar yoktur. Tıbbi beslenme tedavisinin tek başına A1c'de %1-2 kadar azalma sağladığı uzun zamandır bilinmektedir. Bu alandaki gelecekteki araştırmalarda sezgisel ve farkındalıklı yeme davranışlarının kronik hastalıkların beslenme tedavisinde yardımcı rol alabilmesi için yeni yöntemler geliştirilebilir. Bu yöntemlerin yararlarını saptayabilmek için daha kapsamlı, çok merkezli, uzun takipli, randomize kontrollü çalışmalara ihtiyaç vardır.

4. Aile Eğitimi ve Bireysel Danışmanlık verilmelidir. Bazı çalışmalar, tıbbi ziyaretler sırasında ŞTİ tüketimi konusunda rutin tarama yapılmasını önermiştir. Ailelere eğitim ve bireysel danışmanlık sağlamak, ŞTİ alımını azaltmak için yararlı bir yol olabilir (Scharf & DeBoer, 2016).
5. Şekerle tatlandırılmış içecekler ile ilgili medyada yer alan pazarlamaların çocuklar üzerindeki etkisini en aza indirin. Çocuklar ve gençler, yalnızca televizyondan değil, aynı zamanda reklam panolarından, dergilerden, mağazalardaki ve havaalanları ve metro istasyonları gibi halka açık yerlerdeki tabelalardan ve şimdi giderek artan bir şekilde iPad uygulamaları, video oyunları, e-posta ve telefonlar gibi teknolojilerden gelen reklamlara maruz kalmaktadır. Reklamın çocukların tercihlerini etkilemede etkili olduğu gösterilmiştir (Lobstein & Dibb, 2005).
6. Çocukların ve ergenlerin şekerle tatlandırılmış içeceklerin tüketimini haftada 1 veya daha az olmak üzere 1 kupa (240 ml) ile sınırlamaları önerilir (Kanıt Düzeyi A) (Vos vd., 2017).
7. Çocukların ve ergenlerin ≤25 g/gün (100 cal veya ≈ Günde 6 çay kaşığı ilave şeker) şeker tüketmeleri önerilmektedir (Kanıt Düzeyi C) (Vos vd., 2017).
8. İki yaşından küçük çocukların diyetinde ilave şeker içeren gıdaların tüketiminden kaçınılmalıdır (Kanıt Düzeyi C) (Vos vd., 2017).
9. Yiyecek ve içeceklerin etiketlerini dikkatli okuyun. Gıda etiketleri okumanın daha kaliteli bir diyet tüketmekle ilişkili olduğu gösterilmiştir. Bu nedenle, anne-babaların (ve mümkün olduğu ölçüde çocukların) paketlenmiş gıdaların içerik kısmında yer alan ilave şekerleri bilmeleri önemlidir (Welsh vd., 2011).

SONUÇ

Şeker tüketimi ve dolayısıyla oluşan şeker bağımlılığı, endüstriyel çağla birlikte erişimin kolaylaşmasıyla gün geçtikçe artmaktadır. Mevcut kanıtlar, ilave şeker eklenmiş gıdaların fazla tüketiminin artmış enerji alımı, abdominal yağlanma ile ilişkisini desteklemektedir. İlave şeker tüketimi, insülin direnci, T2DM, KVH, dislipidemi, hipertansiyon gibi kronik hastalıklar, NAYKH, yüksek ürik asit seviyeleri, disbiyozis, diyet kalitesinde azalma ve diş çürüğü de dahil olmak üzere bir çok faktörle ile ilişkilidir. Şeker bağımlılığını tetikleyen nedenler daha çok araştırılmalı, şeker tüketimini önlemek için davranış değişikliği önerilerine uyulmalı ve ulusal düzeyde politikalar geliştirilmelidir.

olmadığı aksine gastronominin diğer bilimlerden faydalanılarak gelişimini sürdüren bir ara disiplin olduğunu beslenme ve turizm bilimi göstermektedir.

Gastronomik değerler turizm açısından değerlendirildiğinde turizm bölgelerinin cazibelerini artıran o bölgelere önemli katkılar sağlayan, hatta tek başına çekim gücü olarak kullanılabilen ürünlerdir. Bu doğrultuda gastronominin bir disiplin olarak turizm ile ilişkisi olduğu açıktır ve turizmin gastronomiyi kapsadığı söylenebilir. Turizm, değişik olanın ya da hazzın arayışı olarak ele alındığında, bir bölgenin gastronomik değerler ile ilgili sunabildiği zenginlikler, turistlere çok boyutlu bir tatmin sağlayabilir. Bu tüketimin ardından yaşanılan tüm deneyimler turistik bir çekim unsuru olarak gastronomi ve beslenmenin önemini ortaya koymaktadır. Dolayısıyla turizmin, toplumların kendine ait beslenme davranışlarının ve alışkanlıklarının ve gastronomik değerlerinin tüketilmesine aracılık etme özelliğine sahip olduğu söylenebilir. Bu durumda beslenmenin hem turizm bilimi hem de gastronomi bilimi ile ilişkili olduğu ifade edilebilir.

3) Ekonomik sıkıntılara karşı en savunmasız olanların direncinin güçlendirilmesi;
4) Besin ögesi içeriği yüksek gıdaların maliyetini düşürmek için gıda tedarik zincirlerine müdahale edilmesi,
5) Yoksulluk ve yapısal eşitsizliklerle mücadele edilmesi, müdahalelerin yoksulları destekleyecek şekilde ve kapsayıcı olmasının sağlanması,
6) İnsan sağlığı ve çevre üzerinde olumlu etkileri olan beslenme modellerini teşvik etmek için gıda ortamlarının güçlendirilmesi ve tüketici davranışlarının değiştirilmesidir (FAO, 2021).

Biyoçeşitlilik açısından zengin, besin ögesi içeriği yüksek geleneksel gıdaları tüketicilerin tanımasını, desteklemesini, erişmesini sağlamak amacıyla yapılacak müdahalelerle beslenmenin ve beslenme ile ilgili olumsuz sağlık sonuçlarının iyileştirilmesi mümkün olabilecektir. Gıda temelli bu tür yaklaşımlar, aynı zamanda geleneksel bilginin, biyokültürel mirasın canlanmasına ve biyoçeşitliliğin korunmasına katkıda bulunmaktadır (Hunter ve ark., 2020). Yerel olarak göz ardı edilen ve yeterince tercih edilmeyen gıda biyoçeşitliliğinin besin ögesi değerini belirlemek, diyetleri, üretimi ve gıda sistemlerini çeşitlendirmeye yönelik güçlü bir teşvik olabilir. Aynı zamanda bu bilgi, yerel halkların biyoçeşitlilik kaybını tersine çevirmede, esneklik ve uyum kapasitesini artırmada oynayabileceği role ışık tutabilir, küresel halk sağlığı ve beslenmeye yönelik pek çok katkı sağlayabilir. Gıda biyoçeşitliliği ile yeniden entegre olan, sağlıklı ve sürdürülebilir gıda sistemleri, bu sorunlara yönelik sürdürülebilir ve yerel çözümler sağlayabilir.

unutulmamalıdır. Bu bağlamda, beslenme ve diyetetik pratisyenleri, uygulamanın diğer tüm yönlerine rehberlik eden aynı "Etik Kurallar" tarafından yönetildiklerini hatırlamalı ve ifşa kuralları ya da hasta/danışan mahremiyeti dahil olmak üzere sosyal medya profesyonelliği ile ilgili tüm faktörleri tam olarak anlamalıdır (Helm ve Jones, 2016).

SONUÇ

Sonuç olarak; sosyal ağlar, blog ya da vlog adı verilen yazılı/sözlü internet günceleri, çevrimiçi topluluklar, mobil uygulamalar, farklı platformlara yüklenen videolar ve çevrimiçi eğitim modülleri aracılığıyla gerçekleştirilen sosyal medya müdahalelerinin planlandığı hedef kitleye, doğru kanallar aracılığı ile ulaştırılması önemlidir. Bu bağlamda, sağlıklı beslenme davranışlarının geliştirilmesi üzerine farklı sosyal medya kanallarının kullanımında ortaya çıkan yaş ve cinsiyet farklılıklarının ya da hedef kitlenin sosyo-demografik özelliklerinin de dikkate alındığı ve davranış kazandırılmasına yönelik zaman kriterini de göz önünde bulunduracak, uzun soluklu ve kapsamlı daha fazla çalışmaya ihtiyaç duyulmaktadır.

verilen bir hormon salgılanır. Renin karaciğerde bulunan plazma proteinlerinden olan anjiyotensinojeni, anjiyotensin I'e dönüştürür. Anjiyotensin I, akciğerlerde ACE enzimlerinin etkisiyle anjiyotensinojen II ye dönüştürür. Anjiyotensinojen II ise adrenal kortekste aldosteron salınımın uyarır. Ayrıca anjiyotensin II, damarların düz kas tabakalarında kasılma sağlayarak vazokonstrksiyonu sağlar ve azalmış kan basıncını arttırır. Aldosteron eksikliği sonucu kanda başta potasyumun artışı sonucu kalp kontraksiyonu zayıflar ve aritmi gelişir. Bu sebeple aldosteron hayati önem taşır.

Zona fasciculata'dan ise glukokortikoidler salınır. En çok bilinen glukokortikoid kortizol, kortizon'dur. Kortizol; glukoneogenezisi arttırır, alerjik reaksiyonları baskılar, protein sentezi ve inflamasyon bölgesinde enzim aktivitesini azaltır.

Zona reticularis'ten gonakortikoidler salınır. Özellikle erkeklik hormonu olan androjen ve kasınlarda ostrogen'i üretir.

Adrenal medulla ise daha iç kısımda bulunan öz kısmıdır. Burada bulunan kromaffin hücrelerin salgıladıklarına katekolaminleri (Adrenelin ve noradrenalin çok azda dopamin) sentezler, depo eder ve gerektiğinde sempatik kontrolle kana bırakır. Noradrenalin; damarlarda vazokontrüksiyon yapar, kan basıncını yükseltir, kalp atışını hızlandırır. Adrenalin ise koroner arterler ve iskelet kasını besleyen arterlerde vazodilatasyon sağlarken, noradrenalin koroner arterlerde dilatasyon diğerlerinde vazokontrüksiyon oluşturmaktadır [1-6, 16]

Plateletlerin Görevi;

- Pıhtılaşmada gerekli olan kimyasal maddeleri taşırlar, gerekli faktörleri salgılayarak pıhtılaşmayı başlatırlar ve düzenlerler.
- Hasara uğrayan kan damarı çeperinde geçici tıkaç oluştururlar.
- Pıhtı oluştuktan sonra aktif olarak kasılırlar.

Bu şekilde pıhtı küçülür ve hasarın çapı azalır (65).

oluşturur. Rehabilitasyon programı oluşturulurken engelli bireyler fizyoterapistler tarafından geniş bir değerlendirmeye alınır ve değerlendirme sonuçlarına bağlı olarak tedavi planlanır. Bu tedavi elbette sadece fizyoterapistler tarafından planlanmaz. Sağlık sisteminde multidisiplineer bir yaklaşım şarttır. Bu disipliner grubunun ilk halkasını hekimler oluşturur. Daha sonra hekimin koyduğu tanıya uygun olarak fizyoterapist hekimin görüşleri doğrultusunda tedavi programını oluşturur ve hekim eşliğinde tedavi uygulanır. Tedavi çok amaçlı ve kapsamlı olmalıdır. Yine engelli bireyin de görüşü alınarak kısa-orta ve uzun vadeli amaçlar belirlenerek tedavi aşama aşama ilerletilir.

Tedavinin bir başka alt başlığı ise bakımdır. Engelli bireylerin sağlıklarının korunması ve sosyal ortama adapte olabilmeleri için bakım hizmetleri çok özenli ve dikkatli bir şekilde yapılmalıdır. Kendi kişisel bakımını gerçekleştiremeyen engelli bireylerin bakımlarını üstlenen profesyonel sağlık çalışanları mevcuttur. Burada hemşireler, bakım teknikerleri ve diğer sağlık çalışanları görev alabilmektedirler. Bununla beraber engelli bireyin sahip olduğu ailesi de bunu üstlenebilir ve devlet bu hizmeti için kendisine belli oranlarda maaş verir.

Bakımı yapılan ve rehabilitasyon programları ile mobil kılınmaya çalışılan engelli bireylerin tedavilerinin en önemli kısımlarından biri de sosyal hayata adapte olmaları ve bunun devamlılığının sağlanmasıdır. Burada multidisipliner grupta yer alan bütün sağlık profesyonellerine görev düşmektedir. Bununla beraber toplumun temel taşı olan halkın da engelli bireylere yönelik bakış açısı ve tutumu pozitif bir şekilde değiştirilmeli ve geliştirilmelidir. Ancak bu şekilde engelli bireylerin topluma entegrasyonları sağlanabilir.

gerekmektedir. Bu program doğrultusunda multidisipliner bir şekilde oluşturulan ekiple fonksiyonel bir çalışma ortamı planlanıp geriatrik bireyin tedavisinin ve yaşam kalitesinin artırılması sağlanmalıdır.

Rehabilitasyon programının merkezinde geriatrik bireyin kendisi bulunmalıdır ve gerektiğinde program esnetilebilmelidir. Belirlenen hedefler gerçekçi olmalıdır ve hedefler belirli aralıkla kontrol edilmeli gerekiyorsa revize edilmelidir. Hâlihazırda bulunulan düzey ve fonksiyonlar periyodik olarak değerlendirilmeli ve korumaya yönelik çalışılmalıdır. Geriatrik bireyin yaşam kalitesini geliştirmeye yardımcı olan, kişin bağımsızlığını artıran ve bu süreçte psikolojik olarak destekleyici şekilde bir rehabilitasyon süreci geçirmesi için özen gösterilmelidir. Geriatrik rehabilitasyon, hastanelerde, rehabilitasyon merkezlerinde, özel bakım evlerinde veya huzurevlerinde uygulanabileceği gibi kişinin kendi evinde de uygulanabilmektedir (46, 47).

1800 Kalorilik Ketojenik Diyet Menüsü

Sabah

100 ml süt
1 adet yağda pişmiş yumurta (2 D yağ)
20 g patates kızartması (3 D yağ)
10 adet siyah zeytin (1 D)

Öğle

15 gram köfte (2 D yağ)
Sebze graten (25 gram kabak, 25 gram patlıcan, 50 ml krema, 2 D yağ ile)

Ara

1 kutu (200 ml) ketocal LQ 4:1

Akşam

15 gram köfte (2 D yağ)
Sebze graten (25 gram kabak, 25 gram patlıcan, 50 ml krema, 2 D yağ ile)

Ara

1 kutu (200 ml) ketocal LQ 4:1

tanımlamaları pandeminin devam ettiği süreçte önem kazanmaktadır. Geleneksel bölümlendirme, doğru tüketicileri hedeflemeye ve yenilikçi ürünler veya hizmetler geliştirmeye yardımcı olmak için yeterli olmayacaktır. Müşteriler riskten kaçınan, sağlık bilincine sahip ve fiyatlara son derece duyarlı olacağı görülmektedir. Bunun için duyarlılığın ve değişkenliğin hat safhada yaşandığı şu süreçte tüketicilerin daha dinamik bölümlendirme kriterleri tespit edilerek analiz edilmesi doğru olacaktır.

erkek çalışanlara göre daha düşük olduğu söylenebilir. Ayrıca araştırma verilerine göre turizm sektöründe çalışanların ücret tatminin düzeylerinin ortalamasının oldukça düşük olduğu, iş doyum algılarından hoşnut oldukları ve işe yabancılaşma düzeylerinin kısmen yüksek olduğu bulgusu elde edilmiştir.

Çalışanların ücret tatmin düzeylerinin iş doyum algılarını pozitif yönde etkilediği tespit edilmiştir. Bu durum, çalışanların ücret tatminlerinin artmasıyla birlikte, yaptıkları işten hissettikleri doyumların artacağını göstermektedir. Bununla birlikte, çalışanların ücret tatmin düzeyleri işe yabancılaşma davranışlarını negatif yönde etkilediği görülmektedir. Bu durum da çalışanların ücret tatmin düzeylerinin artmasıyla işe yabancılaşma davranışlarının azaldığını göstermektedir. Bu doğrultuda araştırma hipotezleri kabul edilmiştir. Çalışanların covid-19 sürecinde yaşadıkları olumsuz değişiklikler ve düşük ücretli çalışma koşullarıyla birlikte, hissettikleri ücret tatmin düzeylerinde azalma, bu sebepten dolayı da iş doyumlarında azalma, işe yabancılaşma davranış ve duygularında artma olduğu söylenebilir.

Çalışan performansı üzerinde önemli bir etkiye sahip olan ücret tatmin düzeylerinin ve iş doyumlarının yüksek ve işe yabancılaşma davranışının düşük olması sektörün gelişimi açısından önemli bir etkendir. Araştırmanın evreninin genişletilerek daha büyük bir örneklemde yapılması turizm sektörü açısından önemli gelişmelere katkı sağlayacağı söylenebilir. Aynı zamanda hem çalışanlar hem de örgütler açısından yararlı olması amacıyla turizm sektörü dışında da bu değişkenler arasındaki etkinin incelenmesi önerilebilir. Ayrıca ücret tatmin düzeylerinin diğer pozitif örgütsel davranışlar ve üretkenlik karşıtı iş davranışların üzerindeki etkisinin incelenmesi önerilebilir.

vitaminlerin kullanımı artmıştır. Lastik ve plastik ürünlerde ise tek kullanımlık ambalaj ürünlerinin olması ve salgın döneminde birçok kişinin tercih ettiği ambalaj ürünü olması sebebi ile doğru orantılı hasılat artışı yaşamıştır.

5.5. ELEKTRİKLİ CİHAZLAR : Salgında insanlar evlerinde fazla vakit geçirmeleri sebebi ile beyaz eşya ve merak uyandıracak elektrikli eşyalara ilgi artmış ve talep oluşmuştur. İnternet alışverişlerinden ilgili ürünlere çok hızlı ulaşılabilmekte ve bu sebep ile hasılatı artan sektörler arasında gösterilmektedir.

5.6. ORMAN ÜRÜNLERİ VE MOBİLYA : Elektrikli cihazlarda oluşan talep gibi salgında evlerinde fazla vakit geçiren insanlar evlerindeki mobilyalarında değişikliğe gitmiş veya bahçe evi şeklinde küçük barakalar yaparak doğa ile iç içe yaşamak istemiştir. Bu sebep ile orman ürünleri kullanımında da ciddi bir artış yaşanmıştır.

5.7. GIDA, İÇEÇEK, TÜTÜN : Salgında gıda ürünlerinde hasılat artışı un ve dondurulmuş ürün gruplarında çok ciddi yaşanmış olup sokağa çıkma kısıtlamalarında insanlarda stok yapma psikolojisi gelişmiştir. Sokağa çıkma yasaklarının uzaması ile birlikte insanlar birçok tüketilen gıdayı evlerinde yapmayı deneyimleyip birçok tüketim gerçekleştirmişlerdir. Bu durumlar gıda içecek ve tütün sektöründe ciddi hasılat artışlarına sebep olmuştur.

Regarding implications for findings, nursing is more open to burnout syndrome than many other professions (İlhan et al., 2007; Palfi et al., 2008). The reason is not entirely and only related to the occupational nature of nursing, but also some external, social, organizational, and occupational conditions generate injustice work environments among nurses. Some nurses working at some departments or units at some hospitals are more vulnerable to developing burnout syndrome and anxiety symptoms. Therefore, at least some preventive and intervention studies can be developed for nurses at more risk, especially for service units at university and private hospitals. These nurses seem to have more disadvantages than their colleagues. Changes in the health care system need to emerge, and quality standardization should be provided for all health personnel. Perhaps in the future, nurses' burnout syndrome levels could be compared to other health personnel in order to determine the exact role of type of hospitals and specialty of nursing. Finally, some practical issues can be engaged in the Turkish health system to remedy these inequalities of working conditions mainly derived from distinct units/specialties and different types of hospitals in Turkey. This study has some limitations. Firstly, our research design is cross-sectional. Secondly, our sample may not represent all nurses in Turkey because data were collected in only Afyonkarahisar city in Turkey. Further studies can be conducted with experimental designs and a higher sample size.

introduce their companies' activities in detail and to receive direct feedback from their customers. Entrepreneurs can create their own website on the Internet. Thus, they can easily promote their goods or services even if they are on the other side of the world. In addition to the promotion of companies and potential customers, the Internet offers the most widespread marketing and direct sales opportunities in the global market 24 hours a day, 7 days a week, with e-commerce methods such as online marketing and internet retailing.

CONCLUSION

Electronic commerce, which emerged as a result of the development of technology, has become an alternative application to the classical trade understanding for businesses. The use of electronic commerce by consumers in order to save cost and time has moved the commercial activities of businesses to the electronic environment.

In the process of the Corona virus, which can also be described as a crisis, electronic commerce has shown a great improvement for both businesses and consumers. Consumption behaviors have changed as a result of rules such as quarantine and social distance. Therefore, it has also caused changes in consumers' behavior and shopping channels.

The accounting of electronic commerce differs from the accounting of traditional commerce in some points. Especially in electronic commerce, most of the sales are made by credit card. The costs incurred by businesses for electronic commerce and the differences brought about by the delivery of products are reflected in the accounting system.

In the Uniform Chart of Accounts, where there is no restriction on the collection period for the credit card, 108 Other Liquid Assets are used, and in cases where there are restrictions, 127 Other Trade Receivables accounts are used. Businesses will benefit from using new accounts such as Receivables from Sales. Instead of 653 Commission Expenses, 652 Commission Expenses Related to Main Activities account is used for commission expenses.

need to be taken into account to achieve this. On the other hand, it prevents unnecessary equipment and excess personnel damage to the business on the other side of the menu planning. For this reason, in accordance with the menu planning in the kitchen or in the living room, the equipment and service personnel and the enterprises necessary for the best service of the menu and the enterprises will save from excessive damage. This is an important detail for businesses. When the researches are examined, the researchers stated that the menu cards are given as a single menu in the establishments providing food and beverage services. It will be possible to make an economic contribution by feeling that the guest is cared for and the business reminds the different varieties (main food, dessert, beverage) separately, reminding the guest of that type.

Kuhn, T. (1970). *Bilimsel Devrimlerin Yapısı*, (çev. Nilüfer Kuyaş). İstanbul: Alan Yayınları.

Yazıcı, M. (2004). "Çeviribilimde Disiplinlerarası Bir Yöntem: Sorunlar ve Çözümler", *Disiplinlerarası Ortam ve Yöntem Sorunları*, İstanbul: Multilingual Yayınları.

iki alan için de gerekliliği vurgulanmak istendi. Sosyal bilimler alanındaki disiplinlerarası çalışmalar farklı disiplinlerden araştırmacıların işbirliği içerisinde çalışmalarına, olgulara geniş bakış açılı yaklaşmalarına ve spesifik uzmanlık bilgilerini birleştirmelerine olanak sağlayabilir. Böylece tek alanlı çalışmalardan daha zengin ve gerçeklere daha yakın sonuçlar ortaya konabilir. Ülkemizde karşılaştırmalı edebiyat ve çeviribilim alanlarından araştırmacıların ekipler oluşturarak çalışmasının da özellikle dünya edebiyatı ilişkiler ağını kapsayan çalışmalarda verimli sonuçlar vereceğini düşünüyoruz.

kullandıkları ve bu değerlerin sadece kadın veya kız çocukları için değil, erkek çocuklar için de hayata geçirildiği görülmektedir. Bu nedenle baba blog yazılarının gelecek nesillerin ideolojik görüşlerini şekillendirmede önemli rol oynayan dijital günlükler olarak hizmet edebileceği düşünülmektedir.

- Bloglama sürecinde, sadece çocukları hakkında yazmakla kalmayıp, aslında birlikte zaman geçirerek çocukların hayatlarına dahil olan babalar, çevrimiçi ortamlarda babalık hakkındaki baskın söylemlerin yeniden inşa edilmesini ve "ideal baba"nın normatif hale gelmesine katkı sağlamaktadır.

Sonuç olarak, bloglar etkileşimlilik için verimli alanlar olarak kabul edildiğinden, blogger yazılarının ebeveynlik ve sağlığın teşviki açısından etkili ortamlar olabileceği sonucuna ulaşılmıştır. Baba blogcularının ebeveynlik deneyimlerini başkalarıyla paylaşmalarının daha besleyici bir babalık kültürünün oluşmasına katkı sağladığı düşünülmektedir. Dolayısıyla babalık becerilerinin ve kişisel sağlık deneyimlerin paylaşılması, gelecek nesiller için de sosyal sermaye oluşturmaktadır. Çocuk bakımı, beslenme, zindelik, etkili vakit geçirme konularında babaların rolünü de normalleştirerek, baba katılımı için beklentileri arttırmaktadır.

daha çok gittiği lüks yerleri paylaştığı görülmüştür. Medeni durum da gösterişçi tüketim eğiliminde bazı noktalarda farklılıklar göstermiştir. Evliler daha çok gittikleri, gezdikleri yerler, aktivitelerini, canlı video bağlantılarıyla nerede kimlerle olduklarını paylaşmaktan hoşlanırlarken, bekarlar odağında kendilerinin olduğu selfieler paylaştıkları, paylaşımlarına gelen etkileşimlere ve takipçi sayılarına önem verdikleri ve gösterişçi paylaşımları görgüsüzlük olarak görmedikleri ortaya çıkmıştır. Eğitim durumuna göre yapılan kıyaslamada iki ifade hariç tüm ifadelerde anlamlı farklılık ortaya çıkmış ve genel olarak eğitim seviyesi yüksek olanların düşük olanlardan daha yüksek gösterişçi tüketim eğilimi ortalamalarına sahip oldukları ortaya çıkmıştır. Fark çıkmayan iki ifade ise selfie fotoğraflar paylaşmayı sevmek ve lüks tüketimin paylaşılmasının görgüsüzlük olarak görülmemesidir, iki ifadeye de genel olarak katılımcılar katılmamıştır. Gelirle ilgili bulgulara göre geliri yüksek katılımcıların daha çok aldığı ürünleri paylaşmaktan hoşlandığı, paylaşımların onlara daha çok sosyal statü kazandırdığı ve takipçi, beğeni, retweet sayılarına daha çok önem verdikleri görülürken, geliri daha düşük olanların daha çok selfie fotoğraflar paylaşmaktan haz duyduğu, paylaşımlarına gelen geribildirimleri daha sıkı kontrol ettikleri ve lüks paylaşımların görgüsüzlük olmadığını düşündüklerini paylaşmışlardır.

Elbette bu durum hastalık tespiti, önlenmesi ve hatta tedavi edilmesi noktasında mekânsal bir değişime de neden olmuştur. Artık hastane temelli sağlık hizmetleri veya tıbbi araştırmaları mekân sınırı olmadan yapılabilmektedir. Sağlık alanında bu durum gelecekte farklı teknolojiler ile desteklenebilecektir.

Tüm bunlardan yola çıkarak insan bedenine doğrudan müdahale sağlayan akıllı giyilebilir teknolojiler ve akıllı cep telefonları aynı zamanda internet teknolojileri transhümanizmin bizlere sunduğu çerçeve içerisinde değerlendirilebilir. İnsan makine ilişkisinin bu şekilde sağlık alanındaki beraberliği birçok anlamda olumlu sonuçlar doğurmuştur. Giyilebilir akıllı teknolojiler şu anda sınırlı fonksiyonlara sahip olmalarına rağmen gelecekte çok daha fazla fonksiyonu ortaya koyabilecektir. Bu da hem sağlığı hem sağlık iletişimi hem de tıbbi müdahale kavramlarını yeniden yapılandırmamıza neden olacaktır.

öğrencilerini Covid-19 salgını hakkında bilgilendirmeye ve eğitimlerine katkı sağlayıp sağlamadığının araştırıldığı bir çalışmada öğrencilerin yaratıcılıklarının yanı sıra bilgiyi akılda tutma konusunda bilişsel becerilerinin geliştirdiği tespit edilmiştir (Lopes & Gonçalves, 2021). Bunula birlikte birlikte MathBuilder kullanan ilkokul öğrencileri için bir AR matematik oyunu uygulaması (van der Stappen ve diğerleri, 2019) ve matematiksel kaygıyı azaltmak için AR destekli bir hikaye kitabının kullanılması (Wangid ve diğerleri, 2020) çalışmalarında Metaverse'in hem öğretmenlere hem de eğitim politika yapıcılarına katma değer sağlayabileceği gösterilmektedir. Sonuç olarak, eğitimcilerin kaliteli öğretme-öğrenme süreçleri sağlamak ve geliştirmek için Metaverse'nin etkili ve sürükleyici deneyim oluşturma potansiyelini anlamaları gerekmektedir. Bu nedenle, eğitimciler öğrenciler ve Metaverse arasındaki ilişkiyi daha iyi anlamak istiyorlarsa, bu teknolojinin eğitim sürecinde uygulanması, salgın sonrası dönemde öğrenci merkezli yapılandırmacı eğitimin önünü açabilir.

- Öğretmenler, fizik derslerinde sunuş yolu ile öğretim ve test çözme yerine deney yapma ve simülasyon kullanma konusunda teşvik edilmelidirler.
- Öğretmenler, öğrencilerin kavram yanılgılarını giderecek yöntem ve tekniklerle ders konularını işlemelidir.
- Öğretmenlere öğretim yöntemlerini kullanma, bilimsel yetkinlik ve teknoloji kullanma konusunda mesleki gelişim etkinlikleri gerçekleştirilmelidir.
- Öğretmenlerin öğretme güçlüğü çektikleri üniteler belirlenerek bu alanlarda öğretmenleri geliştirici mesleki gelişim etkinlikleri düzenlenmelidir.

kış aylarında diğer kaynaklardan gelen hava kirleticileri ile birleştiğinde bu durum daha da tehlikeli olmaktadır. Taşıtlardan kaynaklı kirleticiler diğer kirleticilerden farklı olarak ani ve doğrudan etkili toksit özellikler taşımaktadır. Emisyon kontrolü yapılmamış motorlu bir taşıtın insan üzerindeki olumsuz etkisi çok fazladır. Bir insanın günlük temiz hava ihtiyacı 15 m^3 olup, emisyon kontrolü yapılmamış bir motorlu araç bunu 10 dakika gibi kısa bir sürede zararlı hale getirebilmektedir (Kelen, 2014). Bu kirleticiler solunum ve solunum hastalıkları, başağrısı, unutkanlık ve kanser türü hastalıklara yol açmaktadır (Ertürk, 1993).

Çürüksu Havzası'nda özellikle Denizli şehrinde şehrin beşeri ve ekonomik özellikleri hava kirliliğinin meydana gelmesinde ve hava kirliliğinin artmasında önemli rol oynamaktadır. Bu nedenle yeni imara açılacak yerlerde hava kirlilği gibi çevre sorunlarının yaşanmaması için bölgenin beşeri özellikleri ile fiziki coğrafya özellikleri birlikte ele alınmalıdır.

müzik eğitiminin teknoloji etrafında döneceğine ve uygulama geliştiricilerinin odaklanacağı problemin, bu içeriğin bilgisayar destekli öğretim uygulamaları ile kolayca erişilebilir hale getirilmesi, mevcut öğretim süreçlerine entegre edilmesi ve etkileşime girilmesi olacaktır.

Sonuç olarak uzaktan eğitim sisteminin her geçen gün kullanımı artmaktadır. Geleneksel eğitim sisteminden öğrenme amaçları, içeriği, yöntemi, değerlendirme sistemi gibi konularda bazı farklılıklara sahiptir. Sahip olduğu bu farklılıklar uzaktan eğitimi, geleneksel eğitimin bir alternatifi değil, bütünleştiricisi ve tamamlayıcısı olarak ele alınmasını gerektirmektedir. Bu bağlamda uzaktan eğitim alanında daha fazla yatırım yapılarak, bireylerin öğrenmek istedikleri her konuda uzaktan erişebilecekleri eğitim imkanının sunulması gerekmektedir.

anlamda farklılık görülmediği tespit edilmiştir. Ceza alma durumunda teknolojiyle öğretim boyutunda ceza almayanlar lehine farklılık olduğu görülürken diğer boyutlar ve genel ortalamada farklılık görülmemiştir. Çalışma pozisyonuna göre entegre uygulamalar boyutunda yöneticiler lehine farklılık olduğu ve yöneticilerin entegre uygulamaları öğretmenlerden daha iyi kullandıklarını düşündükleri görülürken diğer boyutlar ve genel ortalamada farklılık olmadığı görülmüştür. Teknoloji kullanımıyla ilgili eğitim alma durumuna göre ise entegre uygulamalar, teknolojiyle öğretim ve genel ortalamada eğitim alanlar lehine farklılık olduğu görülürken eposta ve web internet kullanımı boyutlarında farklılık olmadığı tespit edilmiştir. Araştırmada elde edilen bulguların Horzum, Yaman ve Yaman'ın (2004) erkeklerin kadınlardan daha fazla teknolojik yetkinliğe sahip olduğu bulgusunu desteklediği görülmüştür.

Çalıştığı ilçeye, medeni duruma, çalıştıkları kademelere göre ise farklılık olmadığı ve okul yöneticileri ile öğretmenlerim teknoloji kullanımı yeterliklerinin benzerlik gösterdiği ve herhangi anlamlı bir farklılık olmadığı sonucuna ulaşılmıştır. Elde edilen bulgular ışığında araştırmacı ve uygulayıcılara şu önerilerde bulunulabilir. Okul yöneticileri ve öğretmenlerin teknoloji kullanımlarını desteklemek amacıyla kurslar ve seminerler yapılabilir. Okul yöneticileri ve öğretmenlerin teknoloji kullanımlarında web internet, entegre uygulama ve teknoloji ile öğretim alanlarındaki yetkinlikleri arttırılabilir. Okul yöneticileri ve öğretmenlerden özellikle kadınların teknoloji kullanımlarındaki yetkinliklerini arttırmak için eğitim ve teşviklerle desteklenebilir. Okul yöneticileri ve öğretmenlerden özellikle yaşlı olanlar teknoloji kullanımın da özellikle de eğitimde teknoloji kullanımında desteklenebilir. Okul yöneticileri ve öğretmenler lisansüstü eğitime teşvik edilerek dolaylı olarak teknoloji kullanımları da geliştirilebilir.

çalışılan en yoğun kazanımın, "vücut gerginliğinin giderilmesi", "yan-sırt-alt abdominal-pelvik kasların kullanımı ", "diksiyon" "artikülasyon", "artiküle organlarının kullanımı ve geliştirilmesi", ağız pozisyonu, "doğru postür" ile "nefes ve diyafram algısı" üzerine olduğu görülmüştür.

ÖNERİLER

1. Şan derslerinde; eğitimciler tarafından bedensel ve zihinsel gevşeme çalışmalarına daha fazla önem verilerek uygulamalar çoğaltılabilir ve eğitimlerde, öğrencilerin hareketsiz ya da sabit bir beden ile çalışmalarının önüne geçmek amaçlı çeşitli öğretim materyalleri kullanılabilir.
2. Müzik Öğretmenliği Ana Bilim Dallarında uygulanan, şan derslerinde kullanılmak üzere daha fazla öğretim materyali oluşturulabilir.
3. Şan eğitimine yönelik olarak yeni ve özgün metotlar geliştirilebilir.
4. Öğretim materyallerinin kullanımı üzerine, uzman kişiler tarafından, uygulamalı seminerler, etkinlikler ve çalıştaylar düzenlenebilir.
5. Eğitim fakülteleri müzik eğitimi bölümleri ve konservatuvarlar gibi eğitim kurumları arasında iletişim kurulabilir, gelişimler takip edilebilir ve uygulanabilir.

Öğretim elemanları materyal kullanımına yönelik güncel çalışmaları takip ederek, yeni materyalleri keşfedebilir ve bu materyaller öğretim sürecine dahil edilebilir.

Bu araştırmada ulaşılan bulgular kapsamında pandemi dönemi sonrasında uygulanacak uzaktan öğretim faaliyetlerinin planlı ve sistematik bir şekilde ve kalite güvencesi çerçevesinde kurgulanması, çevrimiçi ortamda sosyal varlığın ve etkileşimin güçlendirilmesi, müfredatın, ders sürelerinin ve sunum yöntemlerinin uzaktan öğretime uygunluğu hususlarına dikkat edilmesi önerilmektedir. Kurgulanacak uzaktan öğretim faaliyetlerinde özellikle K12 öğrencilerinin oyun ve esneklik ihtiyaçları dikkate alınmalı, bu öğrencilerin uzaktan öğretime ilişkin deneyimlerinin uzaktan öğretimin gelecekte nasıl şekilleneceğini etkileyeceği göz önünde bulundurulmalıdır.

be used over and over again. In this research, ELICA applications, which are free and open to everyone, were examined. These applications are thought to be more suitable especially for secondary school students to develop their spatial thinking. The activities with which ELICA applications can be used in the classroom are explained with examples. ELICA applications include 14 different sub-applications. In this research, Cubix Editor, Slider, Stuffed Toys, Scissors, Potter's Wheel and Origami Nets applications are introduced. Applications have features that support school activities and course achievements. With these applications, the activities designed in the classroom can encourage students to create geometric objects and design three-dimensional models.

O halde dijital çağda çocuklarımıza verebileceğimiz en güzel eğitim, o çağın gereksinimlere göre geliştirilmiş bilgi ve becerilerdir. Bu hepimize hem kolay hem hızlı, hem de güvenli bir ortam oluşturabilecektir. Başta çocuklarımız olmak üzere, insanlık bu çağın getirdikleriyle başa çıkabilmeyi ve bu çağı yönetmeyi başarmak zorundadır. Bunu yolu öğrenmek, kendimizi eğitmek ve bilmekten geçiyor. Öyleyse bunu bize sunabilecek olan semantik ve yapay zekâ dünyasına hoş geldiniz…

Sonuç olarak, teknolojinin insanların yaşamını kolaylaştırmasına rağmen, toplumu tüketime sevk edip kendine yabancılaşan bireyler ortaya çıkarması yönündeki etkileri dijital dünyanın en önemli sorunu olarak karşımıza çıkmaktadır. Dijital dünyada eğitimin tüm süreçlerinde aktif olarak kullanılmaya başlayan teknolojiler sayesinde, eğitimde bir devrim yaşansa da bu teknolojilerin eğitimin tüm sorunlarını ortadan kaldırmayacağı hatta beraberinde yeni sorunlar doğuracağı kanaatindeyim.

Lider ve özgüvenli çocuklar yetiştirmede ebeveyn rolleri ve tutumlarının önemi çok büyük. Özellikle ebeveynlerin ve çocuğa bakım verenlerin davranışları çocukların onları model almasıyla yaşama yansıyor. Bu modelleme olumlu olabileceği gibi olumsuz da olabiliyor. Çocuğumuzu özgüvenli bir şekilde yaşama hazırlıyoruz diyen ebeveynlerin önce kendi tutum ve davranışlarını göz önüne alarak çocuk yetiştirme sürecine girmesi gerekiyor. Yetişkinlerin iletişim şekli ve çocuğu ile kurduğu iletişimin kalitesi çocuğun özgüveninin temelini atıyor.

Williams'a göre çocuklarla çalışmak, dünyanın en duyarlı varlıklarıyla çalışmak demektir. Bu kadar duyarlı varlıklarla çalışırken alalade araçları kullanamayız. Çocuklarla çalışırken kullandığımız araçlar evrenin temel güçleridir (Williams, 2002: 44). O halde çocuklara yaklaşım yöntemlerimize de tekrar göz atmak ve işe yarayanları ayırt ederek geliştirmek ebeveyn ve eğitimcilerin öncelikli sorumluluklarından. Çocuğunuzun hayatta başarılı olmasının özgüvenli olmasıyla direk ilişkili olduğunu bilerek, yeni ve etkili yöntemleri araştırarak yaşama aktarma yolculuğu keyifle devam ettirmemize doğrudan etki edecektir.

1. Hedeflediğiniz davranışların neler olduğunu bilin
2. Çocuğunuzla etkileşimde bulunan herkesin de bu hedefleri bilmesini sağlayın
3. Problem davranışın sonucunda ne olacağına karar verin
4. Problem davranıştan sonra, belirlediğiniz sonucun hemen ortaya çıkmasını sağlayın.
5. Tutarlı olun
6. Problem davranışın önce kötüleşip sonra iyileşme göstereceğini bekleyin
7. Çocuğunuzun olumlu davranışlarını ödüllendirin.
8. Çocuğunuza, problem davranışlarını değiştirmenin yollarını gösterin
9. Davranış değiştirme programına, çocuğun çevresindeki herkesi dahil edin
10. İlerlemenin kaydını tutun

etmelerine engel olmaktadır. Çocuklar, dijital araçları kullandıkları süreçlerde aynı zamanda duygularını olumsuz biçimde ifade edebilmektedir. Drama çalışmalarına katılan çocuklar duyularını ve duygularını uygun biçimde denetleyerek, düzenleyerek dijital araçların neden olduğu olumsuz etkilerin üstesinden gelebilirler. Çocuklar drama çalışmalarında yalnızca kendi duygularını tanımakla kalmazlar aynı zamanda rol oynarken ve doğaçlama yaparken diğer katılımcıların da duygularını gözlemleme olanağı bulurlar. Çocuklar gözlemledikleri duyguların nasıl ortaya çıktığı, hangi durumlarda hangi davranışlara neden olduğu, doğaçlama sürecinde ele alınan sorunlarda duyguların ne gibi etkisi olduğu üzerine düşünürler.

Dijital araçların sıklıkla kullanıldığı günümüzde yaratıcı drama çalışmaları çocuklar için günlük yaşamın bir provası olarak da görülebilir. Dijital olanın tartışıldığı, sosyal medya araçlarının ve çevrim içi ortamların etkilerinin ele alındığı drama çalışmalarında çocuklar role girerek ve doğaçlamalar yaparak dijital çağın etkilerini gözden geçirebilirler. Eğitimde dramanın en önemli katkılarından biri çocukların dijital çağı, çağın sunduğu olanakları ve kendilerini nasıl etkilediğini rol içinde tartışmalarına fırsat tanımasıdır. Öğretmenler, ebeveynler ya da diğer yetişkinler dramanın sunmuş olduğu bu olanakları kullanarak çocukların daha bilinçli, içinde yaşadıkları topluma duyarlı, sanatsal ve kültürel açıdan yeni beceriler geliştirmiş bireyler olmalarına katkıda bulunacaktır.

yaşadığımız zamanı bir simülasyona benzetmesinin içeriğinden hareketle eleştirel bir çocukluk kuşağının gelecekte daha adil, demokratik, insan, hayvan, çevre vb. hakları konusunda gerekli sorumluluğu üstlenerek biçimlenebilmesi için hiphop üzerine yeniden düşünmek kaçınılmaz gibi görünüyor. İmkanlarına rağmen, insan kavramının içeriğinin tartışılmaya başlandığı bu dijitalleşme karşısında, bunun sağladığı verilerle kendisini dolaşıma sokan hiphop'ın içeriden bir eleştirel bilinç geliştirmeye yönelmesi ile Z kuşağı ve ardılı kuşaklar arasındaki münasebet de unutulmamalıdır.

Kreş, anaokulu, sonrasında gençlik merkezleri ve spor salonları çocukların geleceği için çok önemlidir. Çocuklara farklı kazanımlar kazandıracak, onların yeteneklerini ortaya çıkaracak, onları farklı uğraşılara yönlendirecektir.

Bedenen olduğu kadar ruhen de çocuklar aktif olmalı, duygularını sanal ortamdan ziyade daha çok kitaplarda, sahifelerde kimi kalemle yaşamalıdır. Bilgisayar, akıllı telefonlar ya da diğer dijital cihazlar artık kaçınılmaz gerçektir. Bu gerçeğin içine kitapları, defterleri, şiir yazmaları, sporu, çalgı aletlerini koymalı, bu gerçeğin içine bir arada oyun oynamaları, sohbetleri koymalı, bu gerçeğin içine anne babayla, aile bireyleriyle hafta sonları, tatillerde birlikte gezmeyi, yürümeyi koymalı, birlikteliğin sanal ortamdan ziyade beraber olmakla olacağı onlara anlatılmalıdır. Birliktelik ne kadar artarsa hem fiziksel hem de ruhsal sorunlar azalacak, dijital cihazlar oyundan çok araştırmaya, öğrenmeye, çalışmaya ayrılan araçlar olarak kalacaktır.

Unutmayalım: Çocuklar geleceğimizin kahramanlarıdır.

Derslerini önemseyip öğretmeninden "aferin" diye övgü alan çocuğumla gurur duyarken, sınıfa uyum sağlamakta zorlanıyor denilen bir diğer çocuğumun neden böyle sorunlu olduğunu düşünürken kendimi suçladığımı çok fark etmişimdir. Dikkat edin, aferin denilen çocuğum iyi ve başarılı, diğeri sorunlu.

Ah bu beklenti tuzakları! Ben eskisi gibi takılmıyorum artık bu tuzaklara. Çünkü biliyorum ki "Her çocuk özeldir." Hiçbir çocuk bir diğeriyle kıyaslanarak, sistemin içinde bir yere koyulmaya çalışılarak, bizim hayallerimizi gerçekleştirmek üzere koşullanarak büyümemeli. Size tavsiyem tüm bu beklentilerden uzak, sadece çocuğunuzu tanımaya çalışın. Çocuklarımızı tanırsak, onların ilgilerini, yeteneklerini, sınırlılıklarını bilirsek, onların özel varlıklar olduklarını, biricik olduklarını kendimize hatırlatırsak çocuk büyütmek çok keyifli bir hâle dönüşüyor. Unutmayın, onları yetiştirmiyoruz, eğitmiyoruz, şekil vermiyoruz, yaşamlarına eşlik ediyor, değerlerimizi aktararak rehberlik yapıyoruz.

etkileşmesi mümkün hale gelecektir. Bu durum, türlerin bireysel türlere dönüşmesi ve nihayetinde öz-bilinçli biçimciliğe evrilmesi şeklinde yorumlanmaktadır. 1980'li yıllar ise film türlerinde farklı izleyici kesimlerini bir araya getirmesi nedeniyle melez türlerin ortaya çıktığı ve yaygınlaştığı yıllardır. Farklı türleri bir araya getiren melez türler, tür filmlerine alışkın izleyici kitlelerini kendisine çekerken, hem film türlerinin gücünden yararlanmakta hem de yenilik peşinde koşmaktadır. Bu aşamada bazı türler öne çıkarken bazıları baskılanarak geri planda kalmaktadır. Bu durum, türlerin tarihsel diyalektik süreç içerisinde geliştiğini göstermektedir.

köle olarak yaratılmıştır. Bu sözler güçlü olanların hegemonyalarını genişletmek, ötekilerin emek ve bedenlerini sömürmek üzere kullandıkları ve bu haksız eylemlerini meşrulaştırmak için de Allah'ı ve onun fıtri kanunlarını gayri meşru bir zemine taşıdıkları bir düşüncenin ürünüdür. Evde çoğalan haşerelerin ya da tarlaya zarar veren varlıkların yok edilmesi ev ya da tarla sahibine meşruluk kazandırabilir. Ancak insan-doğa ilişkisinde de insan doğayı sömürürken birçok meşru olmayan haksız eylemi işleyebilmekte ve onu yok edebilmektedir.

Masumiyeti, mutluluğu akla getiren çocuk korkuyla, gülümsemenin temsili palyaçonun kötülükle/üzüntüyle görselleştirdiği O, ironik bir dil yakalamıştır. Çocukluğun heyecanı, sağlığı, büyüme coşkusu, zengin korku çağında etkili ve başarılı bir şekilde aktarılmıştır. Ayrıca bir korku filminde korkutan yaratığın beslenmek için korkuya ihtiyaç duyması filmi daha da ilginç kılmaktadır.

Aile ve ebeveynliğin üzerinde de önemle duran O, çocuk gelişiminde nasıl bir yol izlenmemesi gerektiğini özetler. Sorunlu ailelerin sorunlu çocukları üzerinden toplumsal sorunlar dile getirilir. Bu anlamda dönemin Amerikan toplumuna ayna tutmuştur. Bunların bugünde modern toplumda yansımalarını görmek mümkündür.

haricinde başka gezegenler arası bir mücadelenin öyküsünü anlatır. Karşılıklı istilaların ve yaratıkların olduğu sonsuz bir kum çölünde geçen olaylar silsilesi yaşanır.

Türün endüstriye cazip gelmesi, seyirciye çekici geldiği varsayımıyla yakından ilgilidir. Film izleyicileri genellikle herhangi bir filmden ne bekleneceği hakkında geniş bilgi sahibi olmayı severler. Türler yalnızca filmlerin kendisinden değil izleyicilerin oturmuş beklentilerinden de meydana gelir. Tür kimliği, hangi filmlerin izleneceğine karar vermede etkenlerden biri olabilir. Bu, bir filmi anlamaya ya da tarif etmeye çalışırken başvurduğumuz şeylerden biridir. Türün konumu hakkında biraz fikir, bir filmi izlemeye veya eşit derecede önemli olarak, izlememeye karar vermede yeterli olabilir. Bazıları için "bilim-kurgu" terimi yeterli vaatte bulunur (King, 2010: 128). Her iki *Dune: Çöl Gezegeni* filmi, bilim kurgu türünün başarılı bir örneği olarak tanımlanmaktadır. Temsildeki bu başarı, burada söz konusu edilen izleyicinin 'beklentisi'nin karşılanması ile de ilintilidir. Bilim kurgu türünün örneği olan *Dune*, hem 1984 yılı izleyicisi hem de 2021 yılı izleyicisi için belirli bir eşiğin üzerinde bir yapım performansı ile donatılmıştır.

Abisel (1999: 130)'in deyimiyle, bilim-kurmacalar, insanın bilinmeze yönelik dayanılmaz merakını itici güç olarak değerlendirerek, gelecekteki yaşamın mutlu ya da mutsuz olsun nasıl olabileceğine ilişkin projeler üretirler. Bunlarda yolculuk ya da keşif gezisi her nereye olursa olsun, sonucunda bilinmeyeni bilinir kılabilecek yeni olanaklar sunan, ulaşılması gereken bir hedeftir.

'Eski' ya da 'yeni' olarak her ne şekilde tanımlanırsa tanımlansın aslolan, 'tür'sel özelliklerin dönemin imkânları dahilinde yeni bir evrende inşa edilmesidir. 1984 yapımı *Dune* ile 2021 yapımı *Dune*, bilim kurgu sinemasının temsil yeteneği yüksek bir örneği olarak anılmaktadır. Bir sonraki yapımda 'insan'ın dünyayı aşkın sorunsallarına getirilebilecek bir sanatsal bakışın olması, izleyici beklentisi açısından kaçınılmaz olabilir. Sinemanın her ne türde olursa olsun dönüştürücü gücünün dikkate alınması, bilim kurgunun 'başka dünya' tasvirinde kendine yer bulabileceği öngörülmektedir.

sosyo-ekonomik gelişme sağlanmaya çalışılırken toplumsal olarak bazı sorunlarla karşı karşıya kalmak mümkündür. Hem birey hem de toplumsal açıdan ortaya çıkan bu sorunların başında işsizlik gelmektedir. Ne yazık ki günümüz dünyasında farklı bileşenlerinde etkisiyle işsizlik küresel bir boyut kazanmış durumdadır. Ekonomik olarak işsizlik sadece bireylerin gelir kaybını ifade etmemekte aynı zamanda içinde yaşadıkları toplumda psiko-sosyal sorunlar ve statü kaybı, yoksunluk, sosyal dışlanma, suça sürüklenme gibi toplumsal yaşamı da olumsuz etkileyebilecek sorunların oluşmasına yol açabilmektedir. Küreselleşme ile birlikte ulusal ve uluslararası düzeyde işsizliğin sürekli artış göstermesi yoksulluk riskini de tetiklemektedir. Bu nedenle önemli ve öncellikle çözülmesi gereken önemli kamusal nitelikli bir sorundur.

İşsizlik günümüz dünyasında işsizliğin neden ve sonuçlarının sadece ekonomik açıdan değerlendirilmemesi, bunun yanı sıra sosyo-psikolojik açıdan da değerlendirilmesi gerekmektedir. Çünkü işsizlik olgusunun özellikle sosyal ve psikolojik boyutlarının göz ardı edilmesi, aile yapılarında parçalanma, madde bağımlılığı, suç oranlarında artış, yoksulluk, intihar gibi diğer sosyal sorunların ortaya çıkmasına veya var olan bu sosyal sorunların derinleşmesine neden olurken, aynı zamanda toplumsal refah düzeyinin ve sosyo-ekonomik gelişmenin engellenmesine yol açabilmektedir. Dolayısıyla toplumsal ve bireysel olarak işsizlik sorunun sosyal çözülme ve dengesizliğe yol açmadan devletler tarafından sosyal politikalar aracılığı ile çözüm süreçlerinin ve programlarının hazırlanıp uygulanması gerekmektedir. Çeşitli ekonomik krizler ve özellikle son üç yıldır yaşanan küresel salgın dikkate alındığında işsizlik olgusunun giderek daha fazla tırmandığı bugünlerde kurumsal mekanizmaların acilen harekete geçmesi sağlıklı gelişme ve demokratik toplumların sürdürülebilirliği açısından önemlidir.

ülkede mülteci, göçmen ve sığınmacılara yönelik iyi uygulama örneklerini içeren çeşitli sosyal politika uygulamaları hayat bulmaktadır.

Son yıllarda coğrafi ve stratejik konum nedeniyle büyük kitlesel göç dalgalarına maruz kalan Türkiye, göçmenlere sınır kapılarını sonuna kadar açmaktadır. Aynı zamanda ülkemizde Türkiye Cumhuriyeti vatandaşlarına sağlanan birçok hukuki haklardan göçmenleri de dışlamayan insanı bir göç politikası izlenmektedir. Ancak burada önemli olan ve dikkat edilmesi gereken nokta; göç eden kişilerin toplumla uyum halinde yaşamalarını sağlayacak sürdürülebilir göç politikalarının oluşturulmasının yanı sıra toplumsal entegrasyonun iki yönlü olmasını sağlayabilmek olmalıdır. Dolayısıyla göçmen, mülteci veya sığınmacıların gittikleri ülkeye uyum sağlamaları desteklenirken, ülke vatandaşlarının da toplum refahını bozmayan ve bu gruba karşı uyum sağlamasını destekleyici politikaların izlenmesi önem arz etmektedir.

3. SONUÇ

Ulusların en büyük zenginlik kaynağı kendi insanlarıdır. İnsanların en büyük zenginliği ise sağlık ve esenlikleridir. Sağlık düzeyi bozulan, sağlık düzeyini korumak ve/ya yükseltmek isteyen bireyler bu ihtiyaçlarını gidermek amacıyla sağlık hizmeti kullanımına yönelirler. Sağlık hakkının en temel haklardan birisi olması ve sosyal devlet olmanın bir gereği olarak devletler/hükümetler, bu ihtiyaçlara tepkisiz kalamamaktadır. Bu amaçla bireyleri ve bireylerin oluşturmuş oldukları toplumu, sağlık sigortası yoluyla güvence altına alırlar. Ancak bireyleri güvence altına alma ve sağlık hizmeti sunma maliyetinin oldukça yüksek olması, sağlık harcamalarının ülke ekonomilerine büyük bir yük getirmesi, gereksiz sağlık talebi varlığı (ahlaki tehlike), artan beklenti ve yüksek kaliteli teknoloji kullanımı, yüksek maliyetli kronik hastalıkların artması, gibi durumlardan dolayı sağlık sistemleri her zaman sunulan sağlık hizmetlerinin tümünü, bir başka deyişle sağlık hizmetleri maliyetlerinin tamamını karşılamayabilmektedir. Bu nedenle sağlık sistemleri sağlık sigortalarının kapsamının ve derinliğinin azaltma yoluna gitme durumunda kalabilmektedir. Bu durum bireyleri ve haneleri bazı sağlık hizmetlerinin finansal yükünü cepten ödemek durumu ile karşı karıya bırakmaktadır. Ancak sağlık sektörünün kendine has özelliklerinden (girdi fiyatlarının oldukça yüksek olması, sağlık enflasyonunun genel enflasyondan yüksek olması, teknolojik gelişmelere bağlı olarak yüksek maliyetli sağlık teknolojilerinin kullanımı, asimetrik bilgi, nitelikli uzmanlaşmış iş gücü maliyetleri gibi) dolayı bu finansal yük bireyler ve hane halkları için yıkıcı/katostrofik olmakta, bireyleri yoksulluğa ve sağlıksız olma durumu ile karşı karşıya bırakmaktadır. Dolayısıyla bireyler elverişsiz yaşam koşulları ve psikolojik olarak çaresizlik ve umutsuzluğa sürüklenmektedir.

bireyler intihar etmeye teşebbüs etmekte veya bu teşebbüsleri sonucunda hayatlarını kaybetmektedir. Belki de toplumdaki en yıkıcı etkisi ise suç işlemeye yönelimdir. Çünkü bu dönemlerde bireyler gelir elde edemedikleri ve paraya ihtiyaç duydukları için hırsızlık dilencilik, gasp, dolandırıcılık, kaçakçılık gibi suçları işleyerek, ekonomik gelir elde etmeye çalışmaktadır.

4. SONUÇ

Kayıt dışı istihdam, bireyler ve aileleri üzerinde olumsuz birçok etkiye sahip olmakla birlikte beraberinde birçok sosyal sorunu getirmektedir. Bununla birlikte, kayıt dışı istihdamın sosyal güvencesizliği beraberinde getirmesi, bireyleri ve ailelerini ekonomik ve psiko-sosyal yönden fazlasıyla zorlamaktadır. Ekonomik ve sosyal sorunların karşılaştığı bir konumda yer alan kayıt dışılıkla mücadele edilmesi birey ve ailelerin geleceği için büyük önem arz etmektedir. Öncelikle önlenmesi gereken bu sosyal sorun ile ilgili bireylerin, ailelerin ve toplumun yaşayacağı hak kayıpları ile ilgili bilgilendirilmesi ve farkındalık çalışmalarının yapılması gerekmektedir. Yine bireylerin kayıt dışı istihdama yönelmesinin nedenlerinin detaylı bir şekilde incelenmesi ve bireylerin kayıt dışı çalışmama konusunda ciddi şekilde teşvik edilmesi çok önemlidir.

Bireylerin çalışma hayatında bulunması hem ekonomik hem de psiko-sosyal ihtiyaçlarını karşılama noktasında birçok olumlu etkilere sahiptir. Bu nedenle kayıt dışı istihdam sorununa sadece ekonomik etkileriyle yaklaşmamak, psiko-sosyal boyutlarının da her zaman göz önünde bulundurulması gerekmektedir. Kayıt dışı çalışan bireyler üzerindeki ekonomik ve psiko-sosyal etkilerin yok edilmesinin tek yolu, bireylerin resmi olarak çalışma hayatında yer almasıdır. Bu da sağlıklı toplumun ortaya çıkmasına, ekonomik anlam da güçlü ve psiko-sosyal yönden sağlıklı birey ve ailelerin toplumda var olmasını sağlayacaktır.

Koro dersine karşı olumlu tutumların ortaya çıkması için; Milli Eğitimin okul öncesi, ilköğretim ve orta öğretim düzeyinde müzik ders saatlerinin arttırılarak alan uzmanı olan müzik öğretmenleri tarafından verilmesi ile öğrencilerinin müzik dersi ile daha erken bir zamanda profesyonel bir bakış açısıyla tanışması ve öğretim müfredatlarında bulunan söyleme ile ilgili kazanımların arttırılarak yıl içerisinde dengeli bir şekilde verilmesi önerilebilir.

Bu araştırmadan yola çıkarak; MEABD öğrencilerin farklı derslere karşı olan tutumlarını belirlemeye yönelik yeni çalışmalar yapılabileceği ve öğrenci tutumlarının değişkenlerinin incelenerek tutum ölçekleri oluşturulabileceği önerilebilir.

Eserlerin büyük bir çoğunluğunda bölmeleri oluşturan cümleler dörder ölçülük ve simetriktir. Eserlerin altı tanesi (%55) minör, beş tanesi (%45) ise majör tonalitelerde yazılmıştır. Eserlerin hepsinde çok sesli doku, kontrpuantal yazı ile oluşturulmuştur. Yan derecelerin, geçici ve işleyici görevdeki ses ve fonksiyonların, ara dominantların, alterasyonsuz akorların ortak alınması ile yakın tonalitelere yönelmelerin de çokça kullanıldığı bu eserler, klasik armoni çalışmalarında da kullanılabilir niteliktedir.

etütte subdominant ailesinden hiçbir fonksiyona yer verilmediği belirlenmiştir.

Piyano çalma becerilerini geliştirme sürecinde, repertuvara alınan etüt ve eserlere ilişkin derinlemesine bilgi sahibi olmanın önemi düşünüldüğünde bu çalışmanın, icracılara olumlu yönde katkı sunacağı; biçimsel ve armonik yönden incelenen etütlerin, sahip oldukları özellikler dolayısıyla besteleme teknikleri, eşlikleme, armoni ve analiz gibi çalışma alanlarının başlangıç düzeyinde de kullanılabilir olduğu değerlendirilmektedir.

görülmüştür. İtalya'nın faaliyetleri bugün Arnavutluk ekonomisinde İtalya'nın ithalat ve ihracatta bir numara olmasını sağlamıştır.

İtalya'nın Arnavutluk tarihindeki olumsuz imajına karşı yürütülen faaliyetler, Yunanistan'ın Arnavutluk'la var olan siyasi sorunlara karşı gerçekleştirdiği atılımlar, Türkiye'nin tüm yumuşak güç avantajlarına rağmen daha fazla çaba göstermesi gerektiğini ortaya koymaktadır. Türkiye'nin Balkanlar, Akdeniz hatta Adriyatik ve Ege politikaları açısından Arnavutluk oldukça önemli bir ülkedir. Bu çerçevede Türkiye, askeri, ekonomik ve kültürel diplomasi araçlarıyla tarihsel olarak bağlı olduğu Arnavutluk'la ilişkileri daha çok geliştirecek adımlar atmalıdır.

Günümüzde, Bulgaristan'ın toplam nüfusu içerisinde çeşitli azınlık grupları önemli bir yer tutmaktadır. 2011 nüfus sayımı sırasında, etnik kökenle ilgili seçmeli soruyu yanıtlamak istemeyen vatandaşların sayısı 730.000 kişiden fazladır ve bu oran, Bulgaristan nüfusunun % 10'una tekabül etmektedir. Bu ülkede, Türk azınlığın toplam nüfus içerisinde resmî oranı hala % 9'u bulmaktadır. Bu grup, 19. yüzyıl Balkanları'nın en önemli Müslüman topluluklarının birinden arta kalan bir azınlıktır.[93] 2011 nüfus sayımında Pomaklar ayrı bir kategori içerisinde değerlendirilmezken, kendini Çingene olarak tanımlayanların nüfusu ise 320.000'den fazla olduğu görülmüştür.

Tüm bu gelişmeler birlikte değerlendirildiğinde Türkiye'nin Balkanlarda yeni düzenin getirdiği zorlukları içeren yeni bir dış politika geliştirmesi ihtiyacı doğmuştur. Sırpların aşır milliyetçiliğe dayanan siyasetinin Bosna ve Hırvatistan'da uyandırdığı reaksiyon Balkanlardaki dengenin Soğuk Savaş sonrasında bir toplum lehine değişmesini önlemeye yönelik politikaları gerekli kıldığından Türkiye ve Hırvatistan arasında yakınlaşma hız kazanmıştır. Böylece etnik temizliğe varan Sırp saldırganlığına karşı Türkiye destekli Hırvat ve Boşnaklardan oluşan bir cephe geliştirilmeye çalışılmıştır. Türkiye'nin Balkanlardaki istikrar ve güvenlik beklentilerinin Hırvatistan'ın milli siyasetiyle uyumlu olması Osmanlı döneminden kalan Hırvat ilişkilerinin Türkiye döneminde güçlenmesine yardımcı olmuştur.

Asya'da yer aldığı kadar Avrupa'da varlığını sürdüren Türkiye, bir yönüyle de Balkan ülkesi olma özelliğine sahiptir. Hırvatistan'ın Balkan siyasetindeki ağırlığı ve Türkiye ile savunma ve ekonomi alanında güçlenen ilişkilerinin gelecekte bölge istikrarına yapacağı katkı Balkanların Avrupalılaşmasını da hızlandıracaktır. Balkanlarda Müslüman halkın bölgenin geri kalanıyla barış içinde yaşaması için gereken kurumsal yapı ve toplumsal bağlar Hırvatistan ve Türkiye arasındaki ilişkilerle daha da güçlenecektir. Hırvatistan'ın güvenlik politikalarının Avrupa tarzı istikrar ve savunma refleksi geliştirmesi Türkiye'nin de desteğini alarak mümkün olabilecektir. NATO'nun Balkanlardaki istikrara katkısı Türkiye ve Hırvatistan'ın karşılıklı iş birliğini geliştirmesine son derece bağlıdır. Balkanların genel çatışmacı atmosferini uzlaşıya dönüştürmeye çalışan Türkiye ve Hırvatistan Osmanlı'dan beri devam eden karşılıklı iyi ilişkilerin bölgeye istikrar ve güvenlik olarak yansımasına katkı sağlamaktadır.

da geçmişe kıyasla önemli mesafe kat etmiştir. Bugün ticari ilişkilerde 250 milyon dolarlık bir hedef koyulmuş, ilişkilerin derinleşmesi ve gelişmesi için olumlu beyanlar ortaya koyulmuştur. Bu girişimler ikili ekonomik ilişkilerin gelişmesi ve işbirliğinin derinleşmesi için önemli fırsatlar sunmaktadır.

politikasını desteklememiştir. Sadece kendi özel konumundan ötürü problemin başlangıcında Yugoslavya'nın toprak bütünlüğünü destekleyen bir yaklaşım içerisinde olmuştur. Ancak NATO müdahalesi ile birlikte bölgede uluslararası işbirliği olanaklarını kullanarak Kosova'nın bağımsızlığına tam destek vermiştir. Bağımsızlıktan sonra da Türkiye ile Kosova arasında iyi ilişkiler kurulmuştur. Kosova ile Türkiye arasındaki ilişkilerin bu iyi seyri günümüzde de devam ediyor.

Balkan coğrafyasında ve Karadeniz'e sahili olan Türkiye ve Romanya'yı gelecekteki ikili ilişkilerde bu bölgelerin güvenliği ve istikrarı meselesi yine bir araya getirecektir. İki ülke arasındaki karşılıklı ilişkilerin bu temeller üzerinden yürütülmesi muhtemel olduğu için iş birlikleri her alanda devam edecektir.

Sonuç

Balkanlar ve Orta Avrupa topraklarında XV. ve XVI. yüzyıllarda siyasi ve dinî birlik olmadığı için Osmanlılar, Hırvatistan ve Slovenya sınırlarına dayandılar. Türk korkusu, farklı mezheplere bağlı olan Orta Avrupa halkını birbirine yaklaştırdı. Bu durumdan yararlanan Avusturya, Katolik Mezhebi'ni yaymaya çalıştı. Protestan Slovenler, Osmanlı korkusuyla XVI. yüzyıl başlarında Katolik Avusturya ile yakınlaştı. Katolik papazların gayretleri ve açılan Katolik okulları sayesinde Katoliklik Slovenya'da geniş çapta yayıldı. Sonuçta bugün Slovenlerin %73'ü Katolik'tir. Bu durum, Almanca konuşan ülkelerle Slovenya arasında güçlü bağların oluşmasına sebep olmuştu. Yugoslavya'dan ayrılan yeni devletlerarasında AB'ye giren ilk devlet olmuştur.

Bosna-Hersek gibi, Slovenya da I. Dünya Savaşı'ndan sonra kurulan SHS Krallığı, Yugoslavya Krallığı ve II. Dünya Savaşı'ndan sonra kurulan Sosyalist Federatif Yugoslavya Cumhuriyeti'nde yer almış, bu nedenle Türkiye ile ilişkileri bu çerçevede verilmiştir. 1991'de bağımsızlığını kazanan Slovenya Cumhuriyeti'ni ilk tanıyanlardan biri Türkiye olmuştur. Bu dostane davranışı unutmayan Slovenya, Türkiye ile hep iyi ilişkilerde bulunmuş; bununla birlikte iki devlet arasındaki ekonomik ilişkiler, istenen düzeye ulaşmamıştır.

ile bağımsızlıklarını ilan eden ülkelerle aktif bir iletişim halinde olan Türkiye, gerektiğinde Bosna- Hersek'te olduğu gibi askeri kapasitesini harekete geçirmekten geri kalmamış ve uluslararası örgütler aracılığıyla da Balkanlar da etkili olmaya çalışmıştır. Bunun yanında sahip olduğu TİKA ve Kızılay gibi devletin kurumlarının faaliyetleri ile de önemli bir yumuşak güç elde etmiş durumdadır.

Türk dış politikasının en temel prensiplerinden birisi olan uluslararası meselelerde meşruiyet gözetme anlayışının Yunanistan ile olan meselelerde bir fayda sağlamadığı tarihsel süreçte görülmektedir. Ziyadesiyle Yunanistan'ın meşruiyeti hiçe saydığı zamanlarda bile onu kayırmayı tercih eden Batının Türkiye'den yana tavır göstermediği gerçeğiyle yakın dönemde çok defa yüzleşen Türkiye'nin, politikalarını belirlerken bu durumu da hesaba katması gerekmektedir. Türkiye, Ege'de mülteci botlarını batıranın tek başına Yunanistan olmadığını, KKTC karasularını ihlal eden navtexlerin esasında Yunanistan'ın kendi endişelerinden ötedeki birtakım rahatsızlıkları dillendirdiğini, ortağı olduğu F-35 projesinden çıkarılırken Yunanistan'ı adeta bu uçaklarla donatanın ABD olduğunu görmektedir. Dolayısıyla Yunanistan'ı yönlendirenlerin tarihte olduğu gibi şimdi de başkaları olduğunu gören ve bu konuda Yunanistan'ı bizatihi uyararak ona yine de dost elini uzatan bir tavır sergilemeye devam etmesi, geleneksel Türk diplomasisinin bir gereğidir. Dolayısıyla Türkiye'nin geçmiş dönemdeki anlaşmalardan soğan haklarını yine meşruiyet temelinde savunan, küresel ölçekli diplomasi yürüten ve komşusuyla ilişkilerini de bu çerçevede şekillendiren bir vizyonla hareket etmesi, bunu yaparken yumuşak güç unsurlarından da yararlanması gerekmektedir.

çalışanlarını yaratıcı düşünme yoluyla yeni ürünler elde edilmesi konusunda teşvik etmeli ve desteklemelidir. İşletmeler bunu yaparken yenilikçi davranmayı sadece belli bir bölümün değil işletmedeki tüm çalışanların sorumluluğuna vermelidir. Çünkü yeni fikirlerin elde edilmesi ve hayata geçirilmesi için işletmenin her çalışanının bilgisine ve desteğine ihtiyaç duyulmaktadır (Ulusal, 2020). Bu şekilde çalışanlar ile işletme arasında bir bütünleşme sağlanacak ve çalışanların işine karşı sorumluluk bilinci hissetmesine sonuç olarak yenilikçi iş davranışı sergilemesine yöneltecektir.

Bu araştırma bilindiği üzere, Web of Science Core Collection veritabanında yer alan "araştırma makalelerinin" sağladığı veri üzerinden incelemeleri gerçekleştirmiştir. Dolayısıyla yapılan analiz ve sonuçlara istinaden çıkarımlar, söz konusu veritabanındaki içerik ile sınırlı durumdadır. Gelecekte yapılacak benzer araştırmalarda yerli veritabanlarının da araştırmaya dahil edilmesi uluslararası karşılaştırma imkânı da sunacağından ve belki de sadece makalelerin değil, kitap bölümleri hatta tebliğ gibi diğer doküman türlerinin de kapsama alınması daha zengin bir çalışma sağlayabilecektir. Ayrıca çalışmaların yıllara göre dağılımında 2019 yılı itibariyle yayımlanan makale sayısında negatif yönlü trend görülmüştür, işletme ve yönetim alanlarındaki yabancılaşma araştırmalarına olan ilginin gerçekten azalıp azalmadığını anlayabilmek amacıyla benzer bir çalışmanın en az üç yıl sonra tekrarlanmasının faydalı olacağı düşünülmektedir.

i Proctor ve Schiebinger (2008) tarafından önerilen Agnotoloji yanıltıcı veri, sözde bilimsel bilgi, ticari menfaat gereği bilinçli cehalet yaymayı inceleyen bilimdir. Agnozi (duyusal bilgiyi işleme yetersizliği) kelimesinden türetilmiştir. Agnotolojinin hedefinde olan kişiler de agnozi belirtileri gösteren kişiler gibi doğru ve gerçek hakkında bir farkındalığa sahip olamazlar (Uzbay, 2019: 23).

ii Gastronomi kelimesini tarihte ilk kullanan ne Brillat-Savarin ne de Joseph de Berchoux'dur (1801). Kelimenin Sicilyalı yemek yazarı Arkestratus'un kendisi ya da hocası Terpsion tarafından M.Ö 4. yüzyılda yazıldığı düşünülen *Deipnosophists* adlı eserde ilk defa *gastronomia* şeklinde kullanıldığı, Brilliat-Savarin'in eski eser okumalarına olan düşkünlüğünün neticesinde Arkestratus'un kavramını günümüze kazandırdığı düşünülmektedir (Pont, 1995). Ayrıca belirtmem gerekir ki mutfak bilimi (culinary science), moleküler gastronomi, beslenme bilimi (nutritional science), culinology, foodomics, food science, food sensory, food microbiology, chemistry, engineering vb., alanların ortak konusu olan yemek ve besin insanın özellikle tarım aracılığıyla yerleşik yaşama geçişinden itibaren var olan bir halk bilimi ve bilgeliğidir.

iii "Yumuşak madde fiziği mutfak sanatı buluşması: Polimerlerden denizanasına"; "Bütünsel Mutfak - Tabağın ötesinde bir odaklanma"; "Kuzeyin Kalamarları: Danimarka kalamarının gastronomi ve gastrofiziği", "Deniz yosunları ve dünya mutfağı"; "Malt küspe unu ile börek hamurunun hazırlanması ve vasıflanması"; "Köri sosunda sonikasyonun (ses dalgaları etkisi) yağ asidi zincir uzunluğu ve emülsiyon stabilizesi üzerindeki etkileri: Doygunluk algısının arttırılması için potansiyel bir yaklaşım"; "Evde pişirme işlemlerinden etkilenen Salicornia fruticosa L. ve Portulaca oleracea L. (semizotu familyası) antioksidanları"; "İşlevsel Bir Sebze Seçeneği: Tüketiciler Arasında Kimchi (geleneksel Kore yemeği) Varyasyonu Çalışması"; "Licuri Unu (Syagrus coronata (Martius) Beccari) ile Yapılan Ekmeklerin Gelişimi ve Duyusal Analizi" vb.

gıdalara yüklenen sembolik anlamları şekillendirmeye devam etmektedir. Bu nedenle gelecekte bu şekillenmenin ve değişimin izleri ikramlar özelinde restoran müşterileri ile yapılacak boylamsal çalışmalarda sürekli takip edilmelidir. Çalışma bulguları dünyanın en büyük seyahat rehberliği platformu olması nedeniyle yalnızca TripAdvisor'dan ve UNESCO'nun yaratıcı şehirler ağındaki dünyadaki 36 gastronomi şehrinden Türkiye'yi temsil eden öncü bir şehir olan Gaziantep ilindeki Türk ve yerel mutfak kategorilerinde restoran deneyimi yaşamış müşterilerden toplanan verilere dayanmaktadır. Gelecekteki çalışmalarda başka çevrim içi restoran inceleme platformlarından, farklı illerden ve restoran kategorilerinden farklı dillerde yapılmış yorumların da yer aldığı veriler toplanarak karşılaştırmalı çalışmaların yapılması önerilmektedir.

gelişimlerinin takibi sağlanabilir. Çalışmada maddi kaynaklar ve zaman kısıtlılığı nedeniyle müzeler hakkındaki bilgilerin sadece web sitelerden elde edilmesi durum çalışmasının birden çok kaynak kullanımı (gözlem, mülakat, insan ürünü eserler) ön koşulunu tam olarak sağlayamaması çalışmanın sınırlılığını oluşturmaktadır. Gelecekteki çalışmalarda belirlenen müzelerin yetkilileriyle de görüşmeler yapılarak verinin çeşitlenmesine olanak sağlanabilir.

a mathematical approach. As a result, PROMETHEE is more successful both in terms of the amount of information it contains and the level of real-life capture. This study can provide a smooth and simple solution to the current chronic problem of objective comparison and selection of MCDM methods. In this sense, we consider that the study will contribute to the literature.

olmadığını sordu. Toplantıdaki herkes bu iş için en uygun kişinin Ömer olduğunu, kendisini birkaç yıldır tanıdıklarını ve kendisine kefil olduklarını ifade ettiler. Bunun üzerine Ömer temizlik işinden alınarak büro işlerini yapmak üzere görevlendirildi. Ömer yaptığı iş ne olursa olsun, işine saygı göstermenin ve işini en iyi şekilde yapmanın yani yüksek iş ahlakına sahip biri olmanın mükâfatını almıştı. İnsanların yaptıkları iş ne olursa olsun, işlerini severek yapmaları gerektiğinin güzel bir örneğini göstermişti. Atasözlerinde de belirtildiği üzere "İşine hor bakan, boynuna torba takar!" ya da "İşini küçümseyen kişi istediği gibi para kazanamaz ve sonunda dilenci olur" (TDK, Atasözleri ve Deyimler Sözlüğü).

SONSÖZ

Mevcut çalışma, trolleme davranışına maruz kalan yaratıcı/kültürel işçilerin kendi izleyici/takipçi/hayranları dolayımıyla karşı karşıya kaldıkları suistimal edici trollemelere ilişkin literatürün uluslararası incelemesini sundu. Genel cepheden açığa çıkan sonuç, bu tür kötü muamelelerin çalışanların cinsiyeti ve/veya ırksal kimliğiyle bağlantılı olabileceğini gösteriyor. Mevcut literatürün sunduğu çeşitli görüşlere rağmen, gelecekte araştırmacılar tanınmış kişilerin, sanatçıların, yazarların ve diğer yaratıcı ve kültür çalışanlarının trollemeyi öznel olarak nasıl deneyimledikleri ve bunlara nasıl tepki verdikleri konusunda derinlemesine akademik çalışmalar yapabilir. Böylece kurbanların başa çıkma mekanizmaları görünür kılınabilir. Ayrıca, din, engellilik/kronik hastalık, cinsel yönelim, sınıf ve kast değişkenleri ile trolleme deneyimleri arasında yaşanan kesişimler araştırma gündemi olabilir. Ve daha da önemlisi bu tür araştırmalar kültürlerarası farklılıkları ortaya çıkarabilmek adına iki ülke ve /veya ülkeler arasında karşılaştırmalı olarak yürütülebilir.

general price level in one country (such as Turkey) and the general price level in the foreign country (such as Germany) are modelled to be dependant on the money demand equation. Some studies afterwards, have investigated the monetary approaches (Dülger & Cin, 2002; Öruç, 2016). As a natural extension of this study for future research, other forms of PPP can be tested through using newer techniques and updated data for Turkey and its recent major trading partners.

impact on systemic risks. The rules and practices of exchanges that develop over time include a large number of process flow processes to achieve this objective.

However, in recent years, the tendency of stock market transactions to avoid regulation and technological developments to play an increasingly central role in the trading infrastructure has led to more fundamental changes in price formation and trading mechanisms. As a matter of fact, globally rapidly growing dead pools and algorithmic processes cause significant risk accumulations in stock exchanges. The Black Mondays in the US capital market in 1987 and the Flash Crash in 2010 brought to the agenda that technological transaction infrastructures could have negative effects on price formation processes and thus the market could face a total collapse.

These events also revealed that the market microstructure of securities, which has decisive impacts on price formation and market efficiency, is well known with its elements and risks.

Relation and difference analyze results of research which are carried out to examine used Technologies effects, its determined that performances of companies which are using virtual and over reality and cloud Technologies is positive, bit effects on companies using robotics, drones, and nanotechnologies negatively.

Results of the research are beneficial to managers of logistics organizations over region TR63 and other regions, to professional organizations, chambers of commerce and industry, and academicians.

SUGGESTIONS AND ADVICE

Industry 4.0 and Logistics 4.0 are still at the starting point, although they are a concept that covers many processes from automated vehicles to smart vehicles, from intelligent factories to customer-specific intelligent manufacturing. Considering today's technological developments, it is expected that, in time, Logistics 4.0's logistics companies will offer innovative information technology solutions integrated with industrial processes. In this context, logistics companies should assess their current situation in the context of technological developments and identify their deficiencies and determine the strategies for transition to logistics 4.0.

This work is done only in technology-intensive logistics companies and in a limited territory. It is planned that this work will be done in the whole country in the future. In addition, only the performance of the operation was taken into consideration in this study and the risk factor was ignored.

Turkish branch of the refit sector has gained a more competitive position compared to the world. So that means increasing the qualified personnel and increasing the service quality will be the right move for Turkey. By doing that, Turkey can increase the share of the pie with the qualified workforce. The first activity to be done would be to increase education and organize it. If the quality of service could be increased with this pricing, Turkey's place in the world market will increase and also Turkey will be the focus of large investments.

reklamların işletmelere sağladığı istatistikler devamlı kontrol edilmeli ve potansiyel müşterilerin beklentileri karşılanmasına özen gösterilmelidir. Satın alma üzerindeki bir diğer faktörün ise performans beklentisi olduğu tespit edilmiştir. Bu nedenle işletmelerin müşterilerinin satın alma niyetlerini olumlu yönde etkileyebilmek için sponsorlu reklamların faydalı ve değerli bir bilgi kaynağı olduğunu hissettirmeleri gerekmektedir. Sponsorlu reklamların müşterilerin algıladığı güvenilirlik ve güncellik seviyesinden daha üst bir seviyede olacak şekilde tasarlanması, sponsorlu reklamların tasarlanma aşamasında performans beklentisini artırıcı bir konudur.

Mevcut çalışma sınırlı sayıda katılımcıdan meydana gelen bir örneklemden elde edilmiştir. Elde edilen sonuçları genellemek mümkün olmasa da genel olarak Instagram sponsorlu reklamlarına ait hangi özelliklerin satın alma niyeti üzerinde etkili olduğu hakkında bilgi verdiği söylenebilir. Bundan sonraki çalışmalarda, bu çalışmada önerilen araştırma modeline farklı değişkenler eklenerek araştırma modeli geliştirilebilir. Ayrıca Facebook ve Twitter'da yer alan sponsorlu reklamların satın alma niyeti üzerindeki etkileri araştırılarak elde edilen bulgular, bu çalışmadan elde edilen bulgularla karşılaştırılabilir.

Çocuk ve gençleri medyanın zararlı etkilerinden koruma amacının hâkim olduğu Medya Okuryazarlığı dersiyle öğrencilere, medyaya eleştirel bakma, medyayı dikkatlice izleme, sağlıklı değerlendirme ve yeni medya mesajları üretme yeterliliklerinin kazandırılması hedeflenmiştir. Ders kapsamında günümüzde internet tabanlı uygulamalarla birlikte yaygınlaşan çeşitli olumsuzluklarla birlikte internet bağımlılığı sorununa da ayrıca önem verilmiştir.

İnternet bağımlılığının özellikle genç nüfus üzerinde etkili olduğu dikkate alındığında, bu sorunla mücadelede Milli Eğitim müfredatında Medya Okuryazarlığı dersine yer vermenin önemli bir adım olduğunu ifade etmek mümkündür. Ayrıca mevcut durumda Sosyal Bilgiler öğretmenleri tarafından verilen bu dersin, alan bilgisine sahip İletişim Fakültesi mezunları tarafından verilmesi ve içeriğin günün şartlarına uygun olarak düzenli periyotlarla güncellenmesi, dersten amaçlanan verimin artmasına pozitif yönde katkı sağlayacaktır.

evlere kapanan ve meta evrenlerden işlerini yürütmeye çalışan insanların obezite sorunlarıyla karşı karşıya kalacağı düşünülmektedir.

Kısaca bu çalışmaya sığmayacak kadar sorun ve problem, meta evrenlerle ilgili olarak raflarda beklemektedir. Meta evrenlerin kesinlikle bir devrim olacağı aşikârdır ama bu devrim insanları nasıl etkileyecek ve sosyal yapıyı nasıl dönüştürecektir sorusunun cevabı için henüz çok erken olduğu düşünülebilir.
