ihtilafına yönelik uygun bir politikanın nasıl olması gerektiği konusunda 2014 ve 2015 yıllarına göre çok daha az birleşmiş durumdadır. Burada Berlin ve Paris›e büyük sorumluluk düşmektedir. Ukrayna›yı siyasi gündemde tutmaları, yaptırımlar konusunda fikir birliğini korumaları, ve Avrupalı ortaklarıyla yakın koordinasyon içinde çatışmaya ilişkin politikalarını daha da geliştirmeleri gerekmektedir. Hükümetler arası ve uluslararası boyuttaki tıkanıklıklar göz önüne alındığında, yerel düzeye özel dikkat gösterilmelidir. Temas hattının her iki tarafındaki insani ıstırap acilen hafifletilmelidir.

Mevcut çatışma, ABD-Rusya ilişkilerini ciddi şekilde gerginleştirmiş ve daha geniş bir Avrupa çatışması riskini artırmıştır. İttifakın güvenlik taahhütleri nedeniyle Rusya ile ABD'nin de dahil olması muhtemel komşu NATO üyesi ülkeler arasında gerilimin artması muhtemeldir. Diğer taraftan Ukrayna'daki çatışma, silahların kontrolü, siber güvenlik, nükleer silahların yayılmasının önlenmesi, enerji güvenliği, terörle mücadele, Suriye, Libya ve başka yerlerdeki siyasi çözümler gibi kritik konularda gelecekteki işbirliği için daha geniş sonuçlara sahip olacaktır.

her şeyden önce toplumun çevre konusunda bilinçlendirilmesi ve çevre eğitimi faaliyetlerinin yaygınlaştırılması gereklidir. Benzer şekilde yeşil bütçelemeye dair tanıtım faaliyetlerinin gerçekleştirilmesi, faaliyetlere yerel örgütlerin, sivil toplum kuruluşlarından temsilcilerin, akademisyenlerin ve vatandaşların dahil edilmesi uygulamaya meşruiyet kazandırılmasında etkili olabilir. Çevresel hedef ve politikalarla uyumlu, çevresel kaygıları kamu gelir ve harcama politikalarında gözeten bir bütçe anlayışının hayata geçirilmesi; sürdürülebilir ve sağlıklı bir ekonomik kalkınma için oldukça önemlidir.

ve idari bilimler fakültesinde yer alan her bölümden çeşitli dersler gördükleri ve işe yaramayan bilgiler edindikleri algısına sahiptir. Bu algı bölümün tam olarak ayrı bir tanımının olmaması ve mezuniyet sonunda net tanımlanmış bir isimle mezun olamamaktan kaynaklanabilir. Diğer yandan maliye bölümü öğrencilerinin ürettikleri metaforlar incelendiğinde geleceğe yönelik olarak olumlu ya da olumsuz algılara sahip oldukları görülmektedir.

Sonuç olarak, çalışma ekonomisi ve endüstri ilişkileri bölümlerinin öğrencilere istihdam olanakları ve iş fırsatları ile birlikte doğru şekilde tanıtılmasının önemli olduğu söylenebilir.

benzeyen bu kavramlar daha etraflıca incelendiğinde, birbirleriyle bazı yönlerden ayrıldıkları görülmektedir.

Nihayet belirtelim ki; Türk sosyal yardım ve sosyal hizmetler sistemini içinde barındıran "primsiz rejimin", sosyal güvenlik sistemimizin adeta bir son halkası olarak merkezi bir örgütlenme çerçevesinde keyfilikten, klientalizmden, nepotizmden, siyasi kayırmacılık ve siyasi popülizmden uzak, çağdaş bir anlayış ile yapılandırılıp, yöneltilmesi; Sosyal Güvenlik Sistemimizin adaletli ve sürdürülebilir olmasının temel koşullarındandır.

WVS. *World Values Survey (Dünya Değerler Araştırması*. 02.01.2021 tarihinde https://www.worldvaluessurvey.org adresinden alındı.

Araştırma kapsamında gerçekleştirilen işlemler neticesinde Butler (2007) tarafından geliştirilen İş Okul Kolaylığı Ölçeğinin (Work School Facilitation Scale) Türkçe uyarlamasının, Türk kültürüne uygun, geçerli ve güvenilir bir ölçme aracı olduğu ifade edilebilir.

Uluslararası literatür incelendiği zaman İş-Okul Kolaylığı Ölçeği ile iş-okul doyumu, iş kontrolü, iş talepleri, çalışma saatleri, iş-okul çatışması, okul memnuniyeti, akademik başarı, okula devam (Butler, 2007), sosyal destek (Wyland vd., 2015), iş güvenliği (Owen vd., 2018), öz yeterlilik (O'Conner ve Korr, 1996), kariyer (Horst vd., 2021), stres (Hill, 2005), mutluluk (Culbertson vd., 2012) ve kişilik (Wayne vd., 2004) değişkenleri arası ilişkilerin incelendiği ifade edilebilir.

Zuboff, S. (1988). In the Age of the Smart Machine: The Future of Work and Power. New York NY: Basic Books.

olumsuz bulunma ile ilgili bir yoğunlaşma olmasa da, 18-20 yaş arası gençlerin marka güveni ve bağımlılığı konusunda daha olumlu görüşlere sahip olduğu gözlenmiştir. Diğer yaş, meslek gelir, eğitim ve cinsiyet değişkenlerinde, güven ve bağımlılıkla ilgili yüksek düzeyde olumlu görüşler oluşmuşsa da 18-20 yaş arası gençler tutarlı bir şekilde cevap veren grubu oluşturmuşlardır.

Gerçekleştirilen çalışma, marka kişiliğinin marka sadakatine etkisinde, marka güveninin aracılık rolü olup olmadığını inceleme amacını taşımıştır. Çalışma neticesinde, marka sadakati üzerinde marka kişiliğinin ve marka güveninin olumlu ve anlamlı direk etkileri olduğuna aynı şekilde, marka kişiliğinin marka sadakati oluşturmasında, marka güveninin dolaylı olarakta aracılık etkisi olduğuna karar verilerek H_1, H_2 ve H_3 hipotezleri kabul edilmişlerdir. Ulaşılan sonuçlar değerlendirildiğinde, güvenilir bir kişilik segileyen, marka kişiliği profesyonel, istikrarlı, pozitif hayat enerjisine sahip olarak algılan kişilerin yüksek düzeyde marka sadakati oluşturmalarının daha mümkün olduğu söylenebilir. Gerçekleştirilen bu çalışma ile ulaşılan sonuçlara bakıldığında, daha önceki araştırmaların sonuçları ile uyumlu oldukları görülmektedir. Yani marka kişiliğinin ve marka güveninin, marka bağlılığı üzerinde olumlu etkileri vardır.

2016: 27-28). Toscani'nin bu düşünceleri aktivist unsurları işleyen reklamlar açısından da değerlendirilmelidir.

Bu çalışmada, feminist odaklı reklam ile tüketicisinin dikkatini çekmeye çalışan Audi markasının bu düşünceyi reklamın tamamına yayamadığı görülmüştür. Bunun nedeni, markanın aktivist bir kurum kültüründen uzak olması ve kadın odaklı reklamları hedef kitlenin dikkatini çekecek popüler bir konu alarak görmesi olabilir. Femvertising reklamcılığın, kurumlar için ticari kaygı ile mi yapıldığı tespit edilmelidir. Ticari kaygı ile yapılan aktivist reklamların tüketiciye nasıl yansıdığının ortaya konması önemlidir.

Analiz sonuçlarına bakıldığında, elde edilen sonuçların daha önce hesaplama ve SPSS programıyla yapılan analiz sonuçlarıyla aynı olduğu görülmektedir. Burada elde edilen sonuçlar yorumlanacak olursa Kruskal-Wallis ki-kare değerinin 18,566 olduğu, serbestlik derecesinin 3 ve testin anlamlılık düzeyini gösteren p değerin 0,000336 olarak hesaplandığı görülmektedir. Bu sonuçlara göre H_0 hipotezi reddedilir. Sonuç olarak diyetlerden en az birinin bireylerin kilo vermesine etki yönünden diğerlerinden farklı olduğu tespit edilmiştir.

Kruskal Wallis testi için RStudio'ya yazılan ***komutlar bir bütün olarak*** aşağıda verilmiştir.

Araştırmacılara Tavsiyeler

Araştırmacılar buradaki RR ölçüm prosedürünü kullanarak TOPSIS, VIKOR, PROMETHEE, MABAC, FUCA gibi farklı yöntemlerin RR duyarlılığını karşılaştırabilirler. Böylece ÇKKV seçimi için pek çok başka çerçeve ile birlikte RR kriterini de göz önüne almış olurlar. Ayrıca normalizasyon RR'de etkili olduğundan normalizasyonsuz çalışabilen PROMETHEE ve FUCA gibi ÇKKV yöntemlerinin RR problemi üretip üretmediklerini saptayabilirler.

Fornes, bu oyununda kadının toplumdaki konumunun ve kadına bakış açısının değişmesi için kadınların kendi sosyal ve psikolojik durumlarını irdelemeleri ve buna çözüm aramaları gerektiğini vurgular. Kadınların toplumdaki rolünü ve konumunu aydınlatıcı bir söylemle gündeme getirir. Fornes, kadın psikolojisini tasvir ederken, yaptığı karakter çözümlemeleri ile erkek merkezli bir kültürün kurbanları olan kadınların durumunu somutlaştırır. Kadın, erkek egemen toplum baskılarından sıyrılabilmek ve bağımsız bir hayata erişebilmek için kendi amaçlarının ve duygularının izini sürmelidir. Oyun, kendisini sınırlayan normlara uyum sağlamayı reddeden kadının; yeni formlar, yeni anlamlar ve yeni bir gerçeklik yaratma mücadelesini sahneye koymaktadır. Fornes, her biri ayrı ayrı teşhir edilen kadın karakterlere, maddi olarak hiçbir erkek gücünün olmadığı bir dünyada gerçek benliğini özgürce ifade etme ve kendisi gibi davranma fırsatı vererek; ataerkil kültürün kadınlar üzerindeki içsel psikolojik etkilerini ortaya çıkarmaktadır.

mürekkep emiciliğinin daha fazla olmasından kaynaklı, baskı renklerinin daha heterojen ve daha az net basılmasına neden olur. Ancak kaplanmamış kağıtlar harika dokunuş hissi, okuma sırasında yansıma yapmayan yüzeyi ve doğal görünümü nedeniyle okuyucular tarafından tercih edilmektedir. Kaplamsız kağıtların yüzeyleri gözenekli olduğundan dolma kalem, kurşun kalem ve tükenmez kalemle yazı yazılan evrak baskısında da kaplanmış kağıtlara göre daha uygundur.

Baskılarda kağıt türü tercihlerinde kaplamasız kağıtların avantaj ve dezavantajları göz önünde bulundurularak tercih edilmesi tavsiye edilir.

Ancak antikoagülan ve antiplatelet ilaç kullanan bireylerde omega-3 yağ asitlerinin takviye edilmesi durumunda, hastaların sorumlu hekim tarafından izlenmesi önemlidir (Lieb vd., 2010:9).

SONUÇ VE ÖNERİLER

Diyette omega-3 yağ asitlerinin yetersiz alınması çeşitli mental hastalıkların gelişme riskini artırabilir. Bununla birlikte omega-3 yağ asidi takviyesinin mental hastalıklar üzerindeki terapötik etkilerini araştıran çalışmalardan net bir sonuç elde edilemediği görülmektedir. Ayrıca her çalışmada omega-3 yağ asitleri farklı doz ve sürelerde verildiği için mental hastalıklarda optimal doz ve süre konusu belirsizdir. Takviye formunda bulunan omega-3 yağ asitlerinde oksidatif bozulmanın görülebilmesi ve bunu önlemek için eklenen E vitamininin uzun süreli kullanımında sağlık üzerine bazı risklerinin bulunması endişe vericidir. Bu nedenle mental hastalıkların önlenmesi ve tedavisi için omega-3 yağ asitlerinin etkinliğini değerlendiren ve takviyelerin uzun süreli kullanımında görülebilecek yan etkileri araştıran prospektif klinik çalışmalara ihtiyaç bulunmaktadır. Ancak mental sağlığı korumak, kronik inflamatuar hastalıklara yakalanma riskini azaltmak ve hastalık prognozunu olumlu yönde etkilemek amacı ile günlük diyete ceviz, badem ve semizotu gibi omega-3 kaynaklarının eklenmesi ve haftada 2 kez balık (200-350 g) tüketilmesi önerilmektedir.

anatomi bilgisinin önemi ortaya çıkmaktadır. CV'nin sadece eğriliklerinin değil, diğer hastalıklarının da iyi bilinmesi ve doğru değerlendirmelerin yapılabilmesi için, CV'de yer alan tüm oluşumların detaylı bir şekildebilinmesi gerekir. Bu bölge ile ilgili yapılan morfometrik ve morfolojik çalışmaların artırılarak devam etmesi önerilebilir.

benzerlik göstermektedir. İnflamatuar faz insandaki akut intestinal inflamasyonuna bazı benzerlikler gösterir. Çeşitli çalışmalarda kullanılmış olan antioksidan ilaçlar ile yapılan tedavi, bu modelde gözlemlenen patolojik bulguları iyileştirmiştir (Kim ve Berstad, 1992; El-Desoky Mohamady vd., 2022).

SONUÇ

Farmakoloji araştırmalarında deney planlamasını yapabilmek araştırmanın tasarımı için çok önemli bir meziyettir. Verilen bilgiler ışığında doğru araştırma metotları seçildiğinde yapılacak ilaç denemesini uygulamak, sonuçları toplayıp analizini yapmak çok daha kolay olmaktadır.

Birçok laboratuvar metodu farmakoloji ve toksikoloji çalışmalarında geçmişte kullanılmıştır. Geçen zaman içinde bazıları kullanımını yitirse de çoğu yöntem geliştirilerek bugünkü halini almıştır.

Bu denli fazla metot olması karmaşık gibi görünse de yapacağımız araştırmaya uygun kriterler belirlendiğinde doğru metotlar seçilmiş olur. Örneğin maliyet, süre, hassasiyet vb. gibi parametrelere göre metotlar değerlendirilir ve araştırmaya en uygun hangisi olacaksa o yöntem tercih edilir.

Yeni geliştirilen yöntemler sayesinde birçok biyokimyasal parametrelerin çok hassas bir şekilde ölçülmesine karşın maliyetlerin yüksekliği de araştırmacıları düşündürmektedir.

stabiliteleriyle ilgilidir. Stabilite, lipozom hazırlama, saklama ve sonraki uygulama adımları için ana endişe olarak kabul edilir. Lipozomların potansiyel kararsızlık sorunları tipik olarak lipidlerin oksidasyonu ve/veya hidrolizi, ilaç sızıntısı, agrega oluşumu ve hatta lipozomal füzyon ile ilgilidir (Immordino vd., 2006). Lipozom formülasyonlarının diğer bir zorluğu, uygun bir büyük ölçekli üretim yönteminin belirlenmesi ve lipozomlar için verimli bir sterilizasyon tekniği bulma ihtiyaçlarıdır. AITS (Akıllı İlaç Taşıma Sistemleri) 'lerin olasılığı oldukça umut verici olsa da, nanotaşıyıcıların insan organlarındaki toksisitesi büyük bir endişe kaynağıdır (Guimarães vd.,2021).

Gelecek Perspektifi

Lipozomlar, çok sayıda ilaç türü için ilaç dağıtım sistemi olarak geniş ilgi görmüştür. Lipozomların tıpta doğrudan uygulanması, araştırmacıları çeşitli terapötik uygulamaların yanı sıra çok çeşitli hastalıklarda tedavi ve teşhis için yeni lipozomlar yapmaya teşvik eder. Lipozomal tedavi bağlamında, *in vivo* ilaç davranışının modülasyonu ve organizmada ilaç toksisitesinin azaltılması, uygun bir lipozomal formülasyon tasarlamak için çok önemli özelliklerdir. Uygun bir lipozomal formülasyon ürünü, üç temel bileşenden oluşur: bir lipozom oluşturmak için lipidler, bunları işlevselleştirecek moleküller ve kapsüllenecek bir ilaç molekülü. Lipozomların geliştirilmesi ve iyileştirilmesi, güvenli ve etkili bir nihai lipozom formülasyonu elde etmek için birkaç parametrenin eşzamanlı optimizasyonunu içeren karmaşık bir zorluktur. Aslında birçok sağlık alanını kapsayan piyasada onaylanmış bazı lipozomlar olmasına rağmen, lipozom teknolojisi alanında hala yapılması gereken çok şey olduğunu söylemek mümkündür. Özetle, lipozomlar anahtar performansa sahip tedavilere katkıda bulunabilir. Dolayısıyla geliştirilen teknolojiler ve tekniklerle birlikte daha iyi bir klinik sonuca ulaşıp daha düşük toksisite ve daha az yan etkiye yol açacaktır (Hossen vd., 2018; Guimarães vd.,2021).

3. SONUÇ

Ağrı, yoğun bakımda yaygın bir sorundur ve kötü değerlendirilip yönetilmektedir. Ağrı, çoklu organ sistemlerini olumsuz yönde etkiler ve yetersiz yönetilen ağrının sonuçlara doğrudan etkisi vardır. Ağrıyı yönetirken, düzenli değerlendirme ve protokol tabanlı multimodal analjezik rejimi kullanarak vurgu yapılmalıdır. Analjezik ilaçların seçimi ile ilgili karar da yoğun bakım ünitesinde meydana gelebilecek çeşitli fizyolojik düzensizlikler ve aynı zamanda bu ilaçların organ hasarına neden olma potansiyelide hesaba katılmalıdır (Narayanan vd., 2016). YBÜ hastalarında ağrının doğru değerlendirilmesi ve uygun şekilde tedavi edilmesi, hastaların sonuçlarını iyileştirecek, bu da stres yanıtını azaltacak ve travma sonrası stres bozukluğu riskini azaltacaktır. Ağrı yönetimindeki potansiyel engelleri en aza indirmek için hemşireler uygun stratejiler, kritik hastalardaki etkili ağrı yönetimini oluşturmak için uygulama rehberlerini kullanabilirler. Mevcut hemşirelik müfredatının ve tıbbi programların, kritik hastalardaki ağrının giderilmesi için güncellenmiş stratejileri içerecek şekilde güncellemesine yönelik acil bir ihtiyaç vardır. Yoğun bakım hemşirelerine sürekli ağrı yönetimi ile ilgili eğitim verilmeli ve bu eğitim; ağrı semptomları, ağrı değerlendirmesi, analjezi mekanizmaları, analjezinin değerlendirilmesi, analjezik ilaçların etkileri ve yan etkileri ile farmakolojik olmayan ağrı yönetimi gibi konuları içermelidir.

çıkmıştır. Toplumsal cinsiyet rollerine bakışta eşitlikçi tutumların oluşmasında cinsiyet, yaş, medeni durum ve evlenme şekli gibi faktörlerin etkili olduğu çalışmada ortaya çıkan diğer sonuçlardır.

Araştırmadan elde edilen sonuçlara göre aşağıda çeşitli önerilere yer verilmiş olup bu öneriler şu şekildedir:

1. Toplumsallaşma sürecinde bireylerin kadınlık ve erkeklik algıları şekillenmektedir. Bu algıların şekillenmesinde eğitimin rolü son derece önemlidir. Bu nedenle erken yaştan itibaren bireylere toplumsal cinsiyet eşitliğini destekleyici eğitimlerin verilmesi önerilmektedir.
2. Küçük yaşlardaki bireylere toplumsal cinsiyet eşitliği kavramını benimsetmeye yönelik dersler, kamu spotları ve paneller düzenlenmesi önerilmektedir.
3. Toplumsal cinsiyet eşitliğinin ortaya çıkmasını engelleyen akraba evliliklerinin ve görücü usulü evliliklerin azaltılmasına yönelik çalışmaların arttırılması önerilmektedir.
4. Yapılan bu çalışma sadece üniversite personellerini kapsamaktadır. Bundan sonraki yapılacak olan çalışmalar toplumda yer alan diğer meslek gruplarını kapsayacak nitelikte olabilir. Bu tarz çalışmaların genişletilmesi önerilmektedir.

Formun Altı

sahip olduğu aile tatmini düzeyleri ile işten ayrılma niyetleri ile arasında ise anlamlı bir ilişki tespit edilememiştir.

Araştırma kapsamında oluşturulan modelde çalışan kadınların iş-aile zenginleşmesi boyutları ile işe bağlı duygusal tükenmişlik arasında ise negatif yönlü ve anlamlı bir ilişki bulunmaktadır. Çalışan kadınların ister aileden işe olsun isterse de işten aileye olsun elde ettikleri tecrübeler iş kaynaklı olumsuz algıyı barındıran işe bağlı duygusal tükenmişliği ve benzer şekilde iş ya da iş dışı etkenler kaynaklı işten ayrılma niyetini de negatif yönlü ve anlamlı bir şekilde etkilemiştir.

İşe bağlı duygusal tükenmişliğin işten ayrılma niyetini de pozitif yönlü ve anlamlı bir şekilde etkilediği model kapsamında hayatın farklı alanlarından elde edilecek olan olumlu tecrübe ve tatmin durumu olumlu tutumları beslerken, olumsuz tutumları ise negatif etkilemektedir çıkarımı mümkündür.

diplomasiyi kullanır. Gastrodiplomatlar, mutfak kültürlerinin tanıtılmasında kilit rol oynamaktadır. Yapılan bu derleme çalışmasında, yemeğin diplomatik yönü olarak gastrodiplomasi incelenmiş, ulusal ve uluslararası boyutta yapılan gastrodiplomatik faaliyetler özetlenmiştir. Çalışma gastrodiplomat kavramının ilk kez tanımlanması açısından da önemlidir. Ulusal ve uluslararası boyutta diplomatik görevlere eşlik etmiş şeflerin ortaya çıkarılması, kendileri ile yapılacak görüşmelerden elde edilecek veriler, gastrodiplomatik açıdan şeflerin öneminin anlaşılmasını sağlayacaktır. Gastrodiplomasi hakkında yapılan çok fazla çalışma bulunmamakta ve daha fazla araştırma yapılmasına gereksinim duyulmaktadır. Mutfak kültürlerinin sürdürülebilirliğinde ve dış dünyaya tanıtılmasında gastrodiplomasi önemli bir araçtır.

Etik Beyan

"Yemeğin Diplomatik Şekli Olarak Gasrodiplomasi Kavramının İncelenmesi" başlıklı çalışmanın yazım sürecinde bilimsel kurallara, etik ve alıntı kurallarına uyulmuş olup, yazarların çalışmanın tüm sürecinde verdikleri katkı eşittir. Yazarlar tarafından bildirmesi gereken hiçbir çıkar çatışması bulunmamaktadır. Bu çalışma, 19-20 Nisan 2019 tarihleri arasında Konya'da yüzyüze olarak düzenlenen International Science and Academic Congress'de sözlü bildiri olarak sunulmuş ve kongre bildiri kitabında özet şeklinde basılmış olan "Mutfak Kültürlerinin Sürdürülebilirliğinde Gastrodiplomasinin Önemi" başlıklı bildirinin genişletilmiş halidir.

sense, and anti-Habsburg Serbia and pro-Russian Bulgaria suddenly joined the same alliance. Afterward it is argued that the province should leave the Ottoman Empire. Therefore, the Ottoman Empire, which had previously tried to pursue a balanced policy against the Russian / Bulgarian bloc, has seen a broad coalition of the United Kingdom / Russia / France / Bulgaria / Serbia. Since 1908, these developments have led to further militarization of the region, reduced production and de facto turned the province into a barracks. Thus, the economy of the region has become unsustainable. And ultimately, during the Balkan War that broke out in 1912, Russia had to fight against Bulgaria and Serbia, sponsored by Bulgaria. As a result, the process leading to the loss of Macedonia has begun.

The understanding of the nation-state and the search for national identity led to a highly contentious competition in the Macedonian provinces for Greece, Bulgaria, and Serbia of the 19th century. In the first quarter of the 20th century, the region was subjected to great internal and external migration as a result of wars and agreements. In fact, this region has suffered tremendous destruction and pain as a result of ignoring its existing multinational identity and seeing it as an opportunity by the neighbouring countries and the Great Power. Therefore, the idea of nationalism, which began to dominate from the 19th century onwards, increased the activities of the gangs and besides made important infrastructure investments in the Ottoman economy such as industry, agriculture and telegraph, and railroads. These costs have led to insurmountable budget deficits in the region. In fact, the people living here had problems of trust in the Ottoman Empire and the provocation of minorities by European states turned the region into an insecure and restless place.

işletmelerine değil, turizm ile ilgili tüm sektörlere uygulanarak turist güvenliği sağlanmalı, yolcu güveni geri kazanılmalıdır (Urfa vd., 2021: 41).

Turizm ve turistik ürün politikaları belirlenirken kısa vadeli düşünülmemeli, salgının bir süre daha etkisini devam ettirebileceği düşünülerek, mevcut turistik ürünlerde yeni turistik tercihler doğrultusunda iyileştirmeler yapılmalı ve yeni ürünler oluşturulmalıdır. Esnek çalışma, uzaktan çalışma uygulamalarını deva ettiği günümüzde salgın nedeniyle işini evinden yürütenlere yönelik, konaklama sektöründe hem konaklayabileceği hem de ofis olarak kullanabileceği hibrit odalar düzenlenmelidir (Demirciler, 2020).

Bu süreçte, destinasyona olan talep üzerinde önemli etkisi olan turist sağlığı ve güvenliğine yönelik tedbirler arttırılarak, turistlere destinasyonun güvenli olduğu hissi verilmeli, konu ile ilgili tanıtımlar yapılmalıdır. Bu kapsamda ilgili kurumlarla işbirliği içinde olunmalıdır. Turist sağlığı ve güvenliğine yönelik temassız işlemler için, internet ortamında, sosyal medya da gerekli tanıtımların yapılabilmesi için dijital teknolojilerden yararlanılmalıdır.

Kısıtlamaların devam ettiği süreçte, sektörde dijitalleşme faaliyetlerine ağırlık verilmelidir. Kapanma veya sosyal mesafe uygulamaları nedeniyle gezme olanağı olmayan birçok müzede olduğu gibi insanlara "sanal turizm" deneyimleri yaşatmak için temassız ödemeler ve hizmetler için dijital çözümler geliştirilmelidir (OECD, 2020: 18).

Sonuç olarak günümüz turizm talebinde meydana gelen değişmeleri ve yeni turistik eğilimleri dikkate alarak sürdürülebilir turizm kapsamında, turist sağlığını ve güvenliğini dikkate alarak turizm politikalarını belirleyen ve ürünler arz eden turistik bölgeler turizm piyasasından daha fazla pay alacaklardır.

granger nedeni olduğu görülmektedir. Yani kredi kartı ile yapılan harcamalar sebep, enflasyon bunun sonucu olmuştur.

Kredi kartı kullanımı ve enflasyon arasındaki ilişki ayrıca eşbütünleşim ve hata düzeltme analizleri kullanılarak incelenmiştir. Yapılan eşbütünleşim analizinden TÜFE, M1, faiz oranları, reel GSMH ve kredi kartı harcamaları arasında bir uzun dönem ilişkisi olduğu sonucuna varılmıştır. Eşbütünleşim analizinden elde edilen sonuçlardan hareketle, bir hata düzeltme modeli tahmin edilmiştir. Bu tahminden elde edilen sonuçlar kredi kartı harcamalarındaki bir artışın enflasyon üzerindeki etkisinin anlamlı ve pozitif yönde olduğunu göstermiştir. Sonuç olarak kredi kartlarının geniş kullanım alanı bulması ile ticari anlamda verim artırması beklenebilir. Bununla birlikte Steindl (2000:278) çalışmasında vurgulandığı üzere kredi kartı kullanımının artması, paranın dolaşım hızını artıracak ve enflasyonun hızlanmasına sebep olabilecektir. Bu sebeple kredi kullanımındaki artışa ağlı olarak ortaya çıkabilecek enflasyon artışına ilişkin parasal otoritenin alacağı önlemler önemli olacaktır.

dışsallıklarını ve sosyal ve çevresel faktörler ile sürdürülebilir insan kaynakları yönetiminin ilişkilerini amaçladığı görülmektedir.

Sürdürülebilir insan kaynakları yönetiminin yaşadığı gelişimlerin sonunda ulaştığı noktaya bakıldığında farklı disiplinlerin ve araştırma alanlarının gelişime katkı sağladığı söylenebilir. İnsan kaynaklarının sürdürülebilir bir bakış açısı kazanması; birey, süreç yönetimi, organizasyon ve toplum üzerinde farklı düzeylerde etkiler meydana getirmiş ve ekonomik, sosyal ve ekolojik yönlerden değerlendirmeler ortaya konmuştur (Macke & Genari, 2018, s. 807). Bu çerçevede Aust (Ehnert), ve arkadaşları (2020) tarafından sürdürülebilir insan kaynakları yönetimi konusunda yürütülen bir çalışmada sürdürülebilir insan kaynakları yönetiminin yapısının dört tipte ifade edilebileceği belirtilmektedir. Bu tiplerin literatürde ortaya konulan gelişmeler çerçevesinde geliştiği söylenebilir. Sürdürülebilir insan kaynakları yönetiminin gelişimine de ışık tutan bu bölümlendirme Sosyal sorumluluk İKY (Socially Responsible HRM), Yeşil İKY (Green HRM), Üçlü Sorumluluk İKY (Triple Bottom Line HRM) ve Ortak İyi oluş İKY (Common Good HRM) olarak sıralanmıştır. Bu bakış açısı ile sürdürülebilir insan kaynakları yönetimi ortak fayda amacına yönelik araştırmaları kapsayan bir yapıya dönüşmektedir.

açısından önemlidir. Bu sebeple piyasa aktörleri tarafından tercih edilen risk iştahı endeksleri yatırımcılara yardımcı olmaktadır. Küresel boyutta çok sayıda risk iştahı endeksi olmakla birlikte, burada önemli olan yatırımcının baz alacağı risk iştahı endeksini doğru tayin edebilmesidir. Çünkü risk iştahı endeksleri farklı bileşenlerin farklı ağırlıklandırılmasıyla hesaplandığı için birbirinden farklı değerlere sahip olabilmektedir. Dolayısıyla yatırımcıların risk iştahı endekslerinden yararlanırken, kendi risk algılarını en iyi yansıtan risk göstergeleriyle oluşturulan endeksleri tercih etmeleri ve yatırım planlamalarını bu sayede yapmaları beklenmektedir. Böylece endekste kullanılan risk bileşenleri neticesinde, yatırımcının beklentisi doğrultusunda piyasa ve varlıklar hakkında daha güvenilir sonuçların alınması kaçınılmaz olacaktır.

Türkiye'de Merkezi Kayıt Kuruluşu bünyesinde hesaplanan ve haftalık olarak kamuoyu ile paylaşılan bir yatırımcı risk iştahı endeksi (RİSE) mevcuttur. Hatta bu endeks tüm yatırımcıları kapsayan genel bir endeksin yanı sıra altı farklı yatırımcı gurubu için de ayrıca hesaplanmaktadır. Çalışmanın amacı doğrultusunda endeksin yayınlandığı süre boyunca teorik olarak hareketleri incelenmiş ve risk iştahının artış veya azalış gösterdiği dönemlerdeki olası sebeplerden bahsedilmiştir. Ayrıca risk iştahının arttığı dönemlerde BİST-100 endeksinin yükseldiği, azaldığı dönemlerde de paralel olarak BİST-100 endeksinin düştüğü gözlenmiştir.

Yatırım ve yatırımcılar için teorik bir çerçevede risk iştahının incelendiği bu çalışmadan sonra, RİSE'nin tüm yatırımcı grupları için hesaplanan değerleri kullanılarak BİST-100 endeksiyle olan ilişkisi uygulamalı olarak bir araştırma konusu olabilir. Ayrıca RİSE'nin çeşitli makroekonomik değişkenlerle olan ilişkisi bu konuda çalışma yapmak isteyenler tarafından analiz edilebilir veya piyasa likiditesi ve çeşitli varlık fiyat hareketlerinin RİSE'ye olan etkisinin belirlenmesi ileride yapılacak çalışmalar için öneri niteliğinde sunulabilir.

ve işleyişin halka açık şirketler başta olmak üzere kurumsallaşma sürecinde olan tüm şirketler açısından örnek teşkil edeceği söylenebilir.

Yönetim kuruluna tüm faaliyet ve süreçlere ilişkin güvence ve danışmanlık hizmeti sunan iç denetim fonksiyonu, bir şirketin bütün paydaşlarına eşit mesafede durması gerektiğini ifade eden adillik, tüm menfaat sahiplerinin yaşanan gelişmeler ve alınan kararlar hakkında zamanında bilgilendirilmesi gerektiğini ifade eden şeffaflık, işletmenin bütün operasyonlarında en geniş anlamda toplumsal bir değer yaratmayı amaçlaması gerektiğini ifade eden sorumluluk ve düzenli denetimlerle finansal ve finansal olmayan sonuçların tüm taraflarla paylaşılması gerektiğini ifade eden hesap verebilirlik ilkelerinin işlerlik kazanması bakımından kurumsal yönetimin stratejik bir bileşeni vasfını taşımaktadır. Bu itibarla izleyen dönemde şirketlerin organizasyon yapısında iç denetim departmanının daha fazla görünürlük kazanacağı tahmin edilebilir.

kapsamda tespit edilen söz konusu atıl kapasiteye ilişkin maliyet, müşteri gruplarına yansıtılmadan dönem gideri olarak ilgili gider hesabında muhasebeleştirilir.

Son olarak, SDFTM yönteminin termal otel işletmelerinin müşteri gruplarına yönelik hizmet maliyetlerini yönetebilme ve bu maliyetleri izleme sürecinde etkili bir rol üstlendiğini belirtmek mümkündür. Bu kapsamda ilgili yöntemin uygulanması sonucunda elde edilecek verilerin, söz konusu işletmelerin içerisinde bulundukları pazarlara yönelik stratejik açıdan rekabet üstünlüğü sağlayacak kararlar alabilmelerine katkı sağlayacağı ifade edilebilir.

istihdam azalmasına rağmen dijital çağa uyum sağlayabilecek, buna uygun eğitim alan, kendini yetiştirmiş işgücüne ihtiyaç artacaktır. Tahmin edilemeyecek kadar çok büyük boyutlara ulaşacak verilerin, analizini yapıp, yorumlayabilecek çalışanlara ihtiyaç daha çok artacaktır. Bu nedenle veri madenciliği, yapay zeka mühendisliği, siber güvenlik uzmanlığı, dijital pazarlamacılar gibi mesleklerde artış olacaktır.

Endüstri 4.0 sürecinde iş gücü için tehlike çanları çalıyormuş gibi görünse de, insan kaynakları yönetimi için konu değerlendirildiğinde, bugüne kadar ortaya çıkan tüm devrimlere en iyi şekilde uyum sağlamayı başardığı görülmektedir. İnsanın içinde olmadığı bir üretim sürecinin başarıya ulaşması mümkün değildir. Bugünkü yapısıyla mevcut iş gücü Endüstri 4.0 sürecinin gerektirdiği işgücü yapısını karşılamaktan uzak olsa da, mevcut eğitim sisteminin Endüstri 4.0 sürecine uyumlu hale getirilmesiyle birlikte işgücü çok kısa bir sürede gereken donanımı elde edecektir.

7. SONUÇ

Kalite ile ilgili ilk kayıtlar M.Ö. 2150 yılına kadar uzanır. Hamurabi Kanunlarına göre; eğer bir inşaat ustası bir adama ev yapar ve ev adamın üstüne çökerek ölümüne sebep olursa o inşaat ustasının başı uçurulur. Bugün de kalitesiz mal ve hizmet üretmenin maddi ve manevi bedeli o günlerdeki kadar olmasa da çok yüksektir. Kalitesiz mal ve hizmet para, müşteri ve prestij kaybına neden olmaktadır. Kurumlar kaliteye uygun çalışabilmek ve faaliyet gösterebilmek için gerekli temel ilkeleri uygulamaları gerekmektedir. Kalite Yönetimi Sistemi'nin Kalite Kontrolü ve Kalite Güvencesi olmak üzere temel iki bileşeni bulunmaktadır. İşletmeler faaliyet gösterdikleri sektörün ve ürettikleri mamulün özelliğine uygun kalite kontrol ve kalite güvence sistemi kurmalıdır. Bir işletmenin kalitesi ve ürünün kalitesi ima eder.

Basım işletmeleri de diğer üretim sektörlerinde olduğu gibi optimum şartlarda mamul üretebilmek ve müşterilerine bunun güvencesini verebilmek için kalite kontrol ve kalite güvence sistemleri kurmalıdır.

İşletmelerde kurulan iç kontrol ve iç denetim sistemi, kalite kontrol fonksiyonunu; kalite güvence sistemi ise dış denetim ve yargısal faaliyetler fonksiyonunu yerine getirme görevini üstlenmektedir. İşletmelerin kalite düzeyinin yükselmesi ülkenin makroekonomisinde olumlu etkiler yaratır. İşletme yönetiminin, mühendislerin, kalite güvence sorumlularının yani tüm beyaz, gri ve mavi yakalıların ortak çaba göstererek mamul ve hizmet kalitesini güvence altına alması işletmenin geleceğini güvence altına alması anlamına gelmektedir.

Mesleki sorumluluk sigortası; meslek mensuplarının güvenli bir şekilde çalışmasını, mesleki itibarlarını korumalarını, hizmet alan tarafların kendilerini güvende hissetmelerini, faaliyetlerin daha verimli hale gelmesini sağlamakta ve günümüzde hem dünyada hem de Türkiye'de meslekler için gittikçe ihtiyaç haline gelmektedir. Bununla birlikte Türkiye'nin mesleki sorumluluk sigortası branşında gelişmiş ülkelere göre emekleme aşamasında olduğu söylenebilir. Bunun nedenleri arasında, bu sigorta türünün toplumda bilinirliğinin düşük olması, sigorta şirketlerinin mesleki sorumluluk sigortası branşına yönelik faaliyetlerinin az olması, bazı mesleklerde bu sigorta türüne ilişkin yasal düzenlemenin yeterli düzeyde olmaması sayılabilir. Türkiye'de mesleki sorumluluk sigortası branşının gelişebilmesi için, öncelikle sorumluluk düzeyinin fazla olduğu mesleklere ilişkin sorumluluk sigortası ile ilgili yasal mevzuatın tamamlanması ve toplumda bu sigorta türünün bilinirliğini artırmak için çeşitli programların ve eğitimlerin düzenlenmesi faydalı olabilir.

Covid-19 salgını ilk başta, yalnızca sağlık ve tıp ile ilgili bir konu olarak ele alınmış disiplinler arası bir yaklaşım yerine tek disiplinli bir yaklaşımın benimsenmesi tercih edilmiştir. Buna rağmen, Covid-19'un yayılması, etkileri ve sonuçları salgının sadece sağlık ve tıp ile ilgili bir sorun olarak değerlendirilemeyeceğini göstermiştir. Öte yandan, Covid-19'un etkileri ve sonuçları sosyo-kültürel ve çevresel faktörle bağlantılıdır. Bu faktörler ile Covid-19 salgını arasındaki ilişki sosyolojik bakış açısıyla değerlendirilmiştir.

Hasta-Hekim ilişkisi son derece önemlidir. Hekimler ve hastalar, aynı sosyal ve kültürel geçmişe sahip olsalar bile, hastalığa çok farklı şekillerde bakabilmektedirler. Hastanın sağlığı açısından öncelikli olması gereken hekim ve hasta arasındaki güvenilir, güçlü iş birliğidir. Güven, bilgi, saygı ve sadakat, hekim-hasta ilişkisini oluşturan önemli unsurlardır ve bu ilişki hastanın tedavi sürecini ve sonuçlarını etkiler. Etkili hekim-hasta ilişkisi; hasta için yüksek motivasyon, tedaviye teşvik için destek sağlamaktadır. İyi bir hekim-hasta ilişkisi, iş memnuniyetini artırabilir ve hastaların kendilerine olan güvenini, motivasyonunu ve sağlık durumlarına ilişkin olumlu görüşlerini güçlendirebilir. Bu durum da sağlık sonuçlarını olumlu yönde etkileyebilir.

edindiği toplumsal ve ekonomik meseleleri ele alış biçimi, derinlikli hikayesi ve iyi yazılmış alt metinlerinden ötürü sinema sosyolojisi alanında hakkında çalışma yapılmasını hak eden bir filmdir.

Sosyolojinin ve sinemanın tarihleriyle kıyaslandığında sinema sosyolojisi henüz çok yeni bir çalışma alanıdır. Sinema sosyolojisinin değeri anlaşıldıkça alanda daha fazla araştırma yapılacağı kuşkuya yer bırakmamaktadır. Gelişen teknolojik olanaklar ve sosyo-ekonomik dünya şartlarının baş döndüren değişim hızı, sinemanın hem teknik hem de içerik yapısını günden güne değiştirmektedir. Değişmeyen tek şey sinemanın icadından bu yana kitleleri etkileme gücüdür. Bu yanıyla sinemanın, günümüz dünyasını anlamlandırmak için en çok ihtiyaç duyulan beşerî bilimlerinden biri olan sosyolojiyle ilişkisinin niteliksel ve niceliksel olarak artacağı öngörülebilir. Sinema sosyolojisinin geleceğin sanat ve toplum yapısında ne denli etkili olacağı bu alana verilecek akademik önem ve ilgiyle ilintilidir. Bu çalışmanın da söz konusu ilgiye mazhar olması ve katkı sunması temenni edilmektedir.

topluma yabancılaşmış olduklarını fark ettirir. Bahar'ın "Kim işinde mutlu ki?" cümlesi, filmin kapitalist sisteme getirdiği eleştirinin özetidir. Ancak Onur için işi, onun kimliğidir ve çok önemlidir. Öyle ki bir ilaç mümessili olarak sattığı bir ilacın ciddi yan etkilerini görmezden gelmesi yüzünden işten atıldığında bunu kabul edemez. Bahar ise bir anda kendini içinde yaşadığı konfor alanının dışında bulduğunda şaşkına döner. Onur'u desteklemeye devam etse de bir süre sonra kendine ve yaşadığı topluma yabancılaşmış olduğunu fark eder. Onur'un sebep olduğunu düşündüğü bu yabancılaşmaya karşı evi terk ederek cevap verir. Onur, egoist bir birey olarak çıkışı anomik intiharda bulur ancak komşusu tarafından kurtarılır. Kurtuluşunun Bahar ile barışmak olduğunu düşünür. Toplumdaki uyum mekanizmalarının bozulduğu şehirde, Onur'un kurtuluşunun yolu farkındalıktan geçer. Ancak film, bu kurtuluşun olmadığı bir finalle sona erer.

Her iki film de çağdaş insanın, yabancılaşma ve anomi sorununu sinemasal olarak perdeye taşımaktadır. Çağdaş anlatı sineması örnekleri olarak çalışmaya konu olan filmlerin, toplumun sorunlarını ele alarak izleyiciye ayna tuttuğu söylenebilir. Bu misyonu gerçekleştirirken yabancılaşmayı görselleştiren sinemasal mekanlar, karakterler ve diyaloglar kullandığı tespit edilmiştir. Sonuç olarak, filmlerin yabancılaşma ve anomi kavramlarını görünür hale getirerek izleyicide eleştirel bir farkındalık yaratma amacında olduğunu söylemek mümkündür.

tarafından yapıldığı "Fundamentalist Muhafazakarlık" kavramı Selman, Nazmi ve Ahmet Hoca karakterlerinin temsil ettiği anlayışı karşılamaktadır.

Sonuç olarak 2010 sonrası bağımsız Türk sineması kapsamında çalışmamıza konu olan bu beş filmdeki altı din adamı karakterinin sunumuna bakıldığında; geleneksel ve katı din anlayışına sahip din adamlarının eleştirildiği, akletmeyi ve sorgulamayı öne çıkaran, sadece dinin uygulayıcısı / din görevlisi olarak değil, kişisel ilgi alanlarıyla da var olan din adamı temsillerine yöne doğru evrilmeye başladığını söylemek mümkündür.

anlatımında kullanılan semboller ile diyaloglar aynı şekilde toplumsal yaşantının izlerini sürebileceğimiz olguların varlığını da göstermektedir. Bu durumda görsel sanatlar ya da iletişim ile ilgili çalışmalarda toplum ve kültür üzerine yapılacak bir değerlendirmede toplumsal düzeni araştırırken bu tür sosyal normların ve bu sosyal normların çevre ile diğer etkenlere bağlı olarak değişmesinin nedenlerini de görebiliriz. Çok katmanlı bir yapı üzerine yapılan çalışmalarda dikkat edilmesi gereken disiplinler arası yaklaşımların yanı sıra bu katmanların varlığının tespiti ile birlikte ayrı katmanların kendi ekseninde sınırlılığın belirtilmesi fakat aynı zamanda bu katmanların işleyişi ile toplumsal düzeyde daha büyük bir çarkı döndürdüğünün fark edilmesi bu sayede gözle görülebilecektir.

Ylinen, A. (2009). "Everyone Just Pretend to Be Normal" A Sociological Analysis of Little Miss Sunshine. Orebro University,

https://www.academia.edu/42225135/_Everyone_Just_Pretend_to_be_Normal_A_Sociological_Analysis_of_Little_Miss_Sunshine E.T. 17 Mart 2022

açıdan onaylanmayan kişilere öfke duyulmaz, bu karakterler küçük düşürülmez ve insancıl özellikleri oldukça gerçekçi ve dokunaklı bulunur. İzleyici manipülatif ya da üstenci bir anlatıyla değil, anlayışlı ve eğlenceli olan ayrımcılık karşıtı bir yapımla karşı karşıyadır.

Günümüzde popülerleşmesi neticesinde oluşan bilgi kirliliği doğrultusunda eşitlikçi ya da duyarlı yaklaşımlar her ne kadar küçümsenerek eleştirilse bile; bilinçli, üzerinde düşünülmüş ve tutarlı yapımların üretilmesi, önemli değerlere ilişkin farkındalık kazandırılması ve kitlelere erişmesi oldukça önemlidir. Önyargıları kıracak, ötekileştirilme karşıtı ve farklılıklara duyarlı bir kültür inşası için bilhassa eril perspektife sahip bireylerin mevcut durumdaki adaletsizliğin imtiyazlarından vazgeçmesi gerektiği açıktır. Aldous Huxley, Cesur Yeni Dünya adlı kitabının önsözünde kendi kusurlarını fark etmesine rağmen, eski metnini değiştirmeyerek eklemiştir,

"Ne sebeple olursa olsun, hatanızın üzerine kara kara düşünmeyin. Temizlenmenin yolu çamurda yuvarlanmak değildir."

Her canlının sosyal refahı için; eşitsizlikten ve ötekileştirilmekten uzak, adaletin ve erdemin desteğinde huzurlu bir dünya temennisiyle.

Bu bağlamda, *Misafir* (2017) ve *Saf* (2019) filmleri karşıt eleştirel bir okuma barındırmaktadır. Filmde Suriyelilere yönelik temsille Türklerin onlara dair barındırdığı önyargılı, olumsuz söylemler gösterilmekte, ayrıca bunların Suriyelilerin ötekileştirmesindeki etkileri sergilemektedir. İki filmde, Suriyelilere yönelik lanse ettirilen olumsuz söylemi oluşturan unsur Suriyelilerin savaştan gelmelerinden ötürü muhtaç oldukları düşüncesidir. Yapılan yardımlarda, sömürülmelerinde ve Suriyeli kimliğini şekillendirmemizde, savaş ve bunun neticesi olan muhtaç kavramı karşımıza çıkmaktadır. Bu muhtaçlık, Türkler üzerinde bir ahlaki görev olarak yardım unsurunu yaratmakta ve bu yardım da onlara dair muhtaç görünümlerini pekiştirmektedir. Yardım olgusundan çıkmaya çalışan Suriyeliler ise ekonomik yapıda ucuz iş gücü istihdamı olarak görülüp sömürülmekte ve muhtaç düşüncesi kullanılmaya devam edilmektedir. Bu bağlamda muhtaçlık fikri Suriyelilere dair oluşturulan nefret söyleminde ve bunun neticesi ötekileşmesinde önemli bir unsur olarak etki etmektedir.

istenilen beceri ya da beceriler odağına göre de bu yöntemler çeşitlenmiştir. Dil öğretimin etkili gelişebilmesi için şu yöntem daha iyidir demek ancak o topluluğun beklentisi ile ilişkilidir. Diğer bir ifade ile kazandırılmak istenilenler kazanım yolunu belirlemektedir. Bu bağlamda amaca uygun ve kültüre uygun olarak yöntemlerin tercih edilmesinde yarar vardır.

duyarlı olmalarını önemsemektedir. Bu süreçte öğrencinin farkındalığı kadar öğretmenin de dil farkındalığı önemli görülmektedir.

Yaşayan dilin her bağlamda keşfedilmesini ve kullanılmasını teşvik etmektedir. İletişim ve etkileşim temelinde yaşayan ve kullanılan dilin tüm yönlerini içermesiyle aktif katılımı gerektiren bir yaklaşımdır. Bu sebeple dil dersleri öğrenciler için deneyimsel, analitik, eleştirel ve bütünleştiricidir.

Türkçe konuşma becerisinin yapılandırılmış paket metinler yerine, bildirişime dayalı doğal söylemler yardımıyla kazandırılması gerektiği anlaşılmaktadır. Bu yaklaşımın, öğrencilerin konuşma süreçlerini daha aktif ve bağımsız olarak inşa etmelerine yardım edeceği değerlendirilmektedir.

- ✓ Otantik yazma, yazma çalışmalarını kitapla sınırlandırmaz.
- ✓ Otantik yazma, öğrencilerin bireysel farklılıklarını dikkate alarak farklı tür ve konularda yazmalarını sağlar.
- ✓ Otantik yazma sürecinde sınıflar öğrenci merkezlidir.

Çalışmayla ilgili yapılan alanyazın taramasından sonra şunlar önerilebilir:

- ✓ Yabancılara Türkçe öğretimi ders kitapları ve çalışma kitaplarında otantik yazma etkinliklere yer verilmelidir.
- ✓ Otantik yazma çalışmalarına ilişkin sınıflarda uygulamalı çalışmalar yapılmalıdır.
- ✓ Yabancılara Türkçe öğretiminde farklı dil seviyelerinde (temel, orta ve ileri düzey) otantik yazma çalışmalarından faydalanılmalıdır.
- ✓ Otantik yazma, farklı disiplinlerde de kullanılabilir (öğrenci matematik sorusunu yazarak çözebilir ve yazma becerisini geliştirebilir).

- Yalancı eş değerli ifadelerin öğretme sürecini olumsuz etkilemesi,
- Dil bilgisi yapılarının öğrenicilerin birebir kendi dillerinde karşılığının bulunmaması, ana dilinde olan bir yapının Türkçede bulunmaması veya Türkçede bulunan bir yapının öğrencinin ana dilinde olmaması,
- Dil bilgisi yapısı verilirken ders dışı ortamlarda öğrenilen galatımeşhur yapılarla ders içi ortamlarda öğrenilen yapıların çatışması,
- Yabancı dil olarak Türkçe öğretiminin özellikle dil bilgisi kısmında öğretmeni yönlendirecek yeterli düzeyde kaynağın bulunmaması, var olan kaynakların teorik olarak bilgiler vermesi ancak dil bilgisi yapılarının nasıl anlatılacağına dair yeterli sayıda materyalin bulunmaması.
- Materyallerdeki seviye üstü yapılarının öğrenciler tarafından net anlaşılmak istenmesi nedeniyle konu dışı yapıların anlatılmasının istenmesi,
- Farklı yaş seviyesindeki bireylerin anlama hızlarının farklı olması, günümüzde 18 yaş altı bireylerin yaş seviyelerine göre materyaller ve sınıflar açılmaktadır ancak 18 yaş üstü bireylerde bir üst yaş sınırı bulunmamaktadır. Bu da aynı sınıfta 18 yaşındaki bir birey ile 85 yaşındaki bir bireyin yer almasına neden olmaktadır. Ancak bu durum belirli yaş üstündeki bireylerin kurs taleplerinin çok az olmasından kaynaklanmaktadır.

- Dil bilgisi kurallarına uyum, anlatım bozukluklarının en az düzeyde tutulması gibi durumlar akademik yazma sürecinde önem taşıdığından dolayı, yabancı öğrencilerin ilgili konularda bol etkinlik ile bir araya getirilmesi önerilmektedir.
- Bol akademik yazma denemesinin yapılması öğrencinin kaygı durumunu düzenleyebilmesi açısından önemlidir.
- Yabancılara Türkçe öğreten kurumların, programları doğrultusunda akademik yazma becerisinin gelişimi için hazırlık sınıfları oluşturmaları veya bu konuda ayrı bir ders planı hazırlamaları önerilmektedir.

2. Değerlendirme ölçütleri hakkında öğrencileri bilgilendiriniz. Böylece onlar da nelere dikkat etmeleri gerektiğini fark edeceklerdir.

3. Sayfada sorunun cevabı için ayrılan biçimlendirilmiş bölüme cevapları yazmaları gerektiğini hatırlatınız.

4. Sınav süresini hatırlatınız. Yazma görevi birden fazla ise her biri için ayrılan süre dolduğunda diğer soruyu cevaplamaya başlamalarını hatırlatınız.

Sonuç olarak ölçme ve değerlendirme eğitim öğretimin ayrılmaz bir parçasıdır. Ölçme ve değerlendirmenin en temel kavramlarını tanımak ve sınav hazırlarken bu kavramların bilincinde olmak geçerli ve güvenilir sınavlar hazırlamak açısından çok önemlidir. Yabancı dil olarak Türkçe öğretiminde dil becerilerine yönelik bilişsel öğrenmeleri ölçerken her beceri alanına özgü hassasiyetlerin farkında olmak gerekmektedir. Geçerli ve güvenilir bir ölçme ve değerlendirme; soruları hazırlama, sınav sürecini amaca uygun yönetme ve sınavları objektif puanlama açılarından hassasiyetler taşımaktadır. Bu alanda yetişmiş öğreticiler henüz pek azdır. Bunun bir sonucu olarak TÖMER'lerin uyguladıkları sınavlarda metin seçimi açısından ve sınav sorularını yazma açısından sorunlar görülebilmektedir. Sorunları gidermek için her kurum elinden geldiğince en iyisini yapmaya çalışmaktadır. Yabancı dil olarak Türkçe öğretimi alanına hizmet isteyen öğreticilerin de bu alanda yetkin olabilmek için planlama ve öğretim yeterliklerinin yanında ölçme ve değerlendirme yeterliklerini geliştirmek için çaba göstermeleri gerekmektedir.
