Stalin'e yönelik oluşabilecek muhalefetin önüne geçilmeye ve Stalin'in ülkesinde büyük bir desteğe sahip olduğu düşüncesinin meydana getirilmeye çalışıldığı ileri sürülebilmektedir.

Stalin'in çocukları konu alan kült liderlik propagandasında sıklıkla Komünizm ideolojisine yer verildiği ve Stalin'in komünist rejiminin bir temsilcisi olduğu vurgusunun yapıldığı ortaya çıkmıştır. Propaganda posterlerinde Stalin'i seven çocukların aynı zamanda Komünizm ideolojisini de sevdiği mesajı verilmiş, böylece Stalin'in kült liderlik propagandası üzerinden aynı zamanda Sovyetler Birliği'ndeki komünist rejim de kitleler nezdinde yüceltilmeye çalışılmıştır.

Sonuç olarak Stalin'in kült liderlik propagandasında çocukların kullanılmasının Stalin'e yönelik insancıl ve yurttaşlarını seven bir lider imajının kitleler nezdinde çizilmesinde önemli bir rolü olduğu belirtilebilmektedir. Çocukların masumiyeti üzerinden propaganda posterlerinin, Stalin'e yönelik olumlu bir algının oluşturulmasına katkı sağlayacağı söylenebilmektedir. Diğer yandan yeni nesillerin Stalin'e yönelik sevgi beslediği mesajı üzerinden de Stalin'in ülke genelindeki otoritesinin meşrulaştırılmasına destek olunabileceği ileri sürülebilmektedir.

topraktan kopmuştur. Doğal olan hiçbir şey modern hayatta yaşayamadığı gibi modern hayatın aldatıcı renkleri de insanı doğadan koparmıştır.

SONUÇ

Gumball çizgi filmi bize Amerikan yaşam tarzını ve kültürünü açıkça gösterir. Bu çizgi film Amerikan aile yapısından beslenerek hikâyeler anlatmaktadır ve Amerikan kültürü bu çizgi filmi besler. Aynı zamanda bu çizgi film Amerikan aile yapısını da olumlar. Evlat edinme, fastfood yeme, hafta sonunu alışveriş merkezlerinde geçirme gibi faaliyetleri olumlar ve toplumu yeniden inşa eder. Ülkemizde de durum bundan farklı değildir. Bu çizgi filmin ülkemizde gösterilmesiyle Türkiye'de yaşayan çocuklar da aynı Amerika'dakiler gibi yukarıda sayılan eylemleri olumlar ve kabul edip içselleştirirler. Büyük şehirlerde yaşayan çocuklar hafta sonunu iple çeker, fastfoodlara bayılmayan çocuk neredeyse yoktur. Televizyon seyretmeyip bilgisayar oyunu oynamayan çocuk yoktur. Televizyon toplumdan ve kültürden beslenir, programlar, filmler yapar. Toplum da bu programlardan kendilerine hayat tarzları seçer ve yaşarlar. Medya toplumu ve kültürü bu şekilde yeniden yapılandırır, yeniden üretir. Televizyon programları kültürü yapılandırır ve birtakım ideolojileri topluma empoze eder. Toplumu oluşturan bireylerin tamamı ya bilinçli ya da bilinçsiz olarak bu genel ideolojik söylemden etkilenir. Gramsci'nin de dediği gibi "belli bir hegemonya gücünün parçası olduğunun bilincine varmak, ilerici bir öz bilince giden yolun ilk aşamasıdır" (Alexander&Seidman, 2013, s. 68). Dolayısıyla, toplumu oluşturan bireyler ne kadar çok klasik hegemonik söylemin farkına varırsa o derece bu söyleme karşıt bir direniş sergileyebilir. Bu da o bireylerin öz bilince ulaşmasına fayda sağlar.

oruç ve namazdan muaftır diyor. Türkiye'nin taassuba ve anarşiye itilmesinde bu tür örgütlerin rol oynadığı bilinmektedir. Kısaca her örgütün menfaatı temin zararı giderme anlayışı, o örgütü planlayanların planları doğrultusunda yürütülmekte olduğundan, İslâm örgütlerin menfaatına âlet edilmekte ve amaç değil araç olarak kullanılmaktadır. Bunlar gizli iradelerini ve planlarını gerçekleştirmek için tanrıyı kullanmaktadırlar. Bunu bazen bir İngiliz, bir Rus, bâzen de bir İslâm ülkesinin lideri konumundaki kişiler kullanabilmektedir.

Kısaca politik teoloji bağlamında konuyu değerlendirecek olursak, Hizbullah ve Hizbu't-Tahrîr'in söylemlerindeki ve diğer mezheplerdeki İmamet, önceleri itikadi konular arasında yoktu. Sıffin savaşından sonra Haricilerin ortaya çıkması gerek Harici, gerekse Şii akımların imamet problemine itikadi boyut kazandırması bu problemin itikadileşmesine zemin hazırlamıştır.

cooperation with the university on this issue and enter into cooperatives will enable the production to spread more and the income to be increased.

However, the quality seed that responds to manufacturer-industriallist demands must be reformed and a standardization must be set in the seeds. Different types of thyme that grow in our country must be separated according to their content and the thyme should be evaluated in the pharmaceutical and food industry according to these types. Thyme is a plant with a very high added value. Thyme producers should be trained on the use of these products in different ways, and a bridge should be established between the producer and the industrialist. Brand management is important in Denizli thyme. Cooperation with universities in thyme production is important in terms of guiding the producers in this regard.

Research in the field of consumer behavior is inherently constrained by a number of limitations. The main limitation of this study is that the sample size and characteristics of the sample do not allow generalization for all consumers. However, findings of a correlation among hedonic consumption, impulse buying behaviors, and the level of mindfulness, which is a psychological factor, have been reached. Since these findings are a first in the field, they will be the starting point for other studies in the literature.

Ensuing studies, conducting research with samples reflecting different income and professional groups, will increase the comparability and generalizability of the findings. In subsequent studies, a model of hedonic consumption and impulse buying that deals with different and various psychological variables such as mindfulness, depression tendency, self-control, anxiety, and stress can be implemented. The relationship between mindfulness and compulsive buying behavior can also be investigated in future studies. With an experimental perspective, mind trainings can be conducted to increase the mindfulness of consumers who exhibit impulse buying or compulsive buying behavior, and the changes in behavior can be observed. Thus, this research can allow more contributions to the literature through different methods.

to increase organizational identification by ensuring the congruence between the leader prototype and the perceived leadership.

- Regarding the concept of leadership, in addition to prototypical (ideal) features, anti-prototypical (opposite to ideal) features should be analyzed.
- In future studies, the ideal follower model in the mind of the leader should be investigated by collecting data from the managers.
- The effects of the fit between the leader prototype and the perceived leadership on different positive and negative organizational outputs other than organizational identification should also be investigated.
- Leader prototype and implicit leadership concepts should also be studied in samples with different cultural and socio-economic characteristics.
- The concept of leader prototype should be examined comparatively between Turkey and other countries, and its relationship with organizational outputs and perceptions should be examined in the context of Turkish culture and in the context of different cultures.

of contemporary museum with these characteristics and also these elements play a role in the visitor experiences. Another finding of the study is that the Troy Museum creates a prominent level of satisfaction sense for its visitors. This information is consistent with the view of Kotler (2001) that an experience should create a "wow" effect. According to the research findings, it is concluded that the Troy Museum visitors tend to recommend the museum intensively to potential visitors. However, no information was obtained about the intention to revisit the Troy Museum in the research findings. The findings revealed the correlation between the elements that constitute the museum experience and the successors of the experience in the case of the Troy Museum.

ekonomiyi desteklemesi şarttır. Günümüzde masal unsur ve motiflerine geniş alanda bakacak olursak giyim ve diğer tekstil ürünleri özellikle çocuk giyim ve tekstil ürünleri, çocuk oyun ve oyuncakları, yiyecek ve içecek ambalajları, mutfak ve gündelik hayatta kullanım eşyaları, sinemanın animasyon, masal filmi, dizi ve film biçimleri, televizyon programları, sanatın çeşitli dalları, yazılı ve dijital başta olmak üzere çeşitli reklam araçları gibi birçok kullanım biçimlerinde karşılaşmaktayız. Bu konuda varılan sonuç masalın tüketim toplumunda popüler kültür için bir malzeme olması ve tüketim toplumunun şartları doğrultusunda hızla değişmesidir. Popüler kültür ürünlerine ait sürekli değişim, tüketim toplumunda üretilmek için yok etme ideolojisine uygun olarak gerçekleşmektedir.

zararlı içeriklerle ilgili bildirimde bulunabilmesi, canlı yayın yapılabilmesi, yorumlar aracılığıyla içerik üreticisi ve kullanıcı arasındaki etkileşime izin verilmesi, vb. olarak sıralanabilir.

Bu çalışmada bugün çok sayıda kullanıcıya sahip bir platform olan YouTube; gelişim serüveni, özellikleri ve platforma ait kavramlar ile kullanıcı çerçevesinde ele alınıp değerlendirilmiştir. Bu değerlendirme platformun yaygın kullanımının nedenlerini hem teknik hem de içerik bağlamında görünür kılmaktadır. Ayrıca YouTube, katılımcı kültür çerçevesinde de değerlendirilmiştir. Gelecek çalışmalarda ise dünya genelinde popüler olan farklı platformların anlatılması, bugünün sosyal medya ortamını ve kullanıcı tercihlerinin sebeplerini anlamak adına önemli görülmektedir.

Zinderen, İ. E. (2020). Yeni Medya Ekolojisi Ekseninde YouTube: Türkiye Örneği. Atatürk Üniversitesi Sosyal Bilimler Enstitüsü Dergisi, 24 (1) , 215-232.

sosyal medya ortamlarında nefret söyleminin inceleyen araştırmalarda söylem analizi ve tematik analizin yaygın olarak kullanılan yöntemler olduğunu belirtmiştir.

Sosyal medyada nefret söyleminin tespiti üzerine yapılan çalışmalarda çoğunlukla herhangi bir sınıflandırmanın ya da kategorileştirmenin tercih edilmediği görülmüştür. Bir kategori kullanan çalışmalarda ise çoğunlukla Hrant Dink Vakfı'nın belirlemiş olduğu kategoriler kullanılmaktadır. Bununla birlikte duygu analizinin "olumlu-olumsuz-nötr" sınıflandırmaları kullanılan bir başka ölçüttür. Bazı çalışmalarda ise hazırlanmış bir kategori yeterli olmadığından ek kategoriler kullanılmış veya farklı bir kategori hazırlanmıştır. Bunun sebebi daha önce de belirtildiği gibi nefret söyleminin tanımsal muğlaklığından gelmektedir. Dolayısıyla hazırlanan her kategori, alanda araştırma yapan her çalışma için kapsayıcı olamamaktadır. Fakat hazırlanan her sınıflandırma ya da kategorileştirme, kendinden sonraki çalışmalar için temel oluşturacağından dolayı nefret söyleminin daha kolay, daha hızlı ve daha kapsamlı tespit edilebilmesine olanak sağlayacaktır.

Araştırma sonuçları açısından bakıldığında bilimsel araştırmalar yoluyla Türkiye'de nefret söylemine en çok maruz kalan grupların, nefret söylemine neden olan duyguların ve bu duyguların yoğunluklarının ve ilişkilerinin incelenmesi ile Türkiye'ye özgü bir nefret söylemi haritasının çıkarılması önerilebilir. Bu araştırmanın en önemli sınırlılığı, incelenen araştırmaların bütüncül bir bakış açısıyla sosyal medyada nefret söylemini inceleyen araştırmalar olmasına karşın, incelenen araştırmalardan bazılarının yalnızca belirli bir nefret söylemi türüne odaklanması ve odaklandığı nefret söylemi türünün ilgili nefret söyleminin belirlenmesine yönelik herhangi bir sınıflandırma gerektirmemesidir.

bilimlerin araştırma alanı olmanın ötesine geçmiştir. Dolayısıyla, günümüzde söz konusu disiplininin içerik itibarıyla özellikle dijital teknolojilerin hızla gelişmesi ve çeşitliliğin artması sonucu bilgisayar bilimleri, yönetim bilişim sistemleri, matematik gibi bilim dalları ile entegrasyonunun artık bir tercih olmaktan çıkıp, zorunluluk haline geldiğini de vurgulamak gerekmektedir.

Sonuç olarak günümüz bakış açısıyla dijital kimlik kavramının mevcut konumu; hala dönüşüm sürecinde olup, gelecekte nitelikli bilimsel araştırma ve çalışmalara hem toplumsal hem de kurumsal ve/veya örgütsel boyutuyla geliştirilmeye ve güçlendirmeye ihtiyacı artacak bir araştırma alanıdır. Bu doğrultuda uzun vadede gerçekleşebilen ve oldukça maliyetli sistem geçişlerinin yol açabileceği sıkıntı veya sorunlara hazırlıklı olabilecek kurumlar veya devletlerin, donanımlı bir BİT altyapısına sahip olabilmesi ve bireysel olarak da öncelikle gerçek anlamda iyi bir dijital vatandaş olabilmek ve bu doğrultuda gerekli kişisel yetenek ve bilgi vizyonunu geliştirmek; nitelikli akademik ve bilimsel çalışmaların da elverişli şekilde amacına hizmet etmesine olanak sağlayabilecektir.

families to read authentic texts effectively. Thus, it can be claimed that most of the English majors in the present study had difficulties in reading authentic materials due to the hindrance of small vocabulary size.

2000 words (i.e., high-frequency words) deserve individual attention, however, beyond that level, 3000th, 5000th, 10000th (i.e. low-frequency words) and technical and academic words, the strategies should be paid attention for learning and coping with these words such as guessing from the context, memorization techniques and learning parts of the words (Laufer & Nation, 1999).

Under the guidance of these findings, it could be suggested that vocabulary instruction, either implicit or explicit, should be revised at higher education institutes, particularly at the departments of English Language Teaching. Since these institutes train future teachers, their vocabulary knowledge directly influences their language proficiency and subject-matter knowledge and performance. In that sense, similar studies on vocabulary knowledge could be conducted as needed analysis of the learners at different universities, additionally, the relationship between learners' vocabulary knowledge and other language skills as well as academic achievement could be investigated to evaluate the learners' overall profiles.

what training he needs. The fulfillment of the need also takes place after the self-created lifestyle of the people and there will be a possibility of problems in the city. However, local administrations can identify the need quickly and on the spot able to provide services to the public quickly. Municipalities are much more successful in its presentation than the central administration or other institutions.

Filmin müzik ve ses tasarımı film dilinin tamamlayıcısı olarak oldukça başarılı bir şekilde kullanılmıştır. Kasvetli ve gergin atmosferi destekleyen ve seyircide sürekli bir rahatsızlık hissi veren müzik, bazen sahnelerdeki gerilimi arttırmak için kullanılan anlamsız sessizlikler, bazense bir ruh halini anlatmak için kullanılan doğa sesleri bu iyi tasarımın filme yansımalarıdır.

Sonuç olarak *The Power of the Dog* filminin dramatujisini incelediğimizde tüm unsurların dikkatle, özenle ve bilinçli bir şekilde kullanıldığını, bütün öğelerin birbirini tamamlar ve destekler şekilde filmde yer aldığını söyleyebiliriz. Bu da bize Jane Campion'un tüm filmlerinde olduğu gibi bu filminin de dramaturjisinin sağlam ve doğru olduğunu göstermiştir.

Pro ise daha karmaşık bir ara yüze sahip olmakla beraber buna karşı daha geniş bir kişiselleştirme yeteneği sunmaktadır. Her iki yazılım da kendi aileleri içinde yer alan yazılımlarla entegre çalışmaya imkân tanırken aynı zamanda sürekli güncellenen yapılarıyla kullanıcılarına yeni nesil düzenleme teknikleri ve eklentileri sunmaktadırlar.

Yapım öncesi, yapım, yapım sonrası ve dağıtım gibi düzenlemenin her aşamasında genişletilmiş varyasyonlara izin veren Final Cut Pro X ve Premiere Pro; üstün düzenleme, renk, ses, grafik ve hassas optimize edilmiş çıktı alma yetenekleriyle, kullanıcılarına sosyal medyadan profesyonel filme kadar sonsuz yenilik ve sürekli gelişen bir beceri seti sunmaktadırlar. Ancak şunu unutmamak gerekir: Teknoloji yalnızca işlemeye veya yürütmeye yardımcı olabilir. Herhangi bir kurgulanmış filmi olağanüstü bir prodüksiyona dönüştüren, insan beyni ve onun yaratıcı becerilerdir.

ÖNERİLER

- Şartları elverişsiz koşullardan gelerek bir yükseköğrenim kurumunda okuyan öğrencilerin hazır bulunuşluk durumları araştırılıp okula başladığı andan itibaren bu gibi projelere yönlendirilmesi uzun vadede daha olumlu sonuçlar doğurabilir.
- Bu tarz projeleri Avrupa Birliği gibi kurumlardan daha güçlü destek alarak yürütümek daha fazla gencin faydalanmasına katkı sağlayabilir.
- Bu tarz projelere katılan öğrenciler boylamlamasına bir araştırmada incelenerek uzun dönem sonuçlarına bakılabilir.

savaş stratejilerinde bir örnek teşkil etmesi gibi farklı şekillerde, insanoğlunu tek bir çatı altında birleştiren bir değer olduğu, farklı kültürler üzerindeki etkisi, dünya tarihi ve edebiyatında, güzel sanatlardaki rolünün yanı sıra dünya sinema endüstrisindeki yeri ve rolü kapsamında incelenen sinema filmlerinde kurdun eski çağda olduğu gibi modern insanın hayatında aynı şekilde olmasa bile, hâlâ farklı bir önem ve değer taşıdığı sonucuna varılmıştır. Ancak, günümüzde bu değerlerin hemen hepsi neredeyse yok olmuş durumdadır. İncelenen filmler aracılığıyla eski mitolojik ve kültürel bir sembol olan kurdun modern çağdaki kurt imgesiyle karşılaştırılması yapılmış ve birçok kısımlarda özellikle de gerçek hayattan uyarlanan İspanyol yapımı olan "Kurtlar Arasında" filminde Marcos Rodriguez Pantoja'nın hikayesi bizleri en eski çağa götürerek Atalarımız olan Göktürklerin kutsal önem atfettikleri dişi kurt Asena'yı ve Roma'nın kurucuları sanılan Romulus ve Remus ikizlerini büyüten anne kurdu anımsatmaktadır.

Sonuç olarak en eski çağlardan günümüze kadar farklı kültürlerde yer alan kurdun, bir mit olarak insanoğlunun geçmişinde ve bugününde hala birçok alanda kedine bu kadar yer edinmesini göz önünde bulundurursak, kurdun bundan sonra da uzun yıllar boyunca insanoğlunun hayatında bir şekilde var olacağı sonucuna varabiliriz. Kurt içerikli ya da kurt imgeli filmlerin distopya kavramı ile bağdaştırılmasının temelinde, günümüze gelene dek kurt çeşitlerinin azalması, kurdun ekosistemdeki rolünün farklılaşması, avlanması yasak türlerin halen avlanıyor olması kurdun doğa içindeki konumunu daha olumsuz bir noktada görülmesi temel teşkil etmektedir. Anlatıların içerik çözümlemeleri kurtlarla ilgili filmlerin "Yok olan türler", " Yok olan doğa" ya da "Değerlerini kaybeden, materyalistik düşünmeye başlayan insanoğlu" konularına yoğunlaşması nedeniyle daha çok distopik bir bakış açısı içerdikleri sonucuna varılmıştır.

koydukları çeviri ürünleri üzerinden yapmak yerine, bütün bir dönemi temel alacak ve çeviri ürününe değil de çeviri sürecine odaklanacak ölçme ve değerlendirme yaklaşımları geliştirilmelidir. Bu bağlamda ölçme ve değerlendirme araçları sunulmalıdır.

Son dönemlerde özellikle yabancı dil öğretiminde kullanılan ve hem öğrenciye hem de öğretmene süreç odaklı ölçme ve değerlendirme imkânı sunan portföyler (portfolio) çeviri öğretim sürecine uyarlanabilir. Sürece odaklanan ve öğrencinin kendi gelişimini de gözlemlenmesini sağlayan bu öğretim aracı çevirmen adaylarının performanslarının daha objektif ve bütüncül bir şekilde değerlendirilmesine imkân sağlayacaktır. Öğrencilerin öz-değerlendirme yapmalarına fırsat sunan bu öğretim aracı onların aynı zamanda kendi kendine öğrenen bireyler olmasını da sağlayacaktır.

Çeviri öğretiminde ölçme ve değerlendirme konusu çeviri öğretim programları için oldukça önemli olmasına rağmen, bu bağlamda yapılan çalışmaların sayısına bakıldığında aslında ne kadar göz ardı edildiği anlaşılmaktadır. Son dönemlerde, özellikle İspanya'da bu konuda hatırı sayılır miktarda önemli ve öncül çalışmalar yapılmaktadır. Ancak, ülkemizde bu konu hala hak ettiği ilgiyi üzerine çekememiş ve verilen çeviri öğretim programlarının niteliğinin artırılması amacıyla üzerinde durulması gereken bir konumdadır. Bu sebeple, özellikle Türk alan yazınına çok daha fazla, çok daha kapsamlı ve çok daha somut çalışmaların kazandırılması elzemdir.

benzer yönleri oldukça fazladır. Mısırlı yazarların incelenen eserlerinin Arapçadan Türkçeye aktarılması ile Türk toplumu Mısır halkının siyasi ve sosyal hayatı hakkında bilgi sahibi olmuştur. Çeviriler, farklı toplumlar arasında iletişimi ve kültür aktarımını sağlamada önemli rol üstlenmektedir. Çeviriler sayesinde milletler birbirleriyle siyasi, sosyal ve kültürel alanlarda iletişime geçerler. İnsanoğlu var oldukça çeviriler farklı milletler arasında iletişimi ve kültür aktarımını sağlamada kilit rol oynamaya devam edecektir.

Neyi neden yaptığımı sorgulattı (Öğr. 9)

Hatalarımızı ve eksiklerimizi görmemizi sağladı (Öğr. 13)

Çeviri yaparken en ince ayrıntısına kadar bakmamı sağladı (Öğr. 23)

Kendimi eleştirmeme ve yaptığım çeviriye başka bir açıdan bakmayı sağladı (Öğr. 28)

Sonuç

Eş zamanlı veya eş zamansız olarak yürütülen uzaktan eğitim faaliyetlerinin eğitimciler için oluşturduğu en büyük zorluklardan biri şüphesiz sınavlardır. Bir yandan aynı ortamda bulunmama sebebiyle öğrencilerin sınav anında gözetim altında tutulamaması diğer yandan yapılan sınavların amacına uygun hizmet edebilmesini sağlayabilmek güçtür. Bu zorluk, çeviriye giriş dersinde uygulamalı olarak çeviri becerisi ölçülmek istendiğinde, öğrencilerin yaptıkları çevirilerin kendilerine ait olup olmadığı sorunuyla da birleşince farklı çözüm yolları üretmek gerekmektedir. Çeviri raporları, hem öğretim faaliyeti sürecinde öğrencinin aldığı çeviri kararlarının farkında olması hem de dersin sorumlusuna ders kazanımlarının ne ölçüde gerçekleştiği açısından fikir vermesi açısından uzaktan eğitim sürecinde kullanılabilecek alternatif bir yöntem olarak düşünülebilir.

clash between two basic instincts. As Poe himself, women in his works are in a great despair. Probably the reason for this is not same but it is obvious that Poe shifts his sorrow and miserable state to these characters.

ideolojisi, beklentisi vb.) ve dışsal faktörler (çevirmenin bağlı olduğu yayınevi, patron, çevirinin hitap ettiği toplum vb.) başlı başına bir analiz sürecinden geçmeyi hak etmektedir. ESÇ bu noktada toplumsal ilişkileri, ideolojiyi, güç ve iktidar ilişkilerini, metindeki gizli ve örtük anlamları ortaya çıkarmak ve metni yalnızca dilbilimsel açıdan değil, aynı zamanda içinde bulunduğu bağlam çerçevesinde incelemek için tercih edilen iyi bir analiz yöntemi olarak karşımıza çıkmaktadır.

Çeviri çalışmalarında ESÇ sayesinde kaynak metnin kim için yazıldığı, amacının ne olduğu, vermek istediği mesaj daha net ortaya koyularak, bu soruların yanıtlarından hareketle söz konusu metnin çeviri sürecinde çevirmenin kullanacağı çeviri yöntem ve stratejilerinde daha bilinçli hareket etmesini sağlayarak, farkındalığını artırmaktadır. Çevirmenin, çeviri sırasında sildiği eklediği her sözcük, cümle yapısını değiştirdiği her cümle anlamın inşa edilmesinde önemli bir rol oynamaktadır. Bu nedenle özellikle dünya liderlerinin zirvelerde yaptığı konuşmalar, ikili görüşmeler, basın açıklamaları gibi etkisi ve sonuçları bakımından önemli sonuçlar doğurabilecek siyasi metinlerin çevirilerinin ESÇ yöntemi ile analiz edilmesiyle kaynak metindeki güçlü ve ideolojik söylemin hedef metinde de aynı etkiyi yaratıp yaratmadığı, çevirmenin metin karşısındaki duruşu, çeviri esnasında yaptığı bilinçli veya bilinçsiz tercihlerinin yarattığı ideolojik sonuçlar tespit edilebilir.

ortaya çıkan çeviri sorunları olabilir. Dil ve kültürün ilişkisi göz önüne alınırsa çeviri mümkün olacaktır.

Sonuç olarak; çevirinin toplumlar ve kültürler arasında önemli bir rolü ve önemi vardır. Bu nedenle çeviri yapılırken belirlenecek stratejiler dikkatle seçilmeli, bu stratejilerin sosyo-kültürel unsurları tam ve doğru olarak aktarması sağlanmalıdır. Fakat bazı deyimler, kalıp ifadeler hedef dilde karşılığını bulamayabilir. Böyle durumlarda çevirmenin kullanacağı stratejiler belirleyici ve açıklayıcı rol oynayacaktır.

Sonuç ve Değerlendirme

Uzun zamandır insan çevirilerine yardımcı olma amacıyla çeviri alanında etkili olan çeviri teknolojileri çevirmenler tarafından günümüzde sıkça kullanılmakta ve artık bu alanın neredeyse vazgeçilmezleri haline gelmişlerdir. Neredeyse her çevirmen, özellikle eğitimlerini aldıkları sıralarda benimsedikleri için genç çevirmenler, bir şekilde çevirileri sırasında bu teknolojilerden faydalanmaktadırlar. Makine çevirisini ise artık de sadece çevirmenler değil farklı alanlardan birçok kişi farklı amaçlarla kullanmaktadırlar. Makine çevirisi kullanımının son yıllarda artmasıyla mükemmel doğallıkta çevrilemediği kabul edilen erek metinlerin üzerinde kesinlikle yapılması gereken düzeltme işlemlerinin önemi de artmıştır. Bu alanda yapılan akademik çalışmalara bakıldığında son yıllarda sayıca daha fazla olması da bunu desteklemektedir. Makine çevirisinin yaygınlaşmasıyla birlikte daha da öne çıkan kavramlar son biçimleme ve gözden geçirme aşamalarıdır. Ham makine çevirisi sonrasında metnin içerik ve yapısal yönlerini kaynak metin ile karşılaştırarak, metni doğallaştırmak için mutlaka son biçimleme işlemi yapılmalı ve en son aşamada gözden kaçmış olası hataları tespit edebilmek adına dikkatli bir son okuma, gözden geçirme işlemi yapılmalıdır. Bu aşamalar çevirinin başarısı ile direkt olarak bağlantılı olduğu için çok önem verilmeli ve günümüzde çevirmenlerin teknoloji ile bağı düşünüldüğünde mutlaka bu konuda eğitilmelidirler.

of translation and use it as a pedagogoic tool to aid in learning the target language (Lems, Miller & Soro, 2010). Therefore, the study current study aimed to shed more light into language teacher candidate's perception of "translation" and "tranlation course" in their departments. It also attempted to explore learners' current practices and preferences in translation courses.

Depending on quantitative and qualitative data, it has been found that translation is regarded to be an essential language skill that must be improved with more exercises and courses. Language teacher candidates regard the translation course as a source or vehicle that can increase their linguistic and pragmatic knowledge because while translating, students notice the knowledge gaps in their target language, which gives rise to strengthening their grammatical competence. Additionally, translation also helps them correct habitual errors that remain unnoticed. In short, most of the participants believe that translation helps learners acquire, develop and strengthen their knowledge and competence in the English language. The use of translation was supported positively by the participants who believe that it can be used as a complementary "pedagogical tool".

bulunması; başka bir ifadeyle, borçlunun yalnız başına ne kadar borçlu olduğunu tespit edebilir durumda olması gerekir. Gerek borç ve gerekse borçlu bakımından, bu koşullar mevcut ise, ortada likit bir alacak bulunduğu kabul edilmelidir. Somut olayda; açıklanan yasal kurallar ışığında, davacının kullandığı kredi miktarının ve krediden kaynaklı ödemesi gereken faizin belirlenebilir ve likit olduğu anlaşılmaktadır. O halde mahkemece, takip konusu davacının davalıdan talep ettiği bedelin belirlenebilir, likit ve muayyen nitelikte olduğunun kabulü ile icra inkar tazminatına hükmedilmesi gerekirken, yazılı şekilde icra inkar tazminatı talebinin reddedilmesi usul ve yasaya aykırı olup, bozmayı gerektirir. Ne var ki, bu yanlışlığın giderilmesi yeniden yargılama yapılmasını gerektirmediğinden hükmün düzeltilerek onanması HUMK'nun 438/7 maddesi hükmü gereğidir. 2-Davalı vekilinin temyiz itirazlarının incelenmesinde; Hükmü temyiz eden davalı vekilinin 03.07.2021 tarihli dilekçesi ile temyiz isteminden feragat ettiğini bildirdiği, dosyada mevcut vekaletnamesi incelendiğinde temyizden feragat yetkisinin bulunduğu anlaşılmakla temyiz dilekçesinin feragat nedeniyle reddine karar verilmiştir. SONUÇ: Yukarıda birinci bentte açıklanan nedenlerle hüküm fıkrasının birinci bendinin ikinci satırında yer alan "Dava yargılamayı gerektirdiğinden yasal şartları oluşmayan icra inkar tazminatı talebinin reddine," ifadelerinin hükümden çıkartılarak yerine "Davacının icra–inkar tazminatı talebinin kabulü ile kabul edilen asıl alacağın %20'si oranında icra inkar tazminatının davalıdan alınarak davacıya verilmesine," cümlesinin yazılmasına ve hükmün düzeltilmiş bu şekliyle ONANMASINA, ikinci bentte açıklanan nedenlerle davalının temyiz dilekçesinin temyizden feragat nedeniyle REDDİNE, peşin alınan temyiz harcının temyiz edenlere iadesine, 6100 sayılı HMK'nun Geçici Madde 3 atfıyla 1086 sayılı HUMK'nun 440. maddesi gereğince kararın tebliğinden itibaren 15 günlük süre içinde karar düzeltme yolu açık olmak üzere, 18.10.2021 tarihinde oybirliği ile karar verildi.

bu işletmelerin gerek iç pazardaki başarıları gerekse dış pazarlardaki kalıcılıkları açısından önem arz etmektedir.

Türkiye'de, Ticaret Bakanlığı tarafından yürütülmekte olan ihracata yönelik devlet yardımları, Sanayi ve Teknoloji Bakanlığı tarafından yürütülen Yatırım Teşvik Sistemleri, KOSGEB tarafından sunulan destekler ve Türk Eximbank tarafından sağlanan finansman alternatifleri gibi KOBİ'lere yönelik destekler bulunmaktadır. Söz konusu desteklere erişimin kolaylaştırılması ve güncel desteklere ilişkin olarak KOBİ'ler ile ilgili finansal kuruluşlar arasında sürekli bir iletişimin varlığı da önemli bir konu olarak karşımıza çıkmaktadır. KOBİ'lerin uluslararası pazarlara açılabilmesi noktasında ise, ihtiyaç duydukları nitelikli işgücünün yetiştirilmesi, finansman kaynaklarının genişletilmesi, teknolojiye erişimlerinin kolaylaştırılması kritik konulardır. Ülkemiz açısından cari açığın halen önemini koruduğu günümüz koşullarında, KOBİ'lere yönelik doğru ihracat ve teşvik politikalarının geliştirilmesi büyük önem taşımaktadır.

fırsat tanınması yoluyla da gerçekleştirilebilir. Bu sayede bir taraftan çalışanların gelirlerinin devam etmesi sağlanırken diğer taraftan da KOBİ'lerin iflaslarının ekonomide ve toplumsal alanlarda oluşturacağı zararın düşük seviyede tutulması sağlanacaktır (OECD, 2020).

zorundadır. Geleneksel pazarlama araçları göz önüne alındığında reklam ve tanıtım KOBİ'ler için maliyetlidir. Dijital pazarlama araçları, geleneksel pazarlama araçlarına nazaran maliyetleri düşük olmakla birlikte daha geniş kitlelere ulaşmayı mümkün kılmaktadır. Böylece KOBİ'lerin rekabet avantajı kazanması olasıdır.

KOBİ'lerin dijital dönüşüme uyum sağlaması şarttır. Dijital dönüşüm için gerekli olan unsurları kullanmaları, KOBİ'lerde bu bilincin oluşması ve sürdürülmesi için gerekli adımlar atılmalıdır. KOBİ'lerin ihtiyaçlarını analiz ederek dijital pazarlamayı süreçlerine uyarlaması, teknolojik unsurları kullanması ve bu doğrultuda yol haritaları oluşturmaları KOBİ'lere fayda sağlayacaktır. Ülkemizdeki KOBİ'lerin rekabetçilik düzeyi göz önüne alınarak yeni teknolojilere uyum sağlaması, kurumsallaşmaları açısından da katkı sağlayacağı düşünülmektedir.

Tüketiciler açısından bakıldığında işletmeler hakkında hızlı bilgi alabildikleri kaynaklar internet ve sosyal medya araçlarıdır. Bu bağlamda KOBİ'lerin bilinirliğini arttırmaları ve pazarlarını büyütebilmeleri için dijital araçları bütünleşik bir şekilde kullanmaları gereklidir. Web siteleri, sosyal medya araçları, arama motorları, mobil uygulamalar, pop-uplar, bannerlar tanıtım için önemli araçlardır. Bu araçların bütünleşik olarak kullanılması KOBİ'lerin ön plana çıkmasını sağlayacaktır.

İnternetin gelişim göstermesi ve sosyal medya araçlarını kullanan kişi sayısının artması dijitalleşmenin önemini göstermektedir. Tüketicilerin satın alam davranışları ve alışkanlıkları da bu bağlamda değişmektedir. İşletmeler, değişimlere uygun olarak pazarlama faaliyetlerini devam ettirmek zorundadır. Aynı zamanda artan rekabet koşullarına uyum sağlamanın bir yolu olarak da dijital pazarlama faaliyetlerini ön plana çıkarmaktır. KOBİ'lerin dijital pazarlama araçlarını geleneksel pazarlama araçları ile bütünleştirerek kullanmaları tüketici istek ve ihtiyaçlarına dönüt verebilmeleri için elzemdir.

İşletmelerde mevcut işgücünü ortaya koymak, gelecekte ihtiyaç duyulacak olan işgücünü belirlemek ve bu ikisi arasındaki dengeyi iç ve dış işgücü arzı aracılığıyla veya çalışma saatlerini azaltma, işten çıkarma gibi yollarla sağlamak İK planlamasının temelini oluşturan basamakları ifade etmektedir. Bu süreç yalnızca sayısal bir dengeleme olmayıp, ihtiyaç duyulan nitelikte işgörene zamanında sahip olmayı da içermektedir. Bu özellikleriyle İK planlaması, İK yönetiminin diğer işlevlerine de temel oluşturmakta ve bu yönü üzerinden önemini perçinlemektedir. Sonuç olarak İK yönetiminin temelini oluşturan, niceliksel ve niteliksel olarak yeterli düzeyde işgöreni işletmede kalıcı kılan ve bu özellikleri ile işletmelere verimlilik ve rekabet üstünlüğü gibi büyük katkıların yolunu açan İK planlamasının KOBİ'lerde özenle uygulanmasının gerektiği düşünülmektedir. Zhai vd. (2018: 434), tüm işletmeler gibi KOBİ›lerin de uzun vadeli insan kaynakları ihtiyaçlarını karşılamak ve ekonomik verimliliği artırmak için insan kaynakları planlamasına verdikleri önemi artırmaları, planlarını bilimsel olarak geliştirmeleri, etkin şekilde uygulamaları ve insan kaynaklarının tahsisini optimize etmeleri gerektiği yönündeki görüşleri, çalışmanın temel bakış açısını ve amacının dokunmak istediği çerçeveyi desteklemektedir.

nitelikteki işlemlerine ait bilgilerin *(gelirler ve alacakların tahsil edilmesinden, emanetlerin muhafaza edilmesi ve ilgili birim ya da bireylere teslim edilmesi ile her türlü para ile ifade edilebilen iş ve işlemlerin kayıt altına alınması gibi)* kayıt altına alınarak raporlanması işlemlerini yürütülmesi olarak ifade edilebilmektedir. Bu bağlamda gerçekleştirilen faaliyetlerin ilgili kanun ve mevzuata uygun bir şekilde yerine getirilmesi ve muhasebe kayıt ve defterlerinin usulüne uygun bir biçimde tutulmasından muhasebe yetkilisi sorumlu tutulmaktadır. Diğer taraftan muhasebe yetkililerinin ödeme belgeleri üzerinde yetkili mercilerin imzaları, ödeme emri ve belgelerinin mevzuat hükümlerine uygun bir şekilde hazırlanıp hazırlanmadığı, belgeler üzerinde belirtilen isimlerin kimliklerin teyit edilmesi ve verilen bilgilerin doğrulanması görevleri de yerine getirmesi gerekmektedir. Belirtilen iş ve işlemlere ait bilgilerin arşivlenerek denetime hazır bir şekilde saklanması muhasebe yetkililerinin sorumluluğuna verilmiş olup ödeme belgeleri üzerinde bulunması gereken eklerin haricinde belge arayamama kısıtlaması da muhasebe yetkililerinin sınırlarını göstermektedir.

5018 Sayılı Kanun'un ek I sayılı cetvelinde değinilen genel bütçeli kurumlarda muhasebe hizmetlerinin Hazine ve Maliye Bakanlığı tarafından, II sayılı cetvelde yer alan Yükseköğretim Kurulu ve üniversitelerde muhasebe hizmetlerinin kurumun kendi içerisinde yer alan strateji geliştirme daire başkanlıklarına tarafından gerçekleştirilmesine açıklık getirilmiştir.

2.1.6.4.4. Gerçekleştirme Görevlisi

Harcama talimatı onayı belgesi bağlamında işlerin yerine getirilmesi, mal ya da hizmet alımlarının sağlanması, teslim alma işlemlerinin gerçekleştirilmesi, belgelendirme ve ödeme işlemlerinin yerine getirilmesi konuşunsa sorumluluk verilen gerçekleştirme görevlileri; İç Kontrol ve Ön Mali Kontrole İlişkin Usul ve Esaslar Hakkında Yönetmelik uyarınca kendisine yakın en fazla bir ya da daha fazla kişi tarafından harcama yetkililerince ödeme emri belgesi düzenlemek ile görevlendirilebilmektedir. Söz konusu görev tahsis edilen gerçekleştirme görevlilerine ödeme emirleri ve ekleri üzerinde ön mali kontrollerin yapılması bakımından yükümlülük verilmiştir.

kurum bünyesinde bir ekip oluşturularak; özellikle iç kontrol uygulamalarının ülke genelinde uluslararası değişen konjonktürel gelişmeler bağlamında örnek pilot çalışmalarının yapılması gelecekte kamu kurumlarının kurumsallaşmasında önemli bir yol katedilebileceğini işaret etmektedir.

3.3.8. Diğer Çevreler

İç kontrol sisteminde dolaylı olarak rol alan kesimler diğer çevreler olarak nitelendirilebilmektedir. Bu bağlamda kurumlar ile ilişki içerisinde bulunan müşteriler, profesyonel meslek örgütleri, eğitimciler gibi birçok kişi ya da kuruluş diğer çevreler kapsamında ele alınabilmekte ve iç kontrol sistemlerinin kurulması, geliştirilmesi ve gözetlenmesi süreçlerinin hemen her aşamasının etkin çalışmasına yönelik bilgi alışverişinde bulunulması önem taşımaktadır. Kurum amaçlarına ulaşılması konusunda rehber olarak işlev görebilmektedirler.

İzleme sonuçları bütünleşik hale getirilerek dönemsel raporlama biçiminde kurumun üst yöneticisine sunulmaktadır. Söz konusu raporlama konusunda özellikle; **"RİSK ÜSTLENİLDİ"** olarak kapatılan bulgular hakkında kurumun üst yöneticisine bilgi verilmesi gerekmektedir.

Denetlenen birimlerin eylem planı kapsamında taahhütlerinin hayata geçirmelerine yönelik izlemeden sorumlu olarak görevlendirilen iç denetçiler tarafından sonuçların, çalışma kağıtları yoluyla kayıt altına alınarak ilgili belgeleri iç denetim birimine sunulmaktadır. Bahsedilen kayıtlar EK 2.31'de belirtilen "Bulgu Takip Formu" aracılığıyla ilgili denetim dosyalarında saklanmaktadır.

Denetlenen birim yöneticisinde değişiklik olması durumunda izlenen bulgulara ilişkin bilgilere birime atanan yeni yöneticiye gönderilebilmektedir. Bulguların kapatılması sonucunda; ilgili risklere yönelik mikro risk puanı güncellemesi yapılmaktadır. Bulguların önem düzeyleri ile birlikte etkilerinin de dikkate alınması suretiyle denetim alanı kapsamında giren faaliyetlere ilişkin risk düzeylerini puantajları, İDB başkanı tarafından güncellenebilmektedir.

5.4. İÇ DENETİM SONUÇLARININ İÇ DENETİM KOORDİNASYON KURULUNA GÖNDERİLMESİ

Hazırlanmış olan iç denetim raporları ile ilgili raporların üzerinde gerçekleştirilen işlemlerin; kurumun üst yöneticisi tarafından azami olarak iki ay içerisinde İDKK'na gönderilmesi gerektiği 5018 Sayılı KMYKK'nun 64. Maddesinde hükme bağlanmıştır. İlgili hüküm bağlamında; i) denetim ve danışmanlık faaliyetleri neticesinde oluşturulan raporlar ile ii) ilgili raporlardaki bulgulara ve önerilere ilişkin denetlenen birimlerden temin edilen uygulamalar ile birlikte üst yönetici tarafından en geç iki ay içerisinde İDKK'na gönderilmesi gerekmektedir. Raporlar ile izleme faaliyetleri sonuçlarının İDKK'na beraber gönderilmesinin gerekli olmasından dolayı verilen iki aylık süre; bulgulara yönelik olarak izleme sonuçlarının kesin hale geldiği tarih itibari ile başlamaktadır. Denetim ve danışmanlık raporlarına yönelik olarak izleme sonuçlarının, İDKK'na iletilmesinde EK 2.32'de belirtilen "İzleme Sonuçları Tablosu" kullanılmaktadır.

Fakat değerlendirmeyi takip eden 5(beş) yıl içerisinde dış değerlendirme faaliyetlerinin yapılmaması durumunda iç denetim birimlerinin yeni bir dış değerlendirme yapılana dek ilgili ibarenin kullanımını durdurması gerekmektedir.

- Ayrıca, iç denetim faaliyetlerinin, gözden geçirme süreci sonucunda "Kısmen Uyumlu" ya da "Uyumsuz" olduğuna kanaat getirilen iç denetim birimlerinin; dış değerlendirme faaliyetleri sonucunda belirtilen eksikliklerin tam bir biçimde giderilmesine ve dış değerlendirme neticesinin onaylanmasına dek "Kamu İç Denetim Standartlarına uygun olarak yapılmıştır." ifadesini kullanmamaları gerekmektedir. Böyle bir durum ile karşı karşıya kalan iç denetim birimleri; dönemsel gözden geçirme faaliyetleri sonucunda uyum probleminin ortadan kalkması halinde 5 (beş) yıllık süreyi beklemeden dış değerlendirme talebinde bulunabilmektedir.

Üniversite genelinde Strateji Geliştirme Daire Başkanlığı çatısı altında hali hazırda uygulamada iç kontrol uygulamalarının yapı ve işleyiş esaslarının kurum içerisinde bağımsız ve objektif bir şekilde değerlendirilmesi ve güvence ve danışmanlık faaliyetlerinin sunulması konusunda ayrı bir iç denetim biriminin kurulmasına yönelik iç denetim çalışmalarına başlanmıştır. Kurulacak olan iç denetim birimi ile;

- İç kontrol faaliyetlerinin eksik, hatalı ve yanlış olan iş ve işlemlerinin tespit edilerek danışmanlık yapılası,
- Risk yönetimi uygulamalarının etkin bir biçimde uygulamaya geçirilerek kurum risk iştahının belirlenmesi konusunda bağımsız ve objektif bir birim tarafından teyit edilmesi,
- Kurum genelinde gerçekleştirilen faaliyetlerin etkinliği ve verimliliği, hazırlanan finansal raporların güvenirliği ve ilgili yasal ve hukuki düzenlemelerine uyum konusunda iç kontrol çalışmalarına rehberlik yapılması,
- Kurumun kendisine ve harcama birimlerine tahsis edilen bütçelerin iç kontrol sistemi çalışmalarının etkin bir şekilde yerine getirilip getirilemeyeceği konusunda danışmanlık yapılması,
- Kurum çalışanlarının etik değerlere ve dürüstlük ilkeleri bağlı bir şekilde görevlerini yerine getirebilmeleri bakımından çok katmanlı bir kontrol yapısı ve denetim mekanizmasının kurularak faaliyetlerin disipline edilmesi,
- Kurumun gerçekleştirmiş olduğu faaliyetlerin bağımsız ve tarafsız bir şekilde değerlendirerek; imajının güçlendirilmesi, kamu, toplum ve diğer bütün paydaşlar karşısında şeffaf, hesap verebilir ve tutarlı bir kamu kurumu kimliğinin oluşması gibi önemli katma değer yaratabilecek faaliyetlerin gerçekleştirilmesi öngörülmektedir.

bağımsız hareket edebildikleri için mülteci temsillerini daha olumlu ve özgürlükçü bir dil üzerine geliştirmiştir.

Sonuç olarak, genelde Türkiye medyası ve özelde haber medyası bağlamında değerlendirildiğinde medya temsillerinin egemen ideolojik yapılardan bağımsız hareket etmediği, özellikle geleneksel medya mecralarının egemen ideolojilerin fazlasıyla etkisi altında olduğu ifade edilebilmektedir. Diğer yandan, medya temsilleri toplumların düşünce biçimlerini, algı ve tutumlarını etkilemekte, kamuoyu oluşması ve yönlendirilmesi süreçlerinde etkili olmaktadır. Aslında, bu sonuçlar açısından bakıldığında, Türkiye haber medyasında mültecilerin temsili ve bunun kamuoyu üzerindeki yansımaları ve etkileri düşünüldüğünde, elde edilen sonuçların uluslararası çevrelerdeki mültecilerin medya temsillerine yönelik sonuçlardan çok da farklı olmadığı görülmektedir.

Tüm bu yapılan bilimsel çalışmalardan elde edilen veriler ışığında, daha iyi bir gelecek için temiz enerji kaynaklarına yönelim büyük önem taşımaktadır. Bu amaç için, gizli ısı depolama yöntemleri, birçok alternatif çözümler sunmaktadır.

Gelecek nesillere daha temiz ve daha iyi bir çevre ve doğayı miras bırakabilmemiz için bugünden itibaren bu yöndeki bilimsel çalışmalara daha hızlı bir şekilde devam etmeliyiz.

sahip olduklarını görmekteyiz. Hastane mekânına giriş, tıbbi prosedürler ve mekândan çıkışı bir bütün olarak yaşayan kullanıcı gözünden baktığımızda bütünsel olmayan tasarım uygulamalarının deneyim tasarımı üzerinde daha az etkili olacağı düşünülmektedir. Mekânın sadece belirli bir bölgesinde değil genel olarak her alanına uygulanan çevresel tasarımlar aslında hastaların mekân deneyimi geliştiren en önemli etkendir. Bu açıdan bakıldığında mekânın geneli ile bütünleşen dijital grafik tasarımı uygulamalarının hastanın mekân algısını tümüyle olumlu yönde değiştirerek, sağlık mekânları tasarımına yeni bir bakış açısı kattığını söyleyebiliriz.

Ayrıca, $S_1 \times S_2$ de (1.1) probleminin bir diğer (h^*,k^*) çözümü ise, Lemma 3.3 den aşağıdaki eşitsizlikler geçerlidir;

$$\bar{h} \geq h^* \text{ ve } \bar{k} \geq k^*,$$
$$h^* \geq \underline{h} \text{ ve } k^* \geq \underline{k},$$

ve

$$\bar{h} \geq h^* \geq \underline{h},$$
$$\bar{k} \geq k^* \geq \underline{k}.$$

Buradan da, $\bar{h} = h^* = \underline{h}$ ve $\bar{k} = k^* = \underline{k}$ eşitliği elde edilir. Böylece, (h^*,k^*) (1.1) probleminin tek çözümü vardır.

gerçekleştirilmiştir. İş aile yaşam çatışması hakkında anket dışında, derinlemesine mülakat tekniği kullanarak görüşmeler yapılması ve böylece çatışmanın altında kalan nedenlerin gün yüzüne çıkarılması araştırmacılara önerilebilmektedir.

Aile iş yaşam çatışması denildiğinde öncelikle akla kadın çalışanlar gelmektedir. Ailevi sorumlulukları eşi ile paylaşmayan veya tek ebeveyn olup çocuklarının tüm sorumluluklarının yüklenen bireylerin iş aile yaşam çatışması yaşaması muhtemeldir. Ailelerin sorumluluk paylaşımını adil bir şekilde yapılması aile iş yaşam çatışmasını büyük ölçüde önleyecektir.

Bu kapsamda ilkokul öğretmenlerinin psikolojik sağlamlıklarındaki düşüklüğün gerçek kaynağını ortaya koymak, bu konuda Covid-19 kaygısını azaltıcı programları uygulamak profesyonelce bir yaklaşım olacaktır. Okulların kurum politikalarına Covid 19 kaygısıyla başa çıkma, pozitif zihinsel sağlığı geliştirme ve psikolojik sağlamlığı artırma süreçleri dahil edilebilir.

olarak daha önce "örgütsel muhalefet" üzerine gerçekleştirilmiş olan çalışmalarla örtüştüğü görülmektedir. Örgütsel muhalefet davranışı olumlu sonuçlarını beraberinde getirdiği gibi olumsuz sonuçlarda doğurabilmektedir. Bu sonuçlar arasında muhalefet davranışının, işletme içerisinde çatışma ve kutuplaşmaların olmasına, işgörenlerde örgütten ayrılma düşüncesi oluşmasında, örgüt içi farklı mobbing davranışlarının oluşması vb. sonuçlara sebep olabileceği yer almaktadır. Sonuç olarak muhalefetin gerçekleştirilmesi durumunda işgörenin göreceği karşılık muhalefetin yönünü de belirlemektedir.

yaşamında stresin ampirik olarak inclenmesi için psikometrik özellikleri sınanmış ölçeklere ihtiyaç duyulmaktadır.

Bu çalışmada House ve Rizzo (1972) tarafından geliştirilen 7 maddeli ve tek faktörden oluşan iş stresi ölçeğinin psikometrik özelliklerinin sınanması amaçlanmıştır. Elde edilen verilere göre ölçeğin faktör yapısı orijinali ve uyarlama çalışması ile uyumlu bulunmuştur. Ayrıca madde analizi ve Cronbach Alfa içse tutarlılık testi bulguları ölçeğin güvenirliğini desteklemektedir.

Bu araştırmanın temel kısıtı örneklem büyüklüğünün çok az sayıda olmasıdır. Bir diğer önemli husus ise ölçeğin geçerliğinin test edilmesi için sadece faktör analizlerine (AFA ve DFA) başvurulmasıdır. Son olarak 7 maddeli iş stresi ölçeği diğer mevcut ölçeklerle birlikte ampirik olarak mukayese edilmemiş, diğer ölçeklerin özellikleri önceki çalışmalara bağlı olarak değerlendirilmiştir. Bundan sonraki araştırmalarda daha büyük örneklemde ve diğer iş stresi ölçeklerinin de yer aldığı bir anket formu ile alternatif ölçeklerle birlikte ilgili 7 maddeli ölçeğin psikometrik özelliklerinin sınanması önerilmektedir.

Sonuç olarak birçok kısıta dayalı (örneklem büyüklüğü, sınırlı sayıda analiz vb.) yürütülen bu çalışmada 7 maddeli iş stresi ölçeğinin geçerli ve güvenilir olduğuna dair ek bulgular elde edilmiştir. Bu bulgular ölçeğin bundan sonraki çalışmalarda kullanılabileceğini göstermektedir.

soruların net ve açık bir şekilde sorulması da bu karmaşıklığı azaltabilecektir.

Araştırmanın sınırlılıklarına rağmen özel bir hastane örneklem alanına sahip bu çalışmanın değişkeni bağlamında literatüre katkı sağlayabileceği düşünülmektedir. Ayrıca kayırmacılık konusunun farklı örneklemler baz alınarak veya farklı araştırma yöntemleriyle tekrar araştırılarak örgütsel davranış literatürünün zenginleşmesine katkıda bulunulabilir. İlave olarak mevcut araştırma, ele alınan değişkene ilişkin algılarını ortaya koymak için katılımcılarla sadece bir kez fikirlerinin edinildiği kesitsel bir araştırma tasarımını içermektedir. Doğru sonuçlara ulaşabilmek adına belirli bir zaman serisinde gerçekleştirilecek araştırmalara yönelmenin fayda sağlayacağı düşünülmektedir. Böylece elde edilen sonuçlar daha genelleştirilebilir.

arasında önemli bir yer tutmaktadır. Örneğin, dersler sırasında hayal kurma olasılığı yüksek olan öğrenciler, hayal kurma olasılığı düşük olan öğrencilere göre sınavlarda daha düşük performans gösterebilmektedirler. Ayrıca, uçağın iniş takımlarını inişten önce açmak gibi bir niyeti gerçekleştirmeyi unutmak gibi bir uç hata örneğinde olduğu gibi ciddi anlamda ağır sonuçların yaşanması da olasılık içerisindedir. Bu nedenle, bilişsel başarısızlıkları incelemek, yalnızca bu tür hatalara yol açan temel mekanizmaların daha iyi anlaşılmasını sağlamakla kalmayacak, aynı zamanda bu tür hataları kimin yapma olasılığının daha iyi anlaşılmasını sağlayacak ve çözüm üretme açısından özgün değer taşıyan eserlerin birikmesine katkı sağlayacaktır (Unsworth vd., 2012:1-16).

Yukarıda arz ve izah edilmeye çalışılan gerekçelerin temelinde yürütülen bu çalışmada, literatüre katkı sunmak ümidiyle, Fırat Üniversitesi bünyesindeki hastanelerin çalışanlarından toplanan verilerle, zihinsel kayıplar ölçeğine ilişkin geçerlilik (açıklayıcı faktör analizi ve doğrulayıcı faktör analizi) ve güvenilirlik analizleri yapılmıştır. Elde edilen bulgular, üç boyutlu yapının toplam varyansın yaklaşık %59'unu açıklayabildiğini, ölçeğin güvenilirlik değerlerinin yüksek olduğunu ve model uyum iyiliği değerlerinin kabul edilebilir sınırlar içerisinde kaldığını göstermektedir.

virüs) salgınının olduğu döneme rastlaması sebebiyle anket tekniği ile 365 kişiye birebir olarak ulaşılabilmiştir. Araştırmanın genellenebilirliği için anketlerin daha fazla sayıdaki katılımcıyla yapılmasının uygun olabileceği düşünülmektedir. Bu araştırmanın farklı sektörlerde (finans ve bankacılık, eğitim, sağlık, turizm vb.) yapılarak, araştırma sonuçların karşılaştırılması önerilebilir.

SONUÇ

Çalışmamızın en önemli amacı literatürde olan sanal kaytarma ölçeklerini tanıtmaktır. Sonrasındaki amaç ise pandemi dönemindeki akademisyenlerin sanal kaytarma eğilimlerinin hangi maddelerde oluştuğunu anlamaya yardımcı olmaktır. Araştırma Sakarya Üniversitesi ve Bitlis Eren Üniversitesinde çalışan akademisyenlerinden toplam 99 kişinin doldurduğu anket formuyla analiz yapılmıştır. Akademisyenlerin çoğu 36-42 yaşların arasında, evli, doktora mezunu, bulunduğu kurumda 11-15 yıl arası çalışanlar ve 10.000 TL üzeri maaş almaktadırlar.

Yapılan araştırmada, açıklayıcı faktör analizi sonucunda; önemli sanal kaytarma olarak tek boyut incelenmiştir. KMO (0,686>.50) ve Bartlett testi (χ^2=133,861; $p < .001$) ile ölçek faktör analizine uygun ve örneklem büyüklüğünün iyi olduğu (Kalaycı, 2010) tespit edilmiştir. Doğrulayıcı faktör analiz sonucu değerlerine göre de ölçek kabul edilebilir değerlere sahiptir.

Akademisyenler üzerine olan sanal kaytarmanın doğrulayıcı faktör analizi yapılmıştır. Çalışmaya katılan akademisyenlere kolayda örneklem yoluyla ulaşılması sebebiyle sonuçlar genellenebilirlik açısından sınırlıdır. Farklı üniversitelerde yapılacak çalışmalarda farklı sonuçlar alınabilir. Farklı boyutlar geçerli olabilir. Ayrıca diğer ölçeklerle de akademisyenler üzerine araştırma yapılabilir. Diğer boyutlar, eposta kullanımı, dinlenme amaçlı internet kullanımı, suistimale açık internet kullanımı, kişisel öğrenme amaçlı internet kullanımı, Paylaşım, alışveriş, durum güncelleme, içerik paylaşımı, oyun/bahis ve belirsiz internet kullanımı gibi sanal kaytarma çeşitlerini ölçmektedir. Bu diğer ölçeklerin farklı boyutlarıyla da daha geniş bulgulara ulaşılabilir.

aynı zamanda sisteme işlerlik kazandırmakla yükümlü yönetim organlarının başarısı açısından da dönütler verir. Bütün bu kapsama rağmen değerlendirmede elde edilen bilgilerin öncelikle öğrenci açısından ele alındığı görülür. Oysaki öğrenme ve öğretme başarısı paydaşların üstün bir görev algısı ile üstesinden gelinebilecek bir konudur. Dolayısıyla yapılan her değerlendirme etkinliğinin paydaşların kendilerine yönelik bir öz değerlendirmeyi gerekli kıldığının altını çizmekte yarar vardır.

Yazar Özgeçmişi

Prof. Dr. Murat TUNCER, 2003 Yılında Fırat Üniversitesi Sosyal Bilimler Enstitüsü Eğitim Bilimleri Anabilim dalında yüksek lisans ve 2007 yılında Fırat Üniversitesi Sosyal Bilimler Enstitüsü Eğitim Bilimleri Anabilim dalında doktora eğitimini tamamlamıştır. 2007-2009 yılları arasında Kahramanmaraş Sütçü İmam Üniversitesi Eğitim Fakültesinde ve 2009-2014 yılları arasında Fırat Üniversitesi Eğitim Fakültesinde Yrd. Doç. Dr. olarak çalışmıştır. 2014 yılında Eğitim Programları ve Öğretim alanında Doçent unvanı alan yazar, 2020 yılında Fırat Üniversitesi Eğitim Fakültesi Eğitim Bilimleri Bölümü Eğitim Programları ve Öğretim Anabilim dalına Profesör olarak atanmıştır. Prof. Dr. Murat Tuncer'in Eğitim Programları, öğretmen yetiştirme, ölçme ve değerlendirme, öğrenme ve öğretme süreci değişkenleri, bilimsel araştırma yöntemleri, bilgisayar eğitimi, matematik eğitimi konularında yurt içi ve yurt dışı makaleleri, kitap ve kitap bölümleri ve bildirileri bulunmaktadır.

Stufflebeam'in Bağlam Girdi-Süreç ve Ürün Modeli: Bu model, program hakkında karar vericilere bilgi sağlamak amacıyla, çok kapsamlı ve çok yönlü bir değerlendirmeyi esas alır. İlk aşamada, program ile ilgili tüm faktörlerin ve mevcut durumun analizi yapılır. İhtiyaç analizi yapılarak, karşılanamayan hedefler belirlenir ve neden karşılanamadığının sebepleri araştırılır. Devam eden işlem basamaklarında ise girdi, süreç ve ürün ögelerine yönelik değerlendirmeler yapılır.

Eisner'in Eğitsel Eleştiri Değerlendirme Modeli: Bu model, değerlendirme aşamasında, nicel sonuçlardan çok nitel sonuçlara odaklanır ve eğitimin niteliği ile ilgili sürecin betimsel analizi yapılır. Devam eden süreçte elde edilen veriler yorumlanır ve değerlendirilir.

Bloom'un Program Ögelerine Dayalı Değerlendirme Modeli: Bu model değerlendirme sürecinde, programın dört temel ögesi olan hedef, içerik, eğitim durumları ve değerlendirme üzerine odaklanır. Öncelikle hedeften başlayarak sırasıyla, her ögenin taşıması gereken özellikler ile ögeler arasındaki uyum sorgulanır.

Yazar Özgeçmişi

2002 yılında Çukurova Üniversitesi, Eğitim Fakültesi Sınıf Öğretmenliği bölümünden mezun olmuştur. Yüksek lisans öğrenimini 2004 yılında Çukurova Üniversitesi, Eğitim Programları ve Öğretim Anabilim Dalında tamamlamıştır. 2014 yılında Mersin Üniversitesi, Eğitim Programları ve Öğretim Anabilim Dalından doktora derecesi ile mezun olmuş ve aynı alanda 2020 yılında doçentliğini almıştır. 2017 yılından beri Uluslararası Final Üniversitesinde öğretim üyesi ve dekan yardımcısı olarak görev yapmaktadır. Eğitici eğitimi, öğrenme, yetişkin eğitimi, sağlık eğitimi ve öğretimde teknoloji kullanımı ile ilgili çalışmalar yapmaktadır.

Yazar Özgeçmişi

Melih DİKMEN, aslen Elazığ'lı olup İstanbul'da doğmuştur. İlk ve ortaokul eğitimini İstanbul'da tamamladıktan sonra lise ve üniversite eğitimini Elazığ'da tamamlamıştır. 2011'de Fırat Üniversitesi Eğitim Fakültesi Bilgisayar ve Öğretim Teknolojileri Öğretmenliği bölümünden lisans, 2015'de Yeditepe Üniversitesi Eğitim Bilimleri Enstitüsünde Yüksek Lisans öğrenimini tamamlamıştır. 2020 yılında Fırat Üniversitesi Eğitim Bilimleri Enstitüsü Eğitim Programları ve Öğretim Ana Bilim Dalı'nda doktora tezini tamamlayarak doktor unvanı almıştır. 2016 yılından beri Fırat Üniversitesi'nde Öğretim Görevlisi olarak çalışmaktadır. Ulusal ve uluslararası dergilerde yayınlanmış makaleleri ve bildirileri vardır.

Prof. Dr. Gülay EKİCİ

Ankara Üniversitesi Fen Fakültesi Biyoloji Bölümünden mezun olmuş, Ankara Üniversitesi Eğitim Bilimleri Fakültesi Program Geliştirme Bölümünde Yüksek Lisansını, Gazi Üniversitesi Gazi Eğitim Fakültesi Eğitim Programları ve Öğretim Bölümünde de Doktorasını tamamlamıştır. Nisan 2010 tarihinde doçent unvanını almıştır. Şubat 2017 yılında profesör unvanını alan yazar halen Gazi Üniversitesi Gazi Eğitim Fakültesi Eğitim Programları ve Öğretim Anabilim dalında görevini sürdürmektedir. Çalışma alanı, genel olarak "Öğrenciler nasıl daha iyi öğrenebilirler? Öğretmenler nasıl daha iyi öğretebilirler? ve "Nitelikli eğitim-öğretim için neler yapılabilir?" sorularının cevapları olarak tanımlanabilir ki bu kapsamda nitel araştırma modeli, nitel veri toplama araçları, öğrenme/öğretme stilleri, 21 yüzyıl becerileri… vb konularında çalışmaları mevcuttur. Bu konularla ilgili yayınlanmış pek çok makalesi, uluslararası ve ulusal bildirisi, kitap editörlükleri, kitap bölümleri ve farklı kurumlardan uluslararası pek çok yayın teşvik ödülleri bulunmaktadır.

pazarlamasının kendi içinde çok büyük değişiklikler göstermediği, bunun yerine, sunulan hizmetlerde yüksek düzeyde adaptasyon gerektiren, son derece rekabetçi ve dalgalı bir pazarın sürekli olan değişimlerinden, dönüşümlerinden ve eğilimlerinden etkilendiği belirtilmelidir.

Gastronomi pazarlaması olası ve mevcut tüm müşteri istek ve ihtiyaçlarını ve günümüz sağlıklı beslenme trendlerini dikkate alarak, tüm modern ve dijital pazarlama araçlarını verimli bir biçimde kullanarak, yöresel mutfak değerlerinin geliştirilmesi ve tanıtılması konularına yoğunlaşarak ve deneysel yaklaşımlar ile yenilikler yaparak restoranı ön plana çıkarabilir ve restoranın rekabet ettiği diğer işletmelere göre önemli avantajlar elde etmesini sağlayabilir.

turistlerin ihtiyacını karşılayacak memnuniyetini artıracak yakın destinasyonlar ile bağlantılı aktiviteler oluşturmak da önemli pazarlama stratejileri olarak karşımıza çıkmaktadır.

Hangi teknik ve yöntemle olursa olsun stratejik açıdan pazarlama, destinasyonların çekiciliğini arttıracağı gibi rekabetçiliğini de arttırmaktadır. Hem destinasyon yönetimi hem de destinasyon pazarlaması değişen koşullar göz önüne alınarak planlanmalı ve planlar uygulamaya geçirilmelidir.

Yetiş, S.A. (2018). Turist Rehberlerinin Bakış Açısıyla Bölgesel Turlarda Algılanan Hizmet Kalitesinin Kritik Olaylar Tekniği (KOT) ile Ölçülmesi. *Manas Sosyal Araştırmalar Dergisi,* 7(3), 777-799.

tescilli ürünler sunulmalı ve bu ürünlerin coğrafi işaret tescilli ürünler olduğu, ağırlanan turistin farkına varacağı şekilde belirtilmelidir. Bu sayede turist, ürünün, o yöreye has bir ürün olarak coğrafi işaret tesciliyle korunduğunu öğrenebilir ve ürünü deneyimlemeye yönelik bir arzu duyabilir. Deneyimleme sonucunda duyacağı memnuniyet ise turistte o bölgeyi tekraren görmek isteği, destinasyon sadakati yaratabilir (Polat 2017: 27). "Restoranımızda coğrafi işaretli ürünler kullanılmaktadır", "İşletmemizde coğrafi işaretli Antep baklavası sunulmaktadır." gibi ibareler turistin dikkatini çekebilecek şekilde yerleştirilmelidir. Coğrafi işaretli ürün sunumunu gösteren bu ibareler sayesinde işletmenin göreceği ilgi artabilir ve işletme bu ürünleri kullanmakta devamlılığı sağlayabilir (Keskin, 2019: 92).

Çalışmada turizm pazarlamasına coğrafi işaretli ürünlerin dâhil edilmesiyle elde edilecek faydalara çok yönlü olarak değinilmiştir. Coğrafi işaretli ürünlere ve sağladığı faydalara daha çok önem gösterilmeli ve sahip çıkılmalıdır. Bunun için de ilgili yerel yönetimlere ve yetki sahibi kurumlara önemli görevler düşmektedir. İletişim ağlarından ve teknolojik imkânlardan etkin yararlanılmalıdır Yerel yönetimler internet sitesi, sosyal medya hesapları gibi alanlarda coğrafi işaret tesciline sahip ürünlerini tanıtmalı; hem turistin hem de yerel halkın bilgilenmesi sağlanmalıdır. Ayrıca, yerel yönetimler tarafından yerel ve uluslararası festival, fuar gibi etkinlikler düzenlenmeli ve bu etkinliklerde, yoğun katılım elde edilmeli, coğrafi işaretli ürünlerin daha çok insan tarafından tanınması sağlanmalıdır (Polat, 2017: 27).

Zuluğ, A. (2010). Coğrafi İşaretli Gıdalara İlişkin Tüketici Tercihleri Üzerine Bir Araştırma: İstanbul Örneği. Doktora Tezi, İstanbul: Ege Üniversitesi.

Günümüzde özellikle de birçok olumsuz durumdan çok çabuk etkilenen otel işletmelerinde yöneticiler, satış gücünü rekabet ortamında önemli bir güç olarak algılamalı, etkin satış geliştirmede tüketici yönlü stratejiler uygulamalı ve satış gücü yönetimine daha fazla odaklanmalıdırlar. Ayrıca satış geliştirme faaliyetleri sadece satışlar azalınca uygulanan bir yöntem olmamalı, işletmenin faaliyette olduğu her zaman bu faaliyetlere başvurulmalı, ayrıntılı bir planlama, yeterli ve titiz bir hazırlık aşaması sonrası uygulanmalıdır.

Dijital pazarlama ile ürün ve hizmetlerini tüketicilere ulaştıran işletmeler pandemi döneminde avantaj elde etmişlerdir. İnternet tabanlı uygulamalar sayesinde daralan pazarı genişletme şansına ulaşan işletmeler pandeminin etkilerini en aza indirme şansına sahip olmuşlardır. Dijital pazarlamanın yanında covid-19 pandemisi ile birlikte işletmelerin alternatif pazar bulma, ilişkisel pazarlama yöntemleri kullanma, müşteri deneyimlerinden faydalanma, salgına yönelik ürün ve hizmet geliştirme gibi yöntemleri de kullandıkları belirlenmiştir.

Bunlarla birlikte pandemi son bulduğunda dünya düzeninde yaşanacak değişikliklere de işletmeler hazırlık yapmaktadırlar. Yapılan araştırmalarda tüketicilerin pandeminin getirmiş olduğu kısıtlamalardan dolayı sıkıldıkları, hayat normale döndüğünde eski alışkanlıklarının birçoğuna geri dönecekleri belirlenmiştir. Bu durumda çevrimiçi pazarlama ve satışın yerini eski yöntemlere bırakılacağı düşünülebilir. Fakat günümüz koşullarında internet ve dijitalleşmenin her geçen gün hayat içindeki payının arttığı gözlemlendiğinden dolayı bu düşünce gerçeği yansıtmayacaktır. Elbette insanlar eski alışkanlıklarına dönme yolunda istekli olacaklardır fakat teknolojinin getirdiği avantajları da geride bırakmayacaklardır. Bu sebeple pandemi sonrası da düşünülerek işletmeler tarafından omnichannel olarak isimlendirilen çok kanallı uygulamalara geçilmesi daha doğru olacaktır. Çevrimiçi merkezli fakat çevrimdışı unsurları da barındıran çok kanallı uygulamalar sayesinde işletmeler pandemi sonrasında da gelişimlerini sürdürebileceklerdir.

toplumsal kaygılar, müşterilerin konuya olan farkındalık düzeyleri, yasal ve hukuki yaptırımlar ile sürdürülebilir kalkınma programları neticesinde işletmeler sadece kendi faaliyetlerini değil tedarik zincirleri içerisinde bulunan tüm paydaşlarının faaliyetlerini de sürdürülebilirlik algısı ile kurgulamalı ve yönetmelidir. Bu süreci başarıyla yöneten işletmeler verimlilik artışı, maliyetlerde azalış, çevrim sürelerinin kısalması, israfın önlenmesi, kurumsal itibarın ve müşteri sadakatinin artması yoluyla elde edecekleri rekabet avantajını sürdürülebilir kılabileceklerdir.

Avrupa Birliğinin yayımlanmış olduğu Covid-19 sürecinde güvenli ülkeler listesine ülkemizi dâhil etmemiş olması sonucunda ciddi bir gelir kaybı yaşanmıştır. T.C. Kültür ve Turizm Bakanlığı, Sağlık Bakanlığı, Dış İşleri Bakanlığı iş birliğinde yurt dışında ülkemizi Covid-19 tüm turizm faaliyetlerinin insan sağlığını korumaya odaklı olduğunu ve salgın açısından güvenli bir ülke olduğumuz ile ilgili tanıtımlar ve imaj çalışmaları yapması oldukça önem arz etmektedir. Bununla birlikte ülkemizde faaliyet gösteren turizm sektör paydaşı olan birlik, oda, dernek gibi topluluklar; Türkiye Otelciler Federasyonu, Türkiye Otelciler Birliği, Turist Rehberleri Birliği, Türk Turizm Yatırımcıları Derneği, Türkiye Seyahat Acentacıları Birliği gibi sektörün önde gelen toplulukları yurt dışında ilgili fuar, sempozyum ve toplantılara katılarak ülkemizde Covid-19 virüsüne karşı alınan önlemleri anlatarak gerekli anlaşmaları yaparak turizm hareketliliğini arttırmaya çalışmalılardır. Dışarıdan gelebilecek her türlü olumsuz senaryoya karşı sadece yurt dışından gelecek yabancı misafirlere değil, yurt içinde ki yerli misafirlere de gerekli olan iç turizm canlandıracak reklam, promosyon, pazarlama faaliyetlerine ağırlık verilmelidir.

görevlerinin geçmişte kaldığı anlamına gelmemektedir. Yetenekli ve tecrübeli çalışanları seçme, yerleştirme, performans değerlendirme, adil ücretlendirme ve ödüllendirme gibi mekanizmalarla elde tutma, yetenek ve tecrübelerine yatırım yapma, eğitim ve gelişim fırsatı sunma, çalışan ve işverenle tatmin edici ilişkilerin geliştirilmesi gibi görevler hala önemli olmakla birlikte örgütün stratejik hedefleriyle uyumlu hale getirilmektedir. Bu açıdan basit bir şekilde İnsan Kaynakları Yönetimini kısa vadeli, Stratejik İnsan Kaynakları Yönetimini uzun vadeli uygulamalar şeklinde ifade etmek yanlış olmayacaktır. Dolayısıyla Stratejik bir yaklaşımı benimsemiş olan İnsan Kaynakları Yönetimi, çalışan performansının her zaman örgütsel performansla sonuçlanmadığının farkındadır. Bu sebeple örgütsel performansı önceler ve yeterli örgütsel performans düzeyini güvence altına almaya odaklanır.

Giderek daha fazla büyük işletmenin yerini KOBİ'lere bıraktığı düşünüldüğünde, KOBİ'lerin Stratejik İKY uygulamalarına ihtiyacının önemi daha da belirginleşmektedir. Buna rağmen KOBİ'lerin İKY uygulamalarında yetersiz olduğu göz önünde bulundurulduğunda İKY stratejileri, politikaları ve işlevlerinin öncelenmesi gereken konular olduğu ortaya çıkmaktadır.

noktaları belirlemeye çalışmalı ve onları NFT ürününü işletme adına paylaşacak ve tanıtacak savunuculara dönüştürmelidir.

Pazarlama kampanyalarında NFT'leri uygulamayı düşünen pazarlamacıların, NFT ile ilgili gelişmeleri ve talepteki değişiklikleri sürekli olarak izlediklerinde fayda görecekleri ve rekabet avantajı elde edebilecekleri de dikkate alınmalıdır. Bununla birlikte, toplumun ihtiyaç duyduğu şey, pazarlama yöneticileri ve tüketiciler için NFT kullanımının sözleşme koşullarını sağlayabilecek yasal düzenlemelerdir.

olmayan herhangi bir varlık Türk milletinin ciddiyet dairesine dahil olma imkânı bulamaz. Bu meyanda zihniyet olarak gelenek münekkidi ve düşmanı bir mahiyeti olan Selefî söylemler dahi Türkiye'de karşılık bulmak için bir Selefî gelenek tesis etmenin imkânını arar. Türkiye'deki Selefî çevrelerin bu doğrultuda İbn Teymiyye'den başlayan, Osmanlı düşünce dünyasında Birgivî Mehmet Efendi ile kök salan, Kadızâdeliler ile ise dallanıp budaklanan bir Osmanlı Selefîliği anlatısını destekleme ve yaygınlaştırma arayışı olduğu söylenebilir. Türk siyasetinin Türk din tasavvuru ile nasıl bağları olduğunu, Türkiye'de siyasal hayata etki edemeyenlerin din tasavvuruna sirayet ederek onu değiştirme gayreti gösterdiğini bilenler için bu durum malumun ilamından öte bir mana ifade etmez. Netice itibarıyla şunu söylemek mümkündür ki Birgivî Mehmet Efendi ve Kadızâdeliler Hareketi söylem itibarı ile Hanefî ve Mâtürîdî geleneğin bir parçasıdır. Onların tenkitleri bir başka mezhep, ekol ya da şahsın haleflerinin söylemleri olarak değil aynı din ve dünya görüşünün mensubu unsurlar arasında mezhep içi tenkitler olarak değerlendirilmelidir. Bu meyanda sorulabilecek *Osmanlı'da Selefî var mı?* sorusuna olumsuz bir yanıt vermek ve bu soruyu *Türk zihniyetinin var olduğu yerde Selefîliğin kök salması muhaldir.* şeklinde cevaplamak mümkündür.

verilirken PWC ve EY şirketleri en fazla hizmeti Denetim ve Güvence alanında vermektedir. Vergi ve Hukuk alanında verilen hizmetler ise Big Four şirketlerinin sektör şirketlerine sunmuş olduğu en az hizmettir. Şirketlerin yıllar itibariyle hizmet fonksiyonları bağlamında sundukları hizmetlerden elde ettikleri gelirlerin incelenmesi sonucunda 2019,2020 ve 2021 yılında Denetim ve Güvence ve Vergi ve Hukuk hizmeti fonksiyonunda en fazla geliri PWC şirketi elde ederken Danışmanlık hizmeti fonksiyonunda en fazla geliri Deloitte şirketi elde etmiştir. Bu anlamda PWC şirketi Denetim ve Güvence ve Vergi ve Hukuk hizmetleri alanında daha fazla uzmanlık sağlarken Deloitte şirketi Danışmanlık hizmeti alanında uzmanlık sağlamıştır.

İnce (2019), Günel (2020), Akalin (2021) ile Efe ve Yılmaz (2022) çalışmalarındaki ampirik sonuçları büyük oranda destekler niteliktedir.

Analizden elde edilen bulgular, incelenen ülkelerde vergi takozu ile işsizlik arasında uzun dönemli ilişki olduğuna dair kanıtlar sunmakla birlikte vergi takozunun işsizliği artırdığını ortaya koymaktadır. Analiz kapsamında işsizlik ile mücadelede politika yapıcılara, vergi takozu oranlarını hem işveren hem de işgücü için ekonomik koşullar (sosyal güvenlik sisteminin bütçe dengesi gibi) çerçevesinde minimize etmeleri önerilmektedir. Nitekim düşük vergi takozu oranı, yatırımları ve dolayısıyla istihdamı teşvik edecek faktörlerin başında gelmektedir. Ayrıca işgücünün vergilendirilmesinde gelir düzeyinin dikkate alınması, işgücünde vergilendirme sonrası gelir etkisinin oluşmasına katkı sağlayacaktır.

konulardan biridir. Bu dikkat çekici araştırma ilgisinin nedenleri arasında gerçek hayatla uyumlu bir uzlaşmacı ya da pareto optimal performans ölçüm arayışı yer almaktadır. Bu noktada ölçüm iyileştirmeye dayalı bir ÇKKV modeli oluşturmaya devam edileceği değerlendirilmektedir. Bu anlamda çalışma, bu iyileştirmenin nasıl yapılması gerektiği konusunda alternatif ve yol gösterici çalışmalardan biri olacaktır.

Türkiye'deki eğitimin kalitesi üzerine bahsedilen sorunlar dikkatlice incelenip sorunların çözümüne yönelik kesin ve planlı kararlar alındığı takdirde Türkiye eğitim alanında istediği sonuçları alması kaçınılmazdır. Zira her yıl eğitim için önemli bütçeler ayrılmakta ve bu Türkiye'nin gelişmesi ve kalkınması açısından oldukça önemli bir yere sahip olmaktadır.

Ancak uzaktan öğrenme yönetim sistemi kalitesinin etkisi uzaktan öğrenme etkileşim kalitesine oranla çok daha büyük bulunmuştur. Bu bulgu aynı zamanda yükseköğrenim uzaktan eğitim foksiyonel kalite boyutu ile yükseköğrenim uzaktan eğitim teknik kalitesi arasında anlamlı ilişkiler bulan Bayram, Zengin ve Sert (2021) çalışmasını desteklemektedir.

Benzer araştırmalar uzaktan eğitim gören ilk, orta ve lise düzeyinde farklı hizmet kalitesi modelleri kullanılarak veya yeni modeller tasarlanarak benzer araştırmaların yapılması önerilmektedir.

sektöründe görev alacak farklı kültürlerle iletişime girecek olan turizm programı öğrencilerinin mevcut kişiler arası iletişim istekliği ile etnosentrizm düzeylerinin belirlenmesi önemlidir. Yapılan çalışmada öğrencilerin Türkiye'nin farklı bölgelerinden geldikleri, yaklaşık yarısının iş veya staj ortamında farklı kültürler (yabancı müşteri) ile iletişime geçtikleri ve yüksek oranda kültürlerarası iletişim isteğine sahip oldukları sonucuna ulaşılmıştır. Yapılan çalışmada kültürlerarası iletişim istekliği ile etnosentrizm düzeyi arasında negatif yönlü bir ilişki tespit edilmiş, yüksek kültürler arası iletişim isteğine sahip öğrencilerin, düşük etnosentrizm düzeyine sahip oldukları sonucuna ulaşılmıştır. Sonuç olarak kültürlerarası iletişim olmazsa olmaz olduğu turizm sektörü etnsentrizmin engellenmesinde bir etkendir denilebilir.

Çalışma turizm sektörüne ara eleman yetiştiren iki yıllık meslek yüksekokulu turizm proğramı öğrencileri üzerine yapılmıştır. Eğitimcilere; öğrencilerini okul hayatları boyunca üniversite – sektor işbirliği çerçevesinde sektörle daha fazla buluşturmaları, staj dönem ve sürelerinin arttırılması önerilir. Çalışma, daha büyük örneklemlere veya turizm fakülteleri öğrencilerine yönelik te yapılabilir.

Marksizmin öncülleriyle uyumlu hale getirmeye çalışırlar (Burris, 1987: 67). Bu isimlerden biri olan Wright, Weberci anlamda "gücü" Marksist sınıf yaklaşımının merkezine yerleştirerek her iki düşünürün görüşlerini sentezlemiştir. Resnick ve Woolff (2003)'a göre Wright, sınıf kavramına mülkiyetin yanı sıra geliri eklemekten fazlasını yaparak, gücü merkeze yerleştirmiştir. Weber'e olan ilgi muhtemelen kuramının merkezine gücü almasıdır. Weberci anlamda güç merkezli orta sınıf analizinde Wright, gücü oluşturan unsurun sadece mülkiyet sahipliği olmayıp, deneyim, bilgi, beceri gibi unsurların da olduğunu düşünmektedir. Orta sınıfta yer alanların konumlarını "çelişkili" olarak tanımlamıştır. Yani orta sınıf aslında ne burjuvaziyi ne de proleteryayı temsil etmemektedir.

anlamlandırılmasının yapıldığı bu çalışmada cümle ve cümle üstü birimler ile olan ilişkiler tespit edilmiştir. Bu tespit bağlam temelinde yorumlanarak stratejik bir yaklaşımla yorumla gerçekleştirilerek söylemin iletisinde yer alan öneriler bütünsel bir bakış açısıyla sunulmuştur. Böylece söylemde yer alan mikro yapılarla anlam yeniden inşa edilmiştir. Bu inşada tematik ve şematik yapılar sistematik olarak sunulmuştur. Makro yapılandırma aşamasında ise sözcük, cümle ve cümle üstü birimler içerik özellikleri, gramatikal özellikler, yapısal özellikler irdelenmiştir. Okuyucunun metne yönelik algı düzeyi arttırılmıştır.

çılgınlığı olarak gören Cioran'ın da ifadesi ile "*değer yaratan insan tam anlamıyla sayıklayan bir varlıktır. Hayat sayıklama içinde yaratılır ve sıkıntı içinde dağıtılır. Heyecanını askıya alsa hiçbir şey titremez, kaprislerini ortadan kaldırsa her şey soluklaşır. Gerçeklik aşırılıklarımızın, ölçüsüzlüklerimizin ve dengesizliklerimizin bir eseridir. Çarpıntılarımızı frenleyebildiğimizde dünyanın akışı yavaşlar. Ateşliliğimiz olmasa mekân buz tutar."* sözlerinin yaşayan bir ifadesidir. Birbirine zıt görünen lakin bütünün bir parçası olan tüm olgu, olay, düş, düşünce ve duyguların tek bir paradigmada buluşması hümanarşizm olup Sezen Aksu'yu da hümanarşist olarak tanımlamak mümkündür. "Ben" demenin sorumluluğunu üstelen bir sanatçı olarak toplumun önemli bir kesiminin beğenisini kazanmıştır. Doğruları ve yanlışları, günahları ve sevapları ile insanın doğasında olan karmaşa ve kargaşayı çözmeye, çözümlemeye ve yine insanın, insanlığın yararına kullanmaya çalışmaktadır. Netice itibari ile hümanarşizm yeryüzü gerçeklerine gözlerine kapamadan insanı, insana dair olanı anlamaya, anlaşılır kılmaya, birleştirmeye, bütünleştirmeye çalışan bir paradigma ve Sezen Aksu da bu paradigmanın önemli temsilcilerinden biridir.

SONUÇ VE ÖNERİLER

İlaçların akılcı kullanımı ile ilgili hem ülkemizde hem de dünyada belirli bir mesafe alınmış olsa da halen çok ciddi problemler vardır. Akılcı ilaç kullanımı konusunda toplumsal bilinç oluşturulmalıdır. Davranış değişikliği olması için eğitimler düzenlenmelidir. Eğitim faaliyetlerinin yanı sıra idari ve yasal düzenlemelerde önemlidir. Sağlık politikaları oluşturulurken akılcı ilaç kullanımı üzerinde hassasiyetle durulması gerekmektedir. İlaçlara harcanan para, toplam harcamalar içinde önemli bir yere sahiptir. Ülke ekonomisini yakından ilgilendiren bu durumla ilgili ciddi çalışmalar yapılmalıdır. Yetersiz eğitim, yapılan hataların farkında olmama, ruhsatlı ilaç sayısında ve tedavi endikasyonlarındaki artış, komplike hastalar, uygun olmayan polifarmasi, standardizasyonun olmaması, hemşirelerin iş yükünün fazla olması gibi faktörler akılcı ilaç kullanımının engelleyen faktörlerdir. Bu sorunun çözümüne multidisipliner şekilde yaklaşılmalı ve eğitimler düzenlenmelidir. Akılcı ilaç kullanımı konusunda gerek toplumda farkındalığı arttırmak gerekse reçetesiz ilaç satışı ile ilgili gerekli bazı düzenlemeleri yapmak ve hastanın doğru bilgiye ulaşmasını sağlamak için eğitim ve politik çabalara ihtiyaç vardır. Eczanelerden reçetesiz ilaç alımının önüne geçilmeli, yeterli miktarda ilaç verilmeli ve evlerde ilaç birikimi önlenlenmelidir. Hastalarını yakından tanıyan, bakımda sürekliliği sağlayan ve onların sağlık sistemindeki savunucusu rolündeki aile hekimleri akılcı ilaç kullanımı konusunda merkezi bir konumda olmalıdır. Gerek eczaneler gerekse diğer sağlık profesyonelleri ile iş birliği içinde ve iki yönlü iletişimin mutlak gerekliliği sağlanarak hastaların ilaç ve ilaç dışı tedavileri düzenlenmeli ve takip edilmelidir.

Zaragozano, & Basude, 2016). Hemşireler, çölyak hastalığı bulunan bireyler için, eğitim ve beslenme gibi çeşitli alanların yönetiminde büyük ölçüde iyileştirme potansiyeline sahiptir (Roos, Kärner, & Hallert, 2009).

Özellikle çölyak tanısına sahip olan adölesanların ev dışında yemek yedikleri sosyal ortamlarda glüten bulaşmasına ilişkin kaygı hissettikleri bilinmektedir. Bu nedenle, ergenlerin ev dışındaki sosyal durumlarda diyete uyumu sağlayacak etkili baş etme stratejileri oluşturmalarına yardımcı olmak için sürekli eğitim programları ve akran destek gruplarının oluşturulması etkili olabilir (Arnone & Fitzsimons, 2012). Adölesanların hastalık yönetimi ve baş etmelerine yardımcı olmak için, destek ve eğitim verilmesi gerektiği önerilmiştir (Altobelli et al., 2013). Hastalara, kapsamlı bir eğitim verilmesi, çölyak yönetimi için çok önemlidir (Strauch & Cotter, 2011).

Hasta desteği diyalog ve katılım içermektedir. Çölyak hastalığında da hastalar hastalığın yönetimine ilişkin bilgilendirmeler için oluşturulacak destek gruplarına teşvik edilmelidir (Ludvigsson et al., 2015) Çünkü, çölyak hastalığına sahip olma hastalara ve ailelere zorluklar yaşatmaktadır(Meyer & Rosenblum, 2018). Çölyak hastaları için bakım, bütüncül bir yaklaşımın parçası olarak sağlanmalıdır. Çölyak hastalığının tıbbi ve psikolojik açıdan başarılı bir şekilde yönetilmesi için psikososyal destek sağlanması, (Ciacci et al., 2002; Häuser et al., 2007; McGrady & Hommel, 2013; Wagner et al., 2008) tedavinin yanında rehberlik ve sosyal yönden takibi önem taşımaktadır (Meyer & Rosenblum, 2018). Sağlık profesyonelleri, çölyak hastalığında tedaviye uyumu artırmak için bu hastalığın psikolojik yükünün farkında olmalıdırlar (Zingone et al., 2015). Tedaviye uyumu artırmak için ortaya çıkan psikolojik ve sosyal sorunlarında ele alınması gerekmektedir (Sverker et al., 2005). Hastalar genellikle diyet eğitimi ve gündelik yaşamda uygulanabilecek başa çıkma stratejilerine ihtiyaç duyarlar (Rose & Howard, 2014).

bu bölümü tercih ettikleri görülmüştür. Ebelik bölümünü bitiren öğrencilerin büyük bir bölümünün kamuya atanıyor olması; atanamayanların da özel sektörde iş bulabilmelerinin bu tercih etmedeki payı yadsınamaz bir gerçektir. Türkiye'de yapılan incelemeler neticesinde yeteri kadar Ebelik Bölünün bulunduğu bundan sonraki yapılacak işlemlerin yeni bölüm açmaktan ziyade nitelik artışına gidilmesi gerekliliğidir. Bir an önce akademik kariyer yapabilmeleri için lisansiyer ebelerin kendi alanlarında lisansüstü eğitimler ile daha da spesifik konularda uzmanlaşmaları etkinlik ve verimliliği de beraberinde getirecektir. Araştırma sonuçları kesitsel bir dönemi kapsamaktadır. Araştırma kapsamında uzamsal daha farklı analizleri ve soru cevaplarını içerecek şekilde yapılması farklı sonuçları da beraberinde getirecektir. Araştırmanın pandemi koşulları olması vb. gibi kısıt nedenleri ve zaman kıstı gibi durumları da göz önünde bulundurulmalıdır. Araştırmanın en önemli sonuçlarından birisi de yaş ile ebelik aidiyeti arasındaki negatif yönlü anlamlı bir ilişkinin bulunması durumudur. Örgütsel bağlılık kavramı ebelik aidiyetinde olduğu gibi kendisini bulunduğu mesleğe kuruma ait olma şeklinde tanımlanabilir. Angle ve Perry, (1981) ile Glisson, Durick, (1988); ve Özdemir (2020), eğitim düzeyi ile örgütsel bağlılık arasındaki ters yönlü ilişkiye dikkat çekmişlerdir. 1. Sınıftan dördüncü sınıfa kadar olan öğrencilerin sınıf düzeyleri ile ankete katılımlarının ters yönlü olması durumu bir şekilde kendilerini bulundukları eğitim örgütü olan üniversitelerine bağlılıklarının azaldığı şeklinde de yorumlanabilir. Bu durum atanamama endişesi ve yoğun geçen eğitim dönemi sonuna yaklaşıldığındaki tükenmişlik artışı vb. gibi durumlar ile açıklanabilmektedir. Dolayısı ile ebelik bölümü öğrencilerini iş hayatına hazırlayacak özel bir eğitimin ya da iş hayatına oryantasyonu artıracak bilgilerin verilmesi gerekmektedir. Özdemir (2021)'in de belirttiği gibi iyi bir performans yönetimi neticesinde sağlıkçıların verimlilikleri de yükselecektir. Araştırmanın bilime ve literatüre katkı sağlaması amaçlanmaktadır.

gerekmektedir. Bu hedefe en iyi şekilde ulaşmak için hastane yöneticileri, uygulama düzeyinde kendi kuruluşlarının misyon, vizyon ve değerleri ile başlamalıdır. Ayrıca işlerini düzenleyen kuruluşların, hastalarına hizmet eden personelin ve kendi etik kurallarının etik yönelimini de araştırmalıdırlar. Son olarak, kişisel değerlerini göz önünde bulundurmalı ve kendilerine "Benim etik temel çizgim nedir?" diye sormalıdırlar. Tüm bu fikirleri değerlendirdikten sonra, hastane yöneticileri kişisel bir etik beyanı oluşturmalıdır. Bu ifade, genellikle sağlık yönetiminin bir parçası olan zor kararların alınmasında bir rehber olarak hizmet edebilir.

Hastane yöneticilerinin mesleki etik kodlarının resmi olarak belirlenerek meslek mensuplarının iş hayatlarının bir parçası olması sağlanmalıdır. Etik kodlar oluştururken hastanelerin misyonu ve değerleri ile uyumuna dikkat edilmelidir. Ayrıca kod geliştiricilerin sürece başlamadan önce mevcut yasaları ve düzenlemeleri gözden geçirmeleri gerekmektedir. Sağlık kuruluşları genellikle çalışanlarından beklentilerini tanımlamak için etik kodlar geliştirmektedir. Birçok örgütsel kod, örgütsel öncelikler olarak saygı, fayda, zarar vermeme ve adaleti vurgulamaktadır. Etik sağlık kuruluşlarının politikalarına uygulanmalıdır. Etik kodlar, hastalarla teması olan herkes için kabul edilebilir davranışları belirtmelidir. Sektörel ve kurumsal olarak etik davranma ve etik kodlara riayet teşvik edilmelidir. Okullardaki sağlık yönetimi bölümü müfredatlarına mesleki etik kodlar eklenmeli ve detaylı incelenmelidir. Sağlık kurumlarında görev yapan yöneticilerin mesleki etik kodlarına gösterdikleri önemin kalite göstergesi olduğu unutulmamalıdır.

sağduyulu olması, kendinden olmayana saygı duyması bu noktada esastır. Hemşire; bireyin sağlığını olumsuz yönde etkileyecek bir kültürel davranış saptadığı zaman bu davranışı değiştirmek yerine bu davranışın nedenini araştırmalı ve olumlu sağlık davranışları kazandırmak için eğitici rolü ışığında bireyin de kültürel özelliklerini göz önünde tutarak bireye ve ailesine eğitim vermelidir.

meslek grubudur. Hemşireler meslek yaşamlarında, öğrencilik dönemlerinde ise klinik uygulamalarında farklı kültürlerle iletişime geçebilmekte, bakım hizmeti sunabilmektedir. Bu durum ise hemşirelerin ve hemşirelik öğrencilerinin farklı kültürlere duyarlı olmasını zorunlu kılmaktadır. Hemşirelerin ve hemşirelik öğrencilerinin yeterli ve etkin kültürel bakım sunabilmek için kültürel farklılıklar ve benzerlikler hakkında bilgi sahibi olması ve duyarlı davranması beklenmektedir. Bunun için ise özellikle lisans döneminde öğrenci hemşirelere kazandırılan bilgi, farkındalık ve kültürel duyarlılık önem taşımaktadır. Müfredata kültürel duyarlılık ve kültürel yeterlilik kazandıracak derslerin entegre edilmesi, öğrenci hemşirelere farklı kültürlerden hastalarla çalışma olanağı verilmesi, mezuniyet sonrasında ise kültürel duyarlılıklarını arttıracak hizmet içi eğitim programlarına, çalıştay, seminer, kongre, konferans gibi etkinliklere zaman ayrılması, hemşirelerin kültürel duyarlılıklarının artmasına katkı sağlayacaktır. Bu yollarla kaliteli bakım hizmetleri uygulanabilecek, hasta memnuniyeti ve etkileşimi arttırılabilecektir. Aynı zamanda farklı kültürlerden gelen hastalarla yaşanan sorunlar azalacak, hemşireler mesleklerinden daha fazla doyum alabilecek, mesleğin çok yönlülüğüne ve profesyonelleşmesine katkı sağlanabilecektir.

gelişimsel özellikler sergileyebilmektedirler. Bu gibi durumlarda gerekli gözlemler ve yönlendirmeler ile çocuklar "üstün" tanısı alabilmektedirler. "üstün"lük kavramı ilk ortaya çıktığı dönemlerde zekâ ile ilişkilendirilirken son yıllarda "üstün zekâ" kavramı yerine "üstün yetenek" kavramı kullanılmaya başlanmıştır. Bu sayede de, çocuklar, bilişsel gelişim özellikleri yerine yeteneklerine göre yönlendirilmeye ve eğitimlerini de yetenekleri doğrultusunda almaya başlamışlardır. Üstün yetenekli tanısını alan çocuklar yetenek alanlarına göre uygun kurumlara (Bilim ve Sanat Merkezleri gibi) yönlendirilerek kendi gelişimsel özelliklerine göre eğitim alma fırsatına sahip olabilmektedirler.

ve diğer etkinliklerin çocukların bilişsel gelişimlerini destekleme konusunda yeterli ve etkili oldukları söylenebilir. Ancak araştırma sonuçları incelendiğinde bu etkinliklerin çocukların bilişsel gelişimlerini destekleyebilmesi için eğitimcilerin planlama ve uygulama sürecinde doğru adımlar atmaları gerektiği görülmektedir.

Bu sonuç doğrultusunda;

- Okul öncesi eğitim etkinliklerinin öğretmenler tarafından çocukların gelişimsel özellikleri dikkate alınarak sistemli ve düzenli bir şekilde planlanıp uygulanması,
- Çocukların gelişimlerinin desteklenmesi adına okul öncesi eğitim programında yer alan tüm etkinliklere aynı derecede önem verilmesi,
- Etkinliklerin planlanması ve uygulanması sürecinde gelişimin bir bütün olarak ele alınması gerektiğinin göz ardı edilmemesi,
- Eğitim-öğretim süreci içerisinde okul öncesi eğitim programının özelliklerinin göz önünde bulundurulması ve bu özelliklerden faydalanılması önerilebilir.

strateji olarak görülmektedir. OSB'li çocuklarda, proteinleri sindirme konusunda sınırlı işlev ile kendini gösteren sindirim problemleri olduğu için ve çocukların besin tercihlerine bağlı olarak eksiklik görülebilir, gerektiği zaman aminoasit takviyesi yapılmalıdır. OSB'li bireylerin kesin tedavileri olmadığı için bu konuda daha çok çalışma yapılmasına ihtiyaç vardır. Besin yetersizliği durumlarında ise eksik olan besinin takviyesi yapılmalıdır.

sağlık hizmetleri başta olmak üzere sağlık kurumları için bir kılavuz oluşturulması önerilmektedir.

Sağlığı Geliştirme Enstitüsü önderliğinde de yaşlı bireylere ihtiyaç duydukları sağlık hizmetini sağlayabilmek amacıyla hareketlilik, ne önemli, mental aktivite ve ilaç tedavisi olmak üzere dört unsura dikkat çekmiştir. Dünyada bazı ülkelerin sağlık kuruluşu yaşlı dostu sağlık uygulamalarını uygulamakta ya da uygulayabileceğini beyan etmektedir. Türkiye'de de az sayıda sağlık kuruluşu yaşlı dostu sağlık hizmetleri kapsamında çalışmalar yapmaktadır. Alanyazında Türkiye'de bu konuya ilişkin çalışmalar yapılmış olup, araştırma çalışmaları sınırlı sayıdadır. Dolayısıyla yaşlı dostu sağlık hizmetleri ile ilgili daha fazla araştırma çalışmaları yapılması önerilmektedir.

Pettis'e (2020: 37) göre hemşirelerin yaşlı yetişkinlerin ihtiyaçlarını tanımaya ve karşılamaya hazırlıklı olmalarını sağlamak, herhangi bir kuruluşun yaşlı dostu olma sürecinde kritik bir adımdır. Bu bağlamda hemşireler başta olmak üzere sağlık çalışanlarının yaşlı dostu sağlık hizmetlerine yönelik farkındalıklarının artırılması ve gerekli eğitimlerin verilmesi sağlanmalıdır. Özellikle geriatri alanında çalışan uzmanlar Türkiye'de yaşlı dostu sağlık hizmetlerinin gelişmesine öncülük etmeleri açısından desteklenmelidir. Bu nedenle aktif yaşlanma çerçevesinde projeler geliştirilmeli, aile bireylerin farkındalığı ve yaşlı bireye destekleri sağlanmalıdır. Dünün gençlerinin bugünün yaşlı bireyleri olduğu gerçeğinden yola çıkarak yaşlılık sürecinde karşılaşılacak sorunlar, nedenleri, çözümleri konusunda yetişkinlik dönemindeki bireyler bilgilendirilmelidir. Ayrıca yaşlı dostu sağlık hizmetlerinin önemli bir parçası olan hareketliliğin yaşlılık sürecinde de devamının sağlanması diğer bireylere olan bağımlılığı azaltmakla birlikte yaşam kalitelerini artırmaktadır. Yaşlı bireylerin mental aktivitelerinin devamlılığının sürdürülmesi açısından ailelerin konuya dair bilinçlendirilmesi önemlidir. Yine kronik hastalıklara bağlı olarak özellikle çoklu ilaç kullanımının yaşlı bireylerde yaygın olması aile, hasta, eczacı ve doktor işbirliğini gerektirmektedir. Her yaşlı bireyin ihtiyacının farklı olması nedeniyle kişiye yönelik ihtiyaçların belirlenip karşılanması önemlidir.

Teknolojinin Hemşirelik Eğitimine Etkisi ve Kullanım Alanları

Hemşirelik eğitiminde, bilişim teknoloji araçlarından bilgisayar, internet, web tabanlı yazılımlar ve simülasyon eğitim yöntemleri kullanılmaktadır. Hemşirelik öğrencilerinin simülasyonlu eğitimi sevdikleri ve yararlı olduğunu düşündükleri belirtilmiştir (Karadağ, Çalışkan ve İşeri, 2015:36-44). Bununla birlikte hemşirelerin teknolojik uygulamalara ilişkin kaygılarının olduğu ifade edilmiştir (Çakır Umar ve ark., 2016: 14-25).

SONUÇ

Hemşirelik alanında teknoloji kullanımı, kaliteli hasta bakımı verilmesinde, hasta ve hemşire memnuniyeti sağlanmasında, verimlilik, zaman tasarrufu ve ekip iş birliği sağlanmasında önemli rol oynamaktadır. Ayrıca hemşirelik öğrencileri ve hemşirelerin eğitimi açısından da faydalar sağlamaktadır. Teknoloji kullanımının hemşireler arasında standardize edilmesi ve teknoloji kullanımının yaygınlaştırılması gerekmektedir.

- Ebeveynlerin ve çocukların aile içi iletişimi geliştirmek için eğitim, beceri ve bilgiye ihtiyacı vardır,
- Çocukların sağlık, eğitim ve gelişim ihtiyaçlarının karşılanmasına dair hakları ailelerce ve hizmet sunanlarca korunmalıdır,
- Ergenlerin spor, dinlenme, eğlence ve eğitim etkinliklerine ihtiyacı vardır,
- Çocukların mevcut hizmet sunumundaki boşluklar nedeniyle gözden kaçırılmasını önlemek için daha fazla koordinasyona ihtiyaç vardır.

Uluslararası arenada çocukların haklarını savunucu politikalar oluşturularak, insan ve çocuk haklarına uygun çalışma koşullar oluşturulmalıdır. Dünya genelinde çocuk işçiliği aşamalı olarak ortadan kaldırılmalıdır. Çocuk işçiliğini sona erdirmek için somut önlemler alınmalıdır. Bu anlamda yazılı sözleşmelerinin gereğinin yapılması ve etkin bir şekilde uygulanması teşvik edilmelidir. Çocukların iş hayatında karşılaştıkları problemleri belirlemeyi konu alan nitelikte, kapsamlı istatistiksel ve nitel araştırmaların yapılmasının yararlı olacağı düşünülmektedir.

göstermiştir. Hemşirenin bu konuda dikkatli olması ve bebeğin ısı kaybını hızlandıran faktörleri ortadan kaldırması önerilmektedir (Knobel vd., 2005). Hemşireler, YYBÜ ve doğumhanelerde buharlaşmayla oluşan ısı kaybını önlemek için bebeğin doğumunu takip eden sürede ısıtıcı altına yerleştirildikten sonra, üzerleri amniyotik sıvı ile kaplıyken boynuna kadar poliüretan sıcak su torbalarıyla korunmalarını sağlamalıdır. Bebeğin başı kurutularak bir şapka ile kapatılmalıdır (Knobel ve Holditch-Davis, 2007). Hemşirelerin, bebek YYBÜ'ye gelmeden önce kuvözü ısıtması ve radyan ısıtıcıyı hazırlaması gerekir. Sıcak bir kuvöz veya ısıtıcı, iletken ve ışınımsal ısı kaybını önlemeye yardımcı olacaktır. Düşük doğum ağırlıklı preterm bebeklerin ünitelere kabulü genellikle ani olduğu için, her zaman sıcak bir kuvöz hazır bulundurulmalıdır. Bebekler gelmeden önce kuvöz kapaklarının kapalı olması gerekir. Nevresimler ve şilteler, bebeğin cildinin yanına yerleştirmeden önce ısıtılmalıdır. Bu müdahaleler basit fakat etkili uygulamalardır. Bebekler steril örtü altındayken ısı bebeğin vücut yüzeylerine ulaşamadığı için göbek kateterinin yerleştirilmesi gibi işlemler için gereken müdahale süreleri sınırlandırılmalıdır. Hemşirenin işlem süresini takip etmesi ve bebeğin sıcaklığını izlemesi gerekir. Bu işlemler sırasında battaniyenin altına sıcak bir şilte yerleştirilmesi faydalı olabilir. Bu esnada portatif ısı lambaları da kullanılabilir. İşlemler tamamlandıktan sonra, konvektif ısının bebeğin vücuduna temasına izin vermek için kuvözün üst kısmı mümkün olduğunca çabuk kapatılmalıdır. Evaporatif ısı kaybını azaltmak için kuvözün kapağı kapatıldıktan sonra nemin %50 veya üzerinde tutulması gerekir (Sedin, 1995). Ventilatör ısıtıcılar kullanılmadan önce ılık bir sıcaklığa ayarlanmalıdır. Ventilatör sıcaklıkları 29°C›den 34°C'ye düştüğünde bebek sıcaklıklarının 1°C›ye kadar düştüğü belirlendiği için hemşirelerin dikkatli olması gerekmektedir (Knobel ve Holditch-Davis, 2007).

küresel olarak her ülkede kolaylıkla erişilememektedir. Bu durum hastaları, aileleri, geri ödeme kurumlarını ve sağlık sistemini derinden etkileyebilmektedir. Özellikle hastalar için bir finansal toksisite kaynağı olabilmektedir. Bu durumun ilerleyen yıllarda ilaca erişim sağlama konusunda önemli bir problem oluşturabilecektir. Dolayısı ile bu tedavilerin maliyetlerinin düşürülmesine yönelik atılacak adımların ve sağlık politikalarının geliştirilmesine ihtiyaç olduğu düşünülmektedir. Benzer şekilde hastalığın oluşturduğu engelliliğe bağlı yükün (YLD) azaltılması için bütüncül bir tedavi yaklaşımı ile rehabilitasyon hizmetleri ile günlük bakım hizmetlerine yönelik planlamaların yapılmasına ihtiyaç olduğu düşünülmektedir.

Bu araştırma sonuçlarının MS'in Türkiye'deki hastalık yükü hakkında fikir vermesi açısından önemli olduğu düşünülmektedir. Bununla birlikte MS'in hastalık yükü için doğrulanmış algoritma yaklaşımları kullanılarak epidemiyolojik sonuçlar üretilmesine, modellemeler üzerinden hastalığın gelecekteki yüküne yönelik tahminler yapılmasına ve öngörülerde bulunulmasına ihtiyaç vardır. Dolayısı ile gelecekte yapılacak araştırmalarda bu yöntemlerin ve algoritmaların kullanılması önerilmektedir. Bu araştırma Türkiye'de MS öncelikli ve acilen ele alınması gereken en önemli halk sağlığı problemleri arasında olduğuna dair kanıtlar sunmaktadır. Bu nedenle sağlık politika belirleyicilerinin hastalık yükü çalışmalarını da dikkate alarak kaynak tahsisinde bulunmalarının faydalı olacağı düşünülmektedir.
