to increase organizational identification by ensuring the congruence between the leader prototype and the perceived leadership.

- Regarding the concept of leadership, in addition to prototypical (ideal) features, anti-prototypical (opposite to ideal) features should be analyzed.
- In future studies, the ideal follower model in the mind of the leader should be investigated by collecting data from the managers.
- The effects of the fit between the leader prototype and the perceived leadership on different positive and negative organizational outputs other than organizational identification should also be investigated.
- Leader prototype and implicit leadership concepts should also be studied in samples with different cultural and socio-economic characteristics.
- The concept of leader prototype should be examined comparatively between Turkey and other countries, and its relationship with organizational outputs and perceptions should be examined in the context of Turkish culture and in the context of different cultures.

of contemporary museum with these characteristics and also these elements play a role in the visitor experiences. Another finding of the study is that the Troy Museum creates a prominent level of satisfaction sense for its visitors. This information is consistent with the view of Kotler (2001) that an experience should create a "wow" effect. According to the research findings, it is concluded that the Troy Museum visitors tend to recommend the museum intensively to potential visitors. However, no information was obtained about the intention to revisit the Troy Museum in the research findings. The findings revealed the correlation between the elements that constitute the museum experience and the successors of the experience in the case of the Troy Museum.

ekonomiyi desteklemesi şarttır. Günümüzde masal unsur ve motiflerine geniş alanda bakacak olursak giyim ve diğer tekstil ürünleri özellikle çocuk giyim ve tekstil ürünleri, çocuk oyun ve oyuncakları, yiyecek ve içecek ambalajları, mutfak ve gündelik hayatta kullanım eşyaları, sinemanın animasyon, masal filmi, dizi ve film biçimleri, televizyon programları, sanatın çeşitli dalları, yazılı ve dijital başta olmak üzere çeşitli reklam araçları gibi birçok kullanım biçimlerinde karşılaşmaktayız. Bu konuda varılan sonuç masalın tüketim toplumunda popüler kültür için bir malzeme olması ve tüketim toplumunun şartları doğrultusunda hızla değişmesidir. Popüler kültür ürünlerine ait sürekli değişim, tüketim toplumunda üretilmek için yok etme ideolojisine uygun olarak gerçekleşmektedir.

zararlı içeriklerle ilgili bildirimde bulunabilmesi, canlı yayın yapılabilmesi, yorumlar aracılığıyla içerik üreticisi ve kullanıcı arasındaki etkileşime izin verilmesi, vb. olarak sıralanabilir.

Bu çalışmada bugün çok sayıda kullanıcıya sahip bir platform olan YouTube; gelişim serüveni, özellikleri ve platforma ait kavramlar ile kullanıcı çerçevesinde ele alınıp değerlendirilmiştir. Bu değerlendirme platformun yaygın kullanımının nedenlerini hem teknik hem de içerik bağlamında görünür kılmaktadır. Ayrıca YouTube, katılımcı kültür çerçevesinde de değerlendirilmiştir. Gelecek çalışmalarda ise dünya genelinde popüler olan farklı platformların anlatılması, bugünün sosyal medya ortamını ve kullanıcı tercihlerinin sebeplerini anlamak adına önemli görülmektedir.

Zinderen, İ. E. (2020). Yeni Medya Ekolojisi Ekseninde YouTube: Türkiye Örneği. Atatürk Üniversitesi Sosyal Bilimler Enstitüsü Dergisi, 24 (1) , 215-232.

sosyal medya ortamlarında nefret söyleminin inceleyen araştırmalarda söylem analizi ve tematik analizin yaygın olarak kullanılan yöntemler olduğunu belirtmiştir.

Sosyal medyada nefret söyleminin tespiti üzerine yapılan çalışmalarda çoğunlukla herhangi bir sınıflandırmanın ya da kategorileştirmenin tercih edilmediği görülmüştür. Bir kategori kullanan çalışmalarda ise çoğunlukla Hrant Dink Vakfı'nın belirlemiş olduğu kategoriler kullanılmaktadır. Bununla birlikte duygu analizinin "olumlu-olumsuz-nötr" sınıflandırmaları kullanılan bir başka ölçüttür. Bazı çalışmalarda ise hazırlanmış bir kategori yeterli olmadığından ek kategoriler kullanılmış veya farklı bir kategori hazırlanmıştır. Bunun sebebi daha önce de belirtildiği gibi nefret söyleminin tanımsal muğlaklığından gelmektedir. Dolayısıyla hazırlanan her kategori, alanda araştırma yapan her çalışma için kapsayıcı olamamaktadır. Fakat hazırlanan her sınıflandırma ya da kategorileştirme, kendinden sonraki çalışmalar için temel oluşturacağından dolayı nefret söyleminin daha kolay, daha hızlı ve daha kapsamlı tespit edilebilmesine olanak sağlayacaktır.

Araştırma sonuçları açısından bakıldığında bilimsel araştırmalar yoluyla Türkiye'de nefret söylemine en çok maruz kalan grupların, nefret söylemine neden olan duyguların ve bu duyguların yoğunluklarının ve ilişkilerinin incelenmesi ile Türkiye'ye özgü bir nefret söylemi haritasının çıkarılması önerilebilir. Bu araştırmanın en önemli sınırlılığı, incelenen araştırmaların bütüncül bir bakış açısıyla sosyal medyada nefret söylemini inceleyen araştırmalar olmasına karşın, incelenen araştırmalardan bazılarının yalnızca belirli bir nefret söylemi türüne odaklanması ve odaklandığı nefret söylemi türünün ilgili nefret söyleminin belirlenmesine yönelik herhangi bir sınıflandırma gerektirmemesidir.

bilimlerin araştırma alanı olmanın ötesine geçmiştir. Dolayısıyla, günümüzde söz konusu disiplininin içerik itibarıyla özellikle dijital teknolojilerin hızla gelişmesi ve çeşitliliğin artması sonucu bilgisayar bilimleri, yönetim bilişim sistemleri, matematik gibi bilim dalları ile entegrasyonunun artık bir tercih olmaktan çıkıp, zorunluluk haline geldiğini de vurgulamak gerekmektedir.

Sonuç olarak günümüz bakış açısıyla dijital kimlik kavramının mevcut konumu; hala dönüşüm sürecinde olup, gelecekte nitelikli bilimsel araştırma ve çalışmalara hem toplumsal hem de kurumsal ve/veya örgütsel boyutuyla geliştirilmeye ve güçlendirmeye ihtiyacı artacak bir araştırma alanıdır. Bu doğrultuda uzun vadede gerçekleşebilen ve oldukça maliyetli sistem geçişlerinin yol açabileceği sıkıntı veya sorunlara hazırlıklı olabilecek kurumlar veya devletlerin, donanımlı bir BİT altyapısına sahip olabilmesi ve bireysel olarak da öncelikle gerçek anlamda iyi bir dijital vatandaş olabilmek ve bu doğrultuda gerekli kişisel yetenek ve bilgi vizyonunu geliştirmek; nitelikli akademik ve bilimsel çalışmaların da elverişli şekilde amacına hizmet etmesine olanak sağlayabilecektir.

families to read authentic texts effectively. Thus, it can be claimed that most of the English majors in the present study had difficulties in reading authentic materials due to the hindrance of small vocabulary size.

2000 words (i.e., high-frequency words) deserve individual attention, however, beyond that level, 3000th, 5000th, 10000th (i.e. low-frequency words) and technical and academic words, the strategies should be paid attention for learning and coping with these words such as guessing from the context, memorization techniques and learning parts of the words (Laufer & Nation, 1999).

Under the guidance of these findings, it could be suggested that vocabulary instruction, either implicit or explicit, should be revised at higher education institutes, particularly at the departments of English Language Teaching. Since these institutes train future teachers, their vocabulary knowledge directly influences their language proficiency and subject-matter knowledge and performance. In that sense, similar studies on vocabulary knowledge could be conducted as needed analysis of the learners at different universities, additionally, the relationship between learners' vocabulary knowledge and other language skills as well as academic achievement could be investigated to evaluate the learners' overall profiles.

what training he needs. The fulfillment of the need also takes place after the self-created lifestyle of the people and there will be a possibility of problems in the city. However, local administrations can identify the need quickly and on the spot able to provide services to the public quickly. Municipalities are much more successful in its presentation than the central administration or other institutions.

öğrencilerini Covid-19 salgını hakkında bilgilendirmeye ve eğitimlerine katkı sağlayıp sağlamadığının araştırıldığı bir çalışmada öğrencilerin yaratıcılıklarının yanı sıra bilgiyi akılda tutma konusunda bilişsel becerilerinin geliştirdiği tespit edilmiştir (Lopes & Gonçalves, 2021). Bunula birlikte birlikte MathBuilder kullanan ilkokul öğrencileri için bir AR matematik oyunu uygulaması (van der Stappen ve diğerleri, 2019) ve matematiksel kaygıyı azaltmak için AR destekli bir hikaye kitabının kullanılması (Wangid ve diğerleri, 2020) çalışmalarında Metaverse'in hem öğretmenlere hem de eğitim politika yapıcılarına katma değer sağlayabileceği gösterilmektedir. Sonuç olarak, eğitimcilerin kaliteli öğretme-öğrenme süreçleri sağlamak ve geliştirmek için Metaverse'nin etkili ve sürükleyici deneyim oluşturma potansiyelini anlamaları gerekmektedir. Bu nedenle, eğitimciler öğrenciler ve Metaverse arasındaki ilişkiyi daha iyi anlamak istiyorlarsa, bu teknolojinin eğitim sürecinde uygulanması, salgın sonrası dönemde öğrenci merkezli yapılandırmacı eğitimin önünü açabilir.

- Öğretmenler, fizik derslerinde sunuş yolu ile öğretim ve test çözme yerine deney yapma ve simülasyon kullanma konusunda teşvik edilmelidirler.
- Öğretmenler, öğrencilerin kavram yanılgılarını giderecek yöntem ve tekniklerle ders konularını işlemelidir.
- Öğretmenlere öğretim yöntemlerini kullanma, bilimsel yetkinlik ve teknoloji kullanma konusunda mesleki gelişim etkinlikleri gerçekleştirilmelidir.
- Öğretmenlerin öğretme güçlüğü çektikleri üniteler belirlenerek bu alanlarda öğretmenleri geliştirici mesleki gelişim etkinlikleri düzenlenmelidir.

kış aylarında diğer kaynaklardan gelen hava kirleticileri ile birleştiğinde bu durum daha da tehlikeli olmaktadır. Taşıtlardan kaynaklı kirleticiler diğer kirleticilerden farklı olarak ani ve doğrudan etkili toksit özellikler taşımaktadır. Emisyon kontrolü yapılmamış motorlu bir taşıtın insan üzerindeki olumsuz etkisi çok fazladır. Bir insanın günlük temiz hava ihtiyacı 15 m^3 olup, emisyon kontrolü yapılmamış bir motorlu araç bunu 10 dakika gibi kısa bir sürede zararlı hale getirebilmektedir (Kelen, 2014). Bu kirleticiler solunum ve solunum hastalıkları, başağrısı, unutkanlık ve kanser türü hastalıklara yol açmaktadır (Ertürk, 1993).

Çürüksu Havzası'nda özellikle Denizli şehrinde şehrin beşeri ve ekonomik özellikleri hava kirliliğinin meydana gelmesinde ve hava kirliliğinin artmasında önemli rol oynamaktadır. Bu nedenle yeni imara açılacak yerlerde hava kirlilği gibi çevre sorunlarının yaşanmaması için bölgenin beşeri özellikleri ile fiziki coğrafya özellikleri birlikte ele alınmalıdır.

müzik eğitiminin teknoloji etrafında döneceğine ve uygulama geliştiricilerinin odaklanacağı problemin, bu içeriğin bilgisayar destekli öğretim uygulamaları ile kolayca erişilebilir hale getirilmesi, mevcut öğretim süreçlerine entegre edilmesi ve etkileşime girilmesi olacaktır.

çözüm önerileri konusunda araştırmanın sonucu şekillenmiştir. Mülteci probleminin çözümü konusunda ulaşılan sonuçlar; göçün kontrol edilmesi, uyum politikaları geliştirilmesi gerekliliği, kültürel adaptasyon sürecinin sağlatılması, kültürel uyuşmazlığın azaltılmasına yönelik girişimlerde bulunulması gerekliliği, belirli bir göç politikasının oluşturulması ve buna yönelik girişimlerde bulunulması, belirli bir oryantosyon eğitiminin olması gerekliliği, gelenlerin bir şekilde seçime tabi tutulması gerekliliği, beyin göçü politikası uygulanarak bizlere ekonomik açıdan faydalı olanların alınması, Avrupa göçmen modelinin örnek alınması gerekliliği, lisan eğitiminin verilmesi gerekliliği, uluslararası politikaları da göz önüne alarak daha insancıl politikaların üretilmesi gerekliliği önerilerinde bulunulmuştur. Göçmen politikası gibi önemli olan bir konu üzerinde yukarıda sıralanan çözüm önerileri gibi durumlar dikkate alınarak yeni politikaların üretilmesi gerekliliği bu doğrultuda Türkiye devletinin çeşitli uygulamalarda bulunması gerekliliği bu çalışmanın temel önerisidir.

Ülkemiz, halk müziği ve kültürü açısından zengin kaynaklara sahiptir. Bu yaklaşımı okul müzik eğitimimize uyarlarken başlangıçta kendi kültürümüzdeki ürünleri kullanmamız önem arz etmektedir. Çünkü bu ürünler (ninniler, tekerlemeler, sayışmalar, türküler) çocuğun yaşantısında zaten var olan materyallerdir. Öğrenilmiş olan bu materyaller üzerinden müzik becerilerini geliştirmek, müzik eğitimi için kolaylaştırıcı bir unsurdur ve kültürünü tanıyan nesiller yetiştirmede önemli rol oynar.

kendi içlerinde çalışmaları sağlanır ve o sırada tüm grupların çalışmaları gözlemlenir.

- Gruplara çalışmaları için gerekli süre verildikten sonra teker teker grupların performanslarına geçilir. Performans esnasında senkronize olmalarına dikkat edilir.
- Her bir grubun değerlendirmesi yapılarak puanlamalar yapılır. Puanlama sonucunda en iyi performans sergileyen grup en yüksek puan alır.
- Hikâye ve şarkılar materyal haricinde canlandırma yoluyla dramatize de edilebilir. Öğretmen dersin akışı içinde ya da ilerleyen süreçte farklı uygulamalar yaptırarak öğrencilerin performanslarının artmasını sağlayabilir.

5. Viyolonselde iyi bir entonasyon elde edebilmek için dikkat edilmesi gereken önemli hususları açıklayınız. Nelerin entonasyonu olumsuz yönde etkileyeceğini söyleyiniz.
6. Yaylı çalgılarda gam ve arpej çalışmanın önemini açıklayınız.
7. Artikülasyon teriminin anlamını söyleyerek sol eldeki artikülasyonun önemini açıklayınız.
8. Bir bemollü ve iki diyezli majör tonların isimlerini söyleyiniz.
9. Belli başlı seslendirim tekniklerini söyleyiniz.
10. Staccato çalma tekniğini tanımlayarak viyolonselde örnekleyiniz.

kişiye özel veriler içeren projelerde buradaki gibi bireysel çalışılabilir. Bu örnek özelinde öğrenciler bireysel çalışacaktır. Çünkü aile bireylerinin seslerini içeren veriler ortak değildir.

* VoiceThread, YouTube, Ancestory, Sctrach gibi uygulamalarından birini seçerek araç olarak kullanmaları istenir. Bunlar veya başka uygun gördüğü uygulama ile farklı yaş ve cinsiyetlerden oluşturduğu aile gibi bir örneklemle ses analizi yapması beklenir. Burada tamamen kendi algısıyla hareket edecek ve hareketli bir görsel ya da ses dosyası oluşturarak sunumu yapacaktır.
* Öğrencilerde uygulamaları kullanmayla ilgili bilgi eksikliği var ise giderilir.
* Öğrenci, çalışmasını tamamladıktan sonra, çalışma sürecini işlem basamakları olarak raporlar ve sunar. Bu sırada karşılaştığı güçlükler varsa bunlar hakkında da rapor ve kendi çözüm önerilerini ekler.
* Oluşturulan ürün, öğrenci tarafından 5 dakika süre içinde tercihen akıllı tahtadan sunulur.
* Diğer öğrenciler sunumu izleyerek fikirlerini not alıp paylaşırlar. Burada akran değerlendirmesi hazırlanan formlar aracılığı ile de yapılabilir.

Bu örnek uygulama dışında anaokuldan yükseköğretime farklı öğrenim kademeleri için örnek fikirleri Umuzdaş (2021)'ın ilgili raporundan edinebilirsiniz.

olabilmektedir. Twitter'da kaynağı belli olmayan paylaşımlar ya da belirli bir uzmanın ağzından gerçek olmayan bilgi paylaşımlarla yayılarak sanki gerçekmiş gibi bir anda gündeme oturabilir.

Sosyal medya platformlarını anlamak, özelliklerini ve kullanım detaylarını bilmek oldukça önem arz etmektedir. Twitter gibi gündem belirleme ve insanları yönlendirme gücüne sahip bir platform, bilinçsizce kullanıldığında büyük ölçüde toplumsal dezenformasyonlara neden olabilmektedir.

Bir kullanıcı olacak Twitter dünyasına adım atmadan önce Twitter'ı gerek teknik, gerekse içerik olarak iyi analiz etmek gerekir. Sosyal medyada özellikle de barındırdığı özellikler nedeniyle Twitter'da kaynağı belli olmadan yayılan gönderiler konusunda dikkatli olmak ve okunan gönderiye inanmadan önce sorgulamak sağlıklı bir sosyal medya kullanımı için oldukça önemlidir.

kanallı uyduyu, kablolu ve dijital televizyonu ve internet gibi diğer mecraları da kapsayacak şekilde gelişmektedir. Bu büyüme, birey için daha fazla seçenek ve aynı zamanda kitle iletişiminin küreselleşmesi anlamına da gelmektedir. Bu da siyaset ve medya ilişkisine daha farklı bir boyut kazandırmakta etki alanını ulusaldan uluslararası düzeye çıkarmaktadır. Ayrıca kitle iletişim araçlarının siyasal iletişimde kullanımı siyasi aktörler, medya ve izleyiciler arasındaki ilişki dinamiklerini değiştirmiş, seçim kampanyalarında medyanın rolü, vatandaşların siyasi mesajları nasıl yorumladıkları ve seçim davranışları ile medyanın araçsallaştırılması ve değişen gazetecilik pratikleri gibi konuların farklı açılardan da tartışılmasını sağlamıştır.

Bu noktada e-katılım kavramı bütün bu süreci anlamlı kılan bir ifade olarak görülmektedir. Çünkü artık vatandaş, idealde arzulanan siyasi, sosyal veya ekonomik pek çok konuyu yerel ya da ulusal hatta küresel boyutta takip edebilmekte hatta müdahil olabilmektedir. Elbette bu oldukça önemli bir durumdur; üstelik değişim ve dönüşüm pek çok siyasi aktörün edilgen kaldığı yani müdahale edemeyip kabul ettiği bir yapıdadır. Ancak söz konusu durumun vatandaşları bilgi kirliliği içinde iletişime duyarsızlaşma, özel uygulamalarla propaganda benzeri bir teknikte iletişime kapatma gibi olumsuz etkilerinin de olabileceği görülmektedir. Yine bunun yanında sistem, siyasal aktörleri veya seçilmiş yöneten erki vatandaş için daha gerekli olan konuların dışında popüler söylem ve mesajlara da itmektedir. Ayrıca bu dijital dönüşüm bütün olarak evrensel bir nitelik taşıyıp belki de herkese aynı etkiyi yaşatsa da ülkelerin siyasi, sosyal, ekonomik ve kültürel özellikleri göz ardı edilerek değerlendirilmesi ciddi yanılgılarla karşılaşılmasını ortaya çıkarmaktadır. Olumlu ve olumsuz pek çok gerekçe sayılabilecek olsa da yukarıda da belirtildiği gibi dijitalleşme kaçınılmaz bir gerçeklik olarak ortada durmaktadır. Bu gerçeklik, üstelik neredeyse her gün değişmekte ve gelişmektedir. Bu gelişmelerin takibi zor olsa da özellikle ampirik çalışmalarla desteklenerek daha somut sonuçların görülmesi gerektiği düşünülmektedir.

bağlamında incelenmek istenmiştir. Lakin sadece iktidar ve ana muhalefet partisinin bu platformu aktif olarak kullandıkları görülmüştür. Çalışmanın hipotezlerinde belirtilen iki başlığın (Twitter, sürdürülebilir siyasal iletişim bağlamında parti il başkanlıkları tarafından sürekli kullanılmaktadır. Parti il başkanlıkları, genel merkez ve vatandaşlar arasında köprü vazifesi gördüğünden bu platformlar siyasi yapılar tarafından kıymete değer görülmektedir.) iktidar ve ana muhalefet partileri tarafından eksikliklere rağmen kullandığı görülmektedir. Siyasal iletişim bağlamında CHP Erzurum İl Başkanlığının Twitter sayfasının genelin erişimine kapalı olması büyük bir eksiklik olarak değerlendirilmektedir. AK Parti İl Başkanlığı siyasal iletişim bağlamında köprü vazifesi olmayı tercih edip daha çok retweet yaparken CHP Parti İl Başkanlığı içerik üretmeyi tercih etmiştir. Her iki il başkanlığı da daha fazla kitleye erişim sağlayabilmek için Twitter'de etkili olan yöntemleri (etiket, bahsetme, etkinlik kontrol paneli, yer işaretleri vb) yeterince kullanmamışlardır. Ak Parti İl Başkanlığı üretmiş olduğu 13 içeriğin tamamında olumlu dil kullanmayı tercih ederken CHP İl Başkanlığı ürettiği 46 içeriğin 42'sinde olumlu dil 4 tanesinde ise olumsuz bir dil (iktidar partisini eleştiri) kullanmıştır. Her iki başkanlık vaatlerini, projelerini, sorun çözüm yöntemlerini ve seçim stratejilerini Twitter üzerinden paylaşmayı uygun görmüştür.

- Ahıskalı Türkler Türkiye içerisinde de farklı ülkelerin temsilcileri ile gerçekleştirilen görüşleri dikkatle takip etmektedirler. Siyasal içerikler içerisinden kendilerini ilgilendiren konuları seçerek paylaşmaktadırlar.

Sonuç

Bulguları kısaca yorumlayacak ve sonuçları sıralayacak olursak Ahıskalı Türklerin sosyal medya sayfalarında bazı günlerde paylaşım yapmadıklarını kaydetmek gerekir. Bazı günlerde ise 20'den fazla paylaşım gerçekleştirmiştir. Bu da Ahıskalıların yeni medyadan aktif şekilde yararlandığını sergilemektedir. Paylaşımlar mahiyeti itibari ile bilgi paylaşıldığını veya yapılan görüşme ve çalışmalar hakkında sonradan içerik oluşturulduğunu göstermektedir. Bu paylaşımların içerisinde siyasal içerikler daha fazla yer almaktadır. Ahıskalı Türkler yaşadıkları ülkelerdeki günlük olayları içselleştirerek paylaşmaktadırlar. Bu nedenle Ahıskalıların siyasal olarak bir ülke ile aidiyet bağını kurmak zordur. Siyasal kimlikleri yaşadıkları ülkelere göre değişmektedir. Paylaşılan içeriklerin farklı ülkelerde cereyan eden olaylara göre şekillendiğini vurgulamak gerekmektedir. Kısacası farklı ülkelerde cereyan eden olaylar içerisinden kendilerini ilgilendiren olayları seçerek yayınlamaktadırlar. Ahıskalı Türklerin paylaşımlarında genellikle Türkiye vurgusu dikkat çekmektedir. Siyasal kimlik sunumlarında Türkiye, Türk kimliği, sürgün gibi siyasal kimlik kavramları daha çok öne çıkmaktadır.

The text analysis part of the study seems to be producing a more structuralist perspective, whereas the discourse analysis part is post-structuralist. Additionally, while the text analysis is sufficient to underline the relations and similarities between the tales and film, the adapted discourse analysis uncovers the relations between gender and spaces. However, in the study, although the text analysis part includes a more traditional reading, it is observed that the classification used by Ekinci (2014) for film analysis, adapted from Van Djik's discourse analysis, is also coherent.

bölümü öğrencilerinin mezun olurken sadece müzik bilgisi ve performansa dayalı değil, müzik teknolojilerini öğrenme ve kullanmalarına yönelik de donanımlı nitelik kazanmak için müzik teknolojileri kapsamında derslerin konulması önerilmektedir.

Üniversitelerin müzik bölümlerinde ve müzik öğretmeni yetiştirem kurumlarda müzik teknolojilerine yönelik donanımlı stüdyoların kurulması ve müzik öğretmenliği programlarında, bilişim teknolojileri dersinin müfredata konulması gerektiği önerilmektedir.

Üniversite bünyesinde "Elektronik Müzik Laboratuvarları" kurularak müzik teknolojilerine yardımcı, akademisyen, müzik öğretmeni ve öğrencilere çalışma imkanı sağlayacak oluşumların yaratılması da öneriler arasındadır.

théorique et pratique'(Teorik ve Pratik Armoni Uzlaşması) eserinde yer alan bas çözümlemelerinden bazıları ve kesitleri, tonal armoninin en klişe akor ve armonik yürüyüşlerini içermeleri nedeni ile seçilmiştir. Seçilen bu çözümlemelerin, Dubois'in sürekli dört sesli armoni yaklaşımlarını ortaya koyan armonizasyonları, gitarın sol el kalıp organizasyonuna dayalı homofonik niteliği, bas ve en tiz ses partileri arasındaki iki sesli polifonik çerçeve kapsamında gitara uyarlanmıştır. Bu uyarlamalar sonucunda, uygun akor serimlerini kapsayan ana akor kalıplarının belirlenmesi, kenar partiler arasındaki iki sesli polifonik çerçevenin oluşturulmasında ön bilgi sağlayacak fonksiyonel analiz, bu analiz doğrultusunda oluşturulan polifonik çerçeve sığası kapsamında akor ses atımına yönelik birtakım veriler elde edilmiştir. Dubois'in kitabında yer alan yedili akor türleri ve çevirimlerini içeren bir çözümleme bu veriler doğrultusunda gitar klavyesi üzerinde armonize edilmiştir. Sonuçta, gitar klavyesinin sol el kalıp organizasyonuna dayalı homofonik mantığını bilmenin ve gitar üzerinde armonize edilecek bir çözümlemenin kenar partileri üzerindeki melodik konturların oluşturduğu polifonik çerçevenin çalgı üzerindeki iz düşümünü ortaya koymanın, armonizasyonu oluşturacak ses katman sayısını belirlemede, buna binaen uygun akor serimlerinin oluşturulmasında pratik ve daha bütüncül bir bakış açısı sunacağı düşünülmektedir. Bu araştırmanın, tonal armoni öğretiminde kullanılan kaynaklarda yer alan şifreli bas çözümlemelerinin gitar uygulamalı armonizasyonunda ve bu bağlamda pratikleşme yolunda özet bir referans oluşturacağı düşünülmektedir.

Diğer taraftan kitaptaki tüm etütler incelendiğinde etütlerin gerek teknik düzey gerekse hız bakımından orta ve ileri düzeyde çalışılabilecek etütler olduğu göze çarpmaktadır. Bu açılardan bakıldığında özellikle orta düzeyde kullanılabilecek etütlerin "Müzik Öğretmenliği Lisans Programı Bireysel Çalgı Eğitimi Piyano" ders tanımlarında yer alan içeriklere göre piyano eğitimine daha önceden başlamış olan lisans öğrencileri için ilk yıldan itibaren, sıfırdan başlayan öğrencilerde ise ikinci yıl ve üzerinde okutulabilecek bir etüt kitabı olduğu düşünülebilir.

temel unsurlar bakımından bu yöntemlerin birçok ortak noktaya sahip oldukları anlaşılmıştır. Fakat kimi zaman felsefi yönleri ve uygulamaları bakımından birbirlerinden farklılaşmaktadır. İncelenen yöntemlerin Suzuki Yöntemi hariç hepsinde Macar Keman Okulu'nun etkisi tespit edilmiştir.

Ayrıca araştırma sonucunda ülkemizde bu araştırmaya da konu olan pedagojik yöntemlerden Suzuki Yöntemi ile ilgili yapılmış birçok araştırma bulunduğu, hatta Avrupa Suzuki Dernekleri çatısı altında Türkiye Suzuki Derneğinin ülkemizde faaliyette olduğu anlaşılmıştır. Paul Rolland Keman Eğitimi Yöntemi ve Kodaly Colourstrings Keman Eğitimi Yöntemi üzerine ise kısıtlı düzeyde olsa da birtakım araştırmaların söz konusu olduğu saptanmıştır. Kato Havas Yeni Yaklaşım ve Mimi Zweig Yaylı Çalgılar Pedagojisi üzerine ise herhangi bir çalışmaya rastlanmamıştır. Dolayısıyla ülkemizde tanınırlığı olmayan bu yöntemler üzerine yeni çalışmaların yapılması önerilmektedir. Ayrıca farklı keman öğretim yöntemlerinin birbirleriyle daha detaylı olarak karşılaştırılacağı ve de bu yöntemlerin ülkemizde uygulanabilirliğinin inceleneceği araştırmalara ihtiyaç duyulmaktadır. Bu açıdan bu çalışmanın da yapılacak diğer çalışmalara fayda sağlayacağı ve kaynak teşkil edeceği düşünülmektedir.

Sonuç

Gerek üç kıtaya hükmetmiş Osmanlı Devleti'nin var olduğu yüzyıllar boyunca, gerekse Türkiye Cumhuriyeti'nin ilk orkestrası olan bandolar; tarihi zaferlerle dolu Türk Milleti'nin ayrılmaz bir parçası, ihtişamının ve kahramanlığının büyük bir simgesi olmuştur. Türk Milleti'nin bu geleneği Çanakkale Savaşları'nın zorlu koşullarında da bozulmamıştır. Günümüzde de hem Çanakkale'de hem de ülkemizin dört bir yanında milli gün ve bayramlarımızda ordu halk bütünleşmesiyle kazanılan zaferleri çaldıkları marşlarla yeniden yaşatan ve ordu ile halk arasında bir köprü oluşturan bandolar, Birinci Dünya Savaşı'nın en kanlı cephelerinden birisi olan Çanakkale Cephesi'nin en çetin koşullarında, ateş altında dahi askerlerimize moral ve motivasyon vermek, düşmana karşı psikolojik üstünlük kurmak amacıyla her zaman cephenin ön saflarında yer alarak görevlerini yerine getirmişlerdir.

ses eğitimi çalışmaları da mümkünse daha fazla teknik-müzikal bilgi birikimine sahip profesyonel şan eğitmenleri ya da koro eğitimcileri tarafından yürütülmelidir. Bu süreçte yetişkin bireylere ses eğitiminin yanında, ses hastalıkları ve ses hasarlarından korunmak için dikkat etmeleri gereken noktalar hakkında teorik ve pratik bilgiler de verilmelidir.

olduğundan[72] hareketle, NATO'nun dönüşüm sürecinin bir devamlılık gösterdiği söylenebilir.

Süreçle birlikte uluslararası sistemin değişimiyle değişim gösteren güvenlik ortamı karşısında, NATO'nun güvenlik anlayışı da değişmiş, bu bağlamda ise etki alanları küresel boyut taşıyan çeşitli uluslararası güvenlik sorunlarının NATO bünyesinde çözüm aranan sorunlar kapsamında değerlendirilmesi ve de NATO stratejik konseptlerinde değişimlerin gerçekleşmesi, bir yandan NATO'nun değişen uluslararası güvenlik ortamına uyum sağlama çabalarını gösterirken diğer yandan ise, NATO'nun dönüşümünün göstergeleri olmuşlardır.

gösteren Hitit Devletinin otoritesi kalıcı olmamıştır. Hitit dönemine ait arkeolojik malzemelerin bir kısmı Oylum Höyükte çıkarılmış olup, devam eden arkeolojik kazılar sonrası bölgenin Hitit Krallığı dönemi aydınlatılmaya çalışılacaktır.

MÖ 18. yüzyılın sonları ve MÖ 17. yüzyılın başlarında iki kez gerçekleşen Ege göçleri sonucunda, yaklaşık 500 yıl süren ve karanlık çağ adı verilen döneme girilmiştir. Karanlık çağın son bulmasıyla birlikte MÖ 8. yüzyılda Hitit devleti gibi büyük devletlerin yerini, onların devamı veya yerlerine kurulan küçük devlet veya devletçikler alırken, Kilis ili de bölgede kurulan ve Hitit devletinin devamı olan Geç Hitit Devletlerinin sınırları içerisinde yer almıştır. Kilis ili ve çevresinin toprakları kuzeyde Sam'al, kuzey doğusunda Karkamış ve güney batısında Pattin ile çevrelenmiştir.

Geç Hitit şehir devletleri sonrasında Kilis ili ve çevresi, sırasıyla, Pers Krallığı, Makedon Krallığı, Seleukos Krallığı ve son olarak Roma İmparatorluğu sınırları içerisinde yer almış, bölgede yapılan çalışmalarda da bu krallıklara ait arkeolojik malzemelere ulaşılmıştır. Ancak Kilis ili içerisinde yer alan Oylum Höyük haricinde arkeolojik çalışmaların yapılmaması, özellikle Pers Krallığı, Makedon Krallığı, Roma İmparatorluğu dönemleri ait arkeolojik malzemelerin gün yüzüne çıkarılması ve tasnif edilmesini zorlaştırmaktadır.

derinlemesine anlaşılması açısından faydalı olacaktır. Ayrıca araştırma evreninin daha geniş seçilmesi ve örgüt performansına dair boyutların daha geniş açıdan incelenmesinin de alan yazına katkı sunacağı düşünülmektedir.

Özetle, bu çalışmanın teorik ve araştırma kısmı ile alt düzey yöneticilerin ihmal edilmelerine ilişkin davranışların, örgüt performansına etkisinin ortaya konulmaya çalışılması suretiyle; örgütlerde yöneticilerden bahsedilirken genelde üst düzey yöneticinin anlaşıldığı iş ortamında; alt düzey yöneticilerin ihmali yerine, ne kadar önemli, kayda değer ve unutulmamasının gerekli olduğu vurgulanmaya çalışılmıştır. Kaldı ki, her üst ve orta düzey yönetici de öncelikle ve özellikle alt düzey yönetici aşamasından geçerek o mevki ve statüye ulaşmaktadır. Başka bir ifade ile üst düzey yönetici statüsüne erişen bir yönetici; faaliyet ve iş yoğunluğu, sorumluluk, yükümlülükleri, yetkileri, bireysel çıkarı ve diğer nedenlerle, önceki statülerinin durumunu, şartlarını ve ortamını unutmamaya özen ve hassasiyet göstermelidir. Ayrıca, bu hassasiyetlerin; üst düzey yönetimi düzeyine ulaşacak diğer yönetim düzeylerinin yetenek, beceri, kapasite ve enerjileri yanında; iş verimi, performansı, motivasyonunu ciddi ve derinden etkileyeceğini katkı sağlayacağını beraberinde getireceğine inanılmaktadır.

olumsuz yorumlar bir destinasyona gelecek potansiyel ziyaretçilerin kararlarını etkilemektedir. Bu nedenle Isparta iline gelen misafirlerin memnuniyetini sağlamak için tüm sektör temsilcileri ve paydaşlar çaba göstermeli, olumsuzlukları ortadan kaldırmak için koordineli olarak çalışmalı, projeler geliştirilmeli ve desteklenmelidir.

Isparta şehrinin Antalya-Denizli turizm aksı üzerinde yer alması önemli bir avantajdır. Afyon-Denizli-Antalya üçgenindeki turist potansiyelinin Isparta'ya yönlendirilebilmesi, şehirden transit geçen ziyaretçilerin şehrin turistik cazibe merkezlerine yönlendirilerek şehirde konaklama yapması için eylem planı ve projeler geliştirilmelidir.

Turizm; gelir getirici, istihdam sağlayıcı ve büyük çarpan etkisi olan bir sektör olarak önemli olduğu kadar olumsuz etkileriyle de çevreyi ve eko sistemi tehdit etmektedir. Bu nedenle turizm faaliyetlerinin çevreye etkileri gündeme gelmekte ve sürdürülebilirlik konusu giderek daha fazla önem kazanmaktadır. Turizmin sürdürülebilirliği ulusal ve uluslararası kuruluşlar tarafından önemsenmekte ve desteklenmektedir. Turizmin olumsuz etkileri de dikkate alınarak sürdürülebilir program ve projeler geliştirilmeli, uygulanacak projelerin olumsuz etkileri asgariye indirilmelidir.

okuryazarlığı konusunda eğitim verilerek, onlara medya ortamlarındaki programlar ve mesajlar hakkında eleştirel düşünebilmeleri, medyayı tanımaları, medyada kullanılan ikna yöntemlerine karşı farkındalık geliştirmeleri sağlanmalıdır. Okul ortamında eğitimciler çocukları televizyon ve internet içeriklerini analiz edebilecek bilgilerle donatarak, program yapımcılarının ne hedeflediğini ve çocukları neye yönlendirmeye çalıştığını anlatılabilmelidir. Öğretmenler, öğrencileri bilinçli izleyici ve kullanıcı düzeyine ilişkin pratikler yapmalı ve ebeveynler ile iletişim halinde olabilmelidir.

Şekil 5 ve Tablo 3'ün ortaya koyduğu üzere, küresel görünümle benzer biçimde Avrupa kıtasında da yoksulluk kadınların daha şiddetli yaşadığı bir sorundur ve bekar kadınlar ile tek ebeveynli hanelerde daha fazla hissedilmektedir.

SONUÇ

Dünya nüfusunun yarısını oluşturan kadınların toplumsal ve ekonomik hayata eşit katılımı ülkelerin kalkınması açısından oldukça önemlidir ve içinde bulunduğumuz yüzyılda bu bilinç gelişmeye devam etmektedir. Özellikle belirli ülkeler ilgili konuya oldukça önem atfetmekte ve ülkelerinde eşitliği sağlayıcı politikaları hayata geçirmek için çabalamaktadır. Avrupa kıtası ise toplumsal cinsiyet eşitliği söz konusu iken, dünyada lider görülen bir coğrafyadır. Özellikle Avrupa Birliğinin kadın-erkek eşitliğini sağlamaya özel önem verdiği, anlaşmalarında bu hususu temel aldığı ve ilgili konuda pek çok strateji geliştirdiği görülmektedir. Diğer yandan, her ne kadar dünyada lider konumda görülüyor olsa da, Avrupa kıtasındaki ülkelerde de toplumsal cinsiyet eşitsizlikleri mevcuttur. Eğitime, dijital topluma, dijital ekonomiye, istihdama erişim toplumsal cinsiyet ekseninde incelendiğinde Avrupa'da Kuzey ve Orta Avrupa ülkelerinin daha eşitlikçi ülkeler olduğu anlaşılmaktadır. Cinsiyete dayalı ücret açığı ise kadın istihdamının oldukça yoğun olduğu Kuzey Avrupa ülkeleri için dahi önemli bir sorun olmaya devam etmektedir. İlaveten, yoksulluk tüm dünyada olduğu gibi Avrupa coğrafyasında da ağırlıkla kadınların sorunudur. Doğu Avrupa ülkeleri kıtada genel anlamda yoksulluğun en fazla hissedildiği ülkeler olup, kıtada daha yüksek gelişmişlik sergileyen ülkelerde hem yoksulluk hem de kadın ile erkek arasındaki yoksulluk açığı daha azdır (EC, 2021). Yine, 2019 yılında Eurostat tarafından ortaya koyulmuş olan yaşam kalitesi istatistiklerine (EC,2019) göre kıtada bekar kadınlar ve tek ebeveynli haneler yoksulluk riski ile daha fazla karşı karşıya bulunmaktadır. Çalışmada ele alınan göstergeler bağlamında farklılaşmakla birlikte, Avrupa kıtasında ağırlıkla Türkiye, İtalya, Portekiz, Romanya, Bulgaristan ve Yunanistan eşitsizliklerin daha fazla hissedildiği ülkeler olarak ön plana çıkmaktadır.

Machiavelli'nin tarihe bakışı geçmiş dönem iktidarlarının objektif biçimde incelenmesini kapsar. Örnek olarak gösterilen dönemin ve yöneticilerin koşullarının doğru bir değerlendirilmesinin yapılması ve bu bağlamda hatalardan ders alınıp, şimdi yapılacak olan uygulamalara rehberlik etmesi beklenir. Bu süreç döngüsel biçimde devam edeceği için her dönemin kendi dinamiklerini irdelemek gereklidir.

İnsan doğası kavramının felsefe tarihi açısından önemli düşünürlerce, ne şekilde ele alındığını ve bu yaklaşımlardan hareketle Machiavelli'nin ortaya koyduğu fikirler karşılıklı olarak incelendiğinde Machiavelli'nin bu çalışmada anılan diğer düşünürlerden daha farklı bir yaklaşımı olduğu görülmektedir.

Bu bağlamda; insanın hem bazı iyi hem de bazı kötü özellikleri kendinde taşıdığını ifade etmek gereklidir. Machiavelli hakkında; eserlerinin kendi bağlamları içinde incelenmesi ve onun siyasi ve diğer tecrübelerinden hareketle insanların doğası ile alakalı olarak iyi yönlerin kötü yönlerden daha az gündeme getirdiğini söylemek yahut kötü yönlerin iyi yönlere nazaran daha işlevsel boyutlarda takdim edildiğini görmek mümkündür. Fakat bu konu suiistimale açıktır. Bu durumun, insanların bu dünya ile ilişkisindeki isteklerini gerçekleştirebilme arzusu ile etiğin ortaya koymuş olduğu genel kurallar ve sınırların ötesine geçip onları aşmanın alternatif bir seçenek olarak kabul edilmesine yol açabileceği gözden kaçırılmamalıdır.

İşletmede çalışanlar ücretle ilgili sıkıntılarını İK departmanına ilettiklerini ancak ücretle ilgili problemlere işveren tarafından çözüm bulunabileceğini ifade etmişlerdir. İşletmedeki terfi kararlarını da işverenlerin verdiği sonucuna ulaşılmıştır. Bu ifadelere göre işletmedeki maaş ve terfi konularıyla doğrudan işverenler ilgilenmektedir ve bu konularda İK departmanının herhangi bir sorumluluğu bulunmamaktadır.

KOBİ'lerin kendilerine has hukuki yapısı, örgüt kültürü ve yönetim şekli gibi faktörlerle insan kaynakları yönetimine ait gereksinimleri şekillenmektedir. Bu sebeple her organizasyonun insan kaynakları uygulamaları farklı ve kendine özgüdür. İşletmeler kendi ihtiyaçları ve problemleri doğrultusunda uygulayacakları insan kaynakları politikasını belirleyip uygulamaya geçmeleri gerekmektedir. Bunu yaparken de modern çağın gerekliliklerinin ve küresel rekabet ortamının koşulları unutulmamalıdırlar.

yönelik tehdit ve riskler karşısında alınacak önlemler bağlamındaki uluslararası iş birliği de küresel bir nitelik kazanmaya başlamıştır denilebilir. Bir anlamda da, biotehditler karşısında uluslararası iş birliğinin küresel ölçeğe taşınmasının, biotehditlerin bir güvenlik sorunu olarak küresel alanda oluşturduğu ciddi endişe ve kaygıyı da göstermekte olduğu değerlendirilebilir.

Japonların ırk ayrımcılığına maruz kalmaları, Batının Asya'daki emperyalist faaliyetleri gibi gelişmeler Japonların da Batı gibi emperyal bir siyaset izleyerek onları Asya'dan kovma ve kıtasında yayılma siyaseti izlemeye yöneltti. Bunun sonucunda bu üç devlet "revizyonizm" politikası altında birleşerek gerek ortak düşman olarak gördükleri devletlere karşı gerekse de rejimlerine tehdit olarak gördükleri rejimlere karşı bir araya gelerek Mihver Bloku'nu oluşturmalarına ve II. Dünya Savaşı'nı başlatmalarına neden oldu. Böylece ilkinden daha kötü ve vahim bir savaş yaşanmış, atom bombaları, nükleer silahlar kullanılmış ve dünya yeniden daha büyük bir felakete maruz kalmıştır. Bu da I. Dünya Savaşı ile sağlanan barış ortamının ne kadar eksik olduğunu ve emperyal hedeflerin yeni bir dünya savaşını başlatabileceğini göstermesi bakımından acı verici bir tecrübe oldu.

kadına karşı tutum konusunda eğitilmesinin ve mesleki eğitim programlarının yaygınlaştırılması gerektiği sonucu ortaya çıkmıştır.

Araştırmanın sonuçları ülke, bölge düzeyinde ve Siirt ili özelinde kadın girişimciliğinin desteklenmesi amacıyla yapılacak çalışmalara katkıda bulunması ve politika yapıcılara yol göstermesi açısından önemlidir.

performanslarının değerlendirilmediği, rutin işlerde çalıştıkları, geribildirimde bulunamadıkları işlerden memnun olmadıkları görülmektedir. İş zenginleştirme ile işgörenleri memnun etmeyen bu problemlere çözüm sunulabilmektedir.

İş zenginleştirme, temelde işgörenler için işlerin daha cazip hale getirilmesi ve daha fazla özerklik ve sorumluluk verilmesidir. İş zenginleştirmeyle yapılan işlerde çeşitlilik sağlanmakta ve motivasyon artırılmaktadır. Aynı zamanda iş zenginleştirme, kariyerlerinde durgunluk yaşayan işgörenlere beceri ve sorumluluk artışı konusunda bir ivmelendirme aracı olarak düşünülebilir.

İş zenginleştirme iş tasarımı, iş basitleştirme, iş rotasyonu ve iş genişletme şekillerinde gerçekleştirilebilir. İş basitleştirme ile eğitimsiz ve becerisi olmayan yani vasıfsız işgörenler için kullanılan bir iş zenginleştirme yöntemidir. İş rotasyonu ise işgörenlerin yaptıkları işlerin değiştirilmesi ya da işgörenin başka bir işe verilmesi şeklinde gerçekleştirilen iş zenginleştirme yöntemidir. İş genişletmede ise işgörene birden fazla görev ve sorumluluk verilmektedir. Ancak iş genişletmede işgörenlerin eğitimi şarttır. Yani işgörenlerin bilgileri, yetenekleri ve tecrübeleri geliştirilmelidir.

Sonuç olarak iş zenginleştirme insan kaynaklarını geliştirmeye yönelik yönetim yaklaşımında önemli bir araçtır denilebilir.

Yapılan çalışmalardaki en büyük pay; Amerika Birleşik Devletleri, Çin, Kanada ve İran'daki yazarlardadır. Diğer gelişmekte olan ülkelerde bu konunun hala yeteri kadar çalışılmadığı söylenebilir. Ayrıca, Covid-19 pandemisinin ortaya çıkardığı tüm basamaklardaki sağlık hizmetine büyük ihtiyacın da bu konudaki çalışmaların artışını önemli oranda tetikleyeceği düşünülmektedir. Gelecek çalışmalarda, belli tipteki sağlık tesisinin yer seçimine odaklanılabilir veya belirli yöntemlere kullanan çalışmalar ele alınabilir.

4. Akıllı tahta kullanım kaynaklı problemleri azaltmak ve daha verimli hale getirebilmek için öğretmenlere görev başında çalışmalar yaptırılmalı, akıllı tahta kullanımı konusunda eğitimler verilmelidir.
5. Öğrencilerden geri bildirim alınmasında farklı ölçme ve değerlendirme yöntemlerine yer verilmelidir.
6. Bu çalışma farklı bölgelerde eğitim-öğretim gören öğrencilerle, farklı üniteler üzerinde de gerçekleştirilmeli, etkileri gözlenmeli ve deneyimli diğer eğitim paydaşlarının görüşleri de alınarak daha kapsamlı analizler yapılmalıdır.

hukuki çerçevesinin çizilmesi büyük önem taşımaktadır. Ayrımcı dil, toplumun kaygı düzeyini arttıran, tehdit olarak temsil edilen, saldırgan dil ve nefret söylemlerinden uzak durularak toplumsal kabul ve uyumu destekleyen, olumlu sosyal algılar yaratan söylemlerle toplumsal dinamizmin devamlılığını sağlayacak doğru, hak temelli içeriklerin üretilmesi gerekmektedir.

aile, hukuk gibi yapısal oluşumlara nüfuz etmiş olan köklü ve çok boyutlu toplumsal cinsiyet eşitsizliğinin medya ve sağlık alanındaki etkileri tam olarak ortaya konulamayacaktır.

Multidisipliner bir alan olarak medyada sağlık içerikleri ve toplumsal cinsiyet olgusunu ilişkilendiren, sağlık bilimleri alanında toplumsal cinsiyet eşitsizliğinin kadın-erkek sağlığına etkilerine yönelik araştırmalara, iletişim alanında cinsiyetçi sağlık haberlerinin metin çözümlemelerine, insanlar üzerindeki etkilerine ve sağlık içeriklerinin üretim süreçlerine yönelik kapsamlı çalışmalara ihtiyaç vardır.

Atılması gereken en önemli adımlardan bir diğeri toplumsal eşitliğin öneminin vurgulanarak, kadın odaklı, eşitlikçi bir dil kullanımını benimseyen habercilik anlayışının yaygınlaştırılmasıdır. Haber dilinde eşitlikçi bir tavır olmalı, erkeği üstün gören tavırdan uzaklaşılmalıdır. Kadın haberleri için kişinin özlük hakları dikkate alınarak bir yayın standarttı getirilmelidir. Haberlerde kadınlara, mağdur kimliğiyle, magazinsel kimliğiyle ve cinsiyetiyle değil sadece insan olduğu için yer verilmesi gerekmektedir.

In a study conducted on the water flea known as *Ceriodaphnia dubia*, it was emphasized that the organism was exposed to prednisolone (7.8-15.6-31.25-62.5-125-250-500-1000-2000 **µg**/L) used at different rates showed a decrease in reproduction compared to the control group (Bal et al., 2017). Similarly, it was observed that the reproduction of the water flea known as *daphnia magna*, which was also used in our study, decreased at different concentrations of prednisolone used.

Suggestions

This study showed that Prednisolone poses a significant risk to Daphnia, so naturally, the same risk exists for other aquatic organisms.

- Değişken frekanslı çeviricilerde frekans ayarı 0,5-2000 Hz aralığında yapılabilmektedir. Bu frekans değerinde çeviricilerinde önce şebeke gerilimi doğrultulur. Üretilen bu doğru gerilim ara devreli bobin ve kondansatörlerle tarafından filitrelenir. Bu filitrelenmiş doğru gerilim inverter kontrol ünitesinde tarafından ayarlanabilir gerilim ve frekans üretilir. Bu gerilim ve frekans destekli asenkron motorların hız ayarı gerçekleştirilir. Değişken frekanslı çeviricilerde anma frekansın üzerindeki çalışmada asenkron motorun verim ve momenti düşer. Bu durum dikkate alındığında asenkron motorun seçiminde güç bir üst değerde seçilmelidir.

ve dayanıklı kontrol algoritmalarının oluşturulması için önemli sonuçlar sağlayabilir. Ayrıca yapay pankreas için kesirli dereceli denetleyici yapılarının tamsayı dereceli denetleyicilere göre daha dayanıklı sonuçlar verdiğine dair çalışmalar bulunmaktadır. Yapılan bu çalışma da bu sonucu desteklemektedir. Bu konuda yapılan çalışmalar oldukça az olduğundan, yapılan bu çalışma özgün ve sonuçları literatür katkısı açısından değerlidir. İleriye yönelik olarak denetleyici tasarımı için farklı teknikler kullanılabilir. Ayrıca, kesirli dereceli sistemler için geliştirilmiş olan yaklaşımlar kullanılarak yapay pankreasın kesirli dereceli olarak modellenmesi yapılabilir. Sistemin denetiminde farklı kesirli dereceli kontrolör yapıları kullanılarak farklı kontrol mekanizmaları oluşturulabilir. Bu çalışmalar literatür için önemli sonuçlar sağlayacaktır. Sonuçların pratik sistemlere aktarılması da kesirli sistemlerin realizasyonu çalışmaları için önemli bir adım olacaktır.
